# WCC GRADUATION REQUIREMENTS

*The information below reflects the updated graduation requirements for the 2020-2021 academic year.*

Woodland Community College has a formal graduation ceremony once a year at the end of the spring semester. Students may petition to graduate in the Fall, Spring, or Summer terms. Students must APPLY to graduate prior to the posted deadlines for each term in order to be considered for graduation. Applications are available at the Admissions and Records Office, or through MyCampus Portal.

This catalog describes the District's graduation and transfer requirements. Not all requirements can necessarily be met at all locations where classes are offered. Students should seek the consultation of Counselor's, the Schedule of Classes, or WebAdvisor to determine the type of classes and frequency of offerings.

All students, including transfers from other colleges, are encouraged to complete placement (see "Placement Examination" information on page 28). Transfer students must have a 2.0 grade point average (GPA) in associate degree level course work, have a 2.0 GPA in Yuba Community College District associate degree level course work and have completed 12 units of associate degree level course work from Woodland Community College in order to graduate.

Students who desire to graduate may work toward an Associate in Arts, Associate in Science, Associate in Arts for Transfer, or an Associate in Science for Transfer degree. Students who plan to continue their education at a four-year college or university should also plan on completing transfer requirements and should consult a counselor for further information.

Common to both the Associate in Arts and the Associate in Science degrees is a strong general education program which fosters the following philosophy:

## General Education Philosophy Statement

"General Education in the Yuba Community College District is more than a set of required courses. It is a course of study designed to assist the student in beginning an effective lifelong learning process in which the interrelationships of human knowledge and experience are recognized. Embodied in this design is recognition of the student's need to think and communicate effectively, both orally and in writing; to use mathematics; to understand the modes of inquiry of the major disciplines; to be aware of other cultures and times; to achieve insights gained through experience in thinking about ethical problems; to develop the capacity for self-understanding; and to understand the issues related to and the ways in which health and well-being can be maintained."

**COURSE REQUIREMENTS FOR THE DEGREE:** Only courses completed by deadlines may be counted toward the degree to be issued for the requested term. (See "Course Numbering System," limitation of 100-299 courses for associate degree.)

For Associates Degree Transfer (ADT) degrees (AA-T or AS - T), the deadlines are as follows to Admissions and Records. For CSU Fall Admission—February 15th, for CSU Spring Admission—September 15th.

**Additional Associate Degrees**

An additional Associate in Arts or Associate in Science degree will be awarded to those already possessing an associate degree, subject to the following conditions:

- 1.All requirements in a different major from that of the previous associate degree(s) must be satisfied. Students may only earn one degree in a general major (Arts & Humanities, Natural Science & Mathematics, Social & Behavioral Sciences or later general education degrees earned prior to 2008).
- 2.All general education requirements go into effect at the time a new degree program begins. After meeting the above conditions, a student may petition for another degree for which he/she has met the graduation requirements.

Questions regarding this section should be directed to the Admissions and Records Office.

**Courses from Other Colleges**

All course work from other colleges/universities should be turned in for appropriate consolidation with your record in a timely manner. Courses from other colleges will be checked for repeats when a student petitions for graduation. At that time, any credit awarded for repeated classes will be coded on the student's academic record.

## WOODLAND COMMUNITY COLLEGE PROGRAMS

The information below serves as a **replacement** of the Sustainable Agriculture Certificate of Achievement description published in the original 2020-2021 college catalog.

### SUSTAINABLE AGRICULTURE (Certificate of Achievement)

Woodland Community College is located in Yolo County, home to a diverse group of farms and many Community Supported Agriculture (CSA) groups in the Capay Valley. The Woodland Community College Sustainable Agriculture Certificate of Achievement program is designed to engage students in agricultural practices and techniques that promote sustainability. Core courses introduce students to career opportunities and field experiences, while foundation courses in plant and soil science provide students with background information in general agriculture. The major courses in pest management and sustainable food systems emphasize specific approaches to sustainable agriculture and resources linked to energy. This program will prepare students for high demand occupations that involve sustainable agriculture practices. Typical jobs include: Farming, agriculture production, market gardener, farm manager, propagator, crop consultant, organic inspector, farm advisor, agricultural supplier, compost production, food technologist.

#### Student Learning Outcomes:

- Evaluate agricultural data, draw reasonable conclusions, recognize the environmental implications of these conclusions, and apply these conclusions to examples used in industry.

## CHILD DEVELOPMENT MASTER TEACHER (Certificate of Achievement)

*Effective Fall 2020 – Program Addition*

This certificate builds on the Child Development Teacher Certificate of Achievement, requiring additional courses in a specialization area (infant/toddler care, before/after school care for school age children, or children with special needs). The additional coursework prepares students to work as Master Teachers in Early Childhood Care and Education programs. Students with this certificate may be able to get jobs as Master Teachers at private organizations; state- and federally-funded centers require a state Child Development Permit, which has additional requirements (see Program Requirements).
