

4.1.4.1 Consortium Agreements

A student can attend both institutions in the YCCD simultaneously and receive student aid based on total enrollment at both institutions. There is a consortium agreement within the YCCD only (i.e., between WCC and Yuba College only.) Requests for agreements with other institutions, even if local and even if approved by the other institution, will be denied. The student requesting the agreement must file a request with the Financial Aid Office. The "parent" institution is the institution in which the student is completing their Educational Program (i.e. the institution that will award the student and take financial aid responsibility) and the "sister" institution (i.e. the institution that will provide supplemental enrollment services). The "parent" institution will ensure there is no duplication of student aid.
