How to use this catalog

This catalog is published for informational purposes and students should use the catalog to help them be successful college students. This catalog provides important information to help students plan for college. It includes course information, resources, and services available; academic program descriptions; degree requirements; and information about College policies and procedures.

Each student assumes responsibility for compliance with the instructions and regulations set forth herein. However, the information in this catalog is not to be regarded as an irrevocable contract between the student and the District. The District reserves the right to change any provision or requirement at any time. The District assumes no responsibility for misinterpretation by a student of policies and procedures as presented in this catalog. Counselors and administrators are available to advise and assist students in meeting necessary requirements.
PRESIDENT’S WELCOME

On behalf of our students, faculty, professional staff, and college leadership, I want to welcome you to Woodland Community College. Whether you are attending the Woodland, Colusa County, or Lake County Campus, we are delighted you have chosen our college to further your education. You are truly the reason we are all here and you will find that our professional support staff and faculty are committed to ensuring that you have a rewarding experience at our college.

Our goals remain the same: to offer high quality student services and academic programs that will make it easier to complete your educational and career goals. For that purpose, we strive to offer high-quality student support services that will provide a seamless matriculation process and access to life-long learning opportunities that will serve as the foundation for career exploration and academic options.

Woodland Community College offers many transfer degrees and certificate programs. Whether your educational goal is to earn an associate degree and transfer to a four-year institution or to earn a specialized certificate, Woodland Community College has a program with your needs in mind.

In addition to our academic programs and services, our college offers a variety of student activities and student organizations that offer an opportunity to expand your experience outside of the classroom. I invite you to visit our website or our Student Services building to learn more about our campus life and opportunities to get engaged.

Again, it’s a pleasure and honor to welcome you to WCC. Stay safe and healthy

Sincerely,

Art Pimentel, Ed.D.
President, Woodland Community College

Yuba Community College District

The Yuba Community College District was founded in 1927 as a single-college district on a 160-acre site outside of Marysville. In December 1965, the District was reorganized to include Colusa, Sutter, and Yuba counties. Later, in 1974–75, the District was expanded to include portions of Glenn, Lake, and Yolo counties. The District now stretches across the broad Central Valley of California, from high in the foothills of the Sierra Nevada to the Coastal Range, and covers 4,192 square miles. The Yuba Community College District transitioned to a multi-college district in 2008 upon accreditation of Woodland Community College as the 110th community college in the California Community College System. The District comprises Woodland Community College with campuses in Woodland, Clearlake and Williams, and Yuba College with campuses in Marysville and Yuba City.

CAMPUS INFORMATION

Woodland Community College

Woodland Community College (WCC) was first established in leased facilities as an outreach center of Yuba College in 1975. The demand for college programs and services in Yolo County grew rapidly, and by 1977, plans for a permanent location emerged. In 1981, the outreach site was officially designated as an Educational Center by the California Postsecondary Commission, and in 1985, the Yuba Community College Board of Trustees secured a 120-acre site. Groundbreaking on the permanent facilities began in 1987 and the Center opened at the present-day site in 1990. The college has continued to develop and expand with the addition of a Science building in 2005 and a 72,000 Sq. Ft. Learning Resources Center in 2007. Local voters made further growth possible by their support of the Measure J Bond initiative in 2006 that provided funding for building renovations and infrastructure upgrades as well as establishing an outreach facility in Colusa County. Woodland Community College was accredited as the second college within the Yuba Community College District in 2008.

WCC offers General Education coursework, Associate Degrees for Transfer, Career Education (CE) Associate Degrees and Certificates of Achievement, skill-building courses, and other life-long learning opportunities. Our faculty, staff, and administration are committed to supporting student success through quality instruction and a wide range of support services.

Lake County Campus

Courses have been offered in this region since the fall semester of 1972. The Campus is located off Highway 53 in the city of Clearlake. In 2012, the campus added 26,600 sq. ft to the existing facilities. The expansion added a new student services center that includes a new library, three computer labs, and a vast array of important student services. The new facilities also include a state-of-the-art kitchen and dining room for the Culinary Arts Program and new classrooms/labs for Biology, Chemistry and Early Childhood Education courses. At the Lake County Campus, students can complete two years of pre-transfer work or satisfy their General Education requirements as well as major preparation courses for many degrees. In addition to transfer coursework, the Campus offers career technical education programs in Accounting, Automotive repair, Business Administration, Chemical Dependency Counseling, Culinary Arts, Early Childhood Education, Income Tax Preparation, Drinking Water/Waste Water and Welding are also offered. The Campus also provides a wide range of student services, developmental courses, and a Child Development Center. For many years, the Lake County Campus has been an outreach center of Yuba College. As of July 1, 2016, the campus has re-aligned with Woodland and is now known as the Lake County Campus of Woodland Community College.

Colusa County Campus

The Colusa County Campus of Woodland Community College, located at 99 Ella Street in Williams, opened in January 2011. Course offerings include a variety of general education transfer courses, English for Speakers of Other Languages (ESOL), and Career Education (CE) programs of study. Student services are also available at the campus, including the college’s TRiO programs.
COLLEGE GOALS & PHILOSOPHY

WCC Mission

The mission of Woodland Community College is to provide quality degrees, career certificates, transfer programs, and life-long skills.

Advantages of WCC

The faculty are experienced instructors, skilled in discovering and developing the interests and capabilities of their students. The ability to communicate with faculty members minimizes the risk that a student may become confused and lost in the hurry and bustle of college life and emphasizes the importance of the individual. Furthermore, WCC bridges the gap between high school and university, facilitating the adjustment to postsecondary education.

The years of college education offered by WCC are an important budgetary consideration, especially since there is an increasing tendency for professional preparation to require more than four years of college study. WCC enables students and their families to conserve their resources for a longer period of study required for professional training.

WCC provides students with such services and activities as individualized counseling, social and cultural activities, and physical recreation to meet the needs and patterns of all students. Whether the goal is career training to enter the job market, developing new skills to use an existing profession, or planning for transfer—Woodland Community College is an excellent choice.

The Board of Trustees is committed to equity, values the diversity of the District’s students, faculty, staff, and people with whom it does business, and believes in the importance of a multicultural education to prepare students for a global society.

The Board, in its commitment to diversity, has adopted the following: Definition of Diversity, Diversity Statement, Principles of Community, and Diversity Framework for Institutional Transformation and Cultural Competency.

Diversity Statement

The Yuba Community College District service area has a richly diverse population, spanning eight counties (Yuba, Sutter, Colusa, Lake, Yolo, and portions of Butte, Glenn and Placer) and nearly 4,200 square miles of territory in rural Northern California. The District recognizes, embraces, and celebrates the wide array of personal experiences and values that arise from differences of culture and circumstances within its vast educational borders.

The District has a compelling interest in fostering the multicultural knowledge, awareness, and skills necessary for its student body and workforce to contribute to its vision. The awareness that the District’s campuses are accessible to students from all groups, and thus serve all parts of the community equitably, helps sustain the academic and social fabric of the District.

Diversity is an integral part of Woodland Community College’s academic mission as it enriches the educational experiences and scholarly environment for all students. An interactive classroom that enhances diversity of thought and critical thinking across the curriculum will effectively prepare students for the complex and pluralistic world. WCC strives to foster an open exchange of ideas in an environment that provides role models and exemplifies the values of integrity, civility, mutual respect, and social justice in all of its activities.

The Yuba Community College District is committed to providing fair and equitable opportunities to students, employees, and the community through its recruitment, admission, and retention.
Principles of Community

The Yuba Community College District is committed to promoting and ensuring an environment that values and supports every person in an atmosphere of civility, honesty, cooperation, professionalism, and fairness. Diversity is essential to the creativity and innovation that we seek on our campuses, throughout the District, and in the communities.

The Yuba Community College District expects that every campus member will practice these Principles of Community:

✓ We value intellectual and cultural diversity, open communication, collegiality, collaboration, mutual respect, personal integrity, and responsible citizenship.
✓ We affirm the dignity of all individuals and strive to uphold a just community in which actions of discrimination and hate are not tolerated.
✓ We affirm the right of freedom of expression within our community and also affirm our commitment to the highest standards of civility and decency towards all.
✓ We acknowledge that our society carries historical and divisive biases; therefore, we will endeavor to foster mutual understanding and appreciation among individuals and groups. We promote awareness through education and constructive strategies for resolving conflicts.
✓ We confront and reject all manifestations of discrimination, including those based on ethnicity, gender, age, disability, sexual orientation, religious or political beliefs, status within or outside of the District, or any of the other differences among people which have been excuses for misunderstanding, dissension, or hatred.
✓ We recognize and cherish the richness contributed to our lives by our diversity. We take pride in our various achievements and we celebrate our differences.

Colors and Mascot

The official college colors are green, silver and black. The WCC mascot is the Eagle.

Woodland Community College
Institutional Student Learning Outcomes (iSLO’s)

Because individual WCC courses contribute to one or more areas of the eight institutional goals, students completing an associate degree at WCC will be able to achieve the following:

<table>
<thead>
<tr>
<th>INSTITUTIONAL GOAL</th>
<th>STUDENT LEARNING OUTCOME</th>
</tr>
</thead>
<tbody>
<tr>
<td>Communication</td>
<td>Effectively use language and non-verbal communication consistent with and appropriate for the audience and purpose.</td>
</tr>
<tr>
<td>Computation</td>
<td>Use appropriate mathematical concepts and methods to understand, analyze, and communicate issues in quantitative terms.</td>
</tr>
<tr>
<td>Critical Thinking</td>
<td>Analyze data and information in addressing and evaluating problems and issues in making decisions.</td>
</tr>
<tr>
<td>Global Awareness</td>
<td>Articulate similarities and differences among cultures, times, and environments, demonstrating an understanding of cultural pluralism and knowledge of global issues.</td>
</tr>
<tr>
<td>Information Competency</td>
<td>Conduct, present, and use research necessary to achieve educational, professional, and personal objectives.</td>
</tr>
<tr>
<td>Personal and Social Responsibility</td>
<td>Interact with others by demonstrating respect for opinions, feelings, and values.</td>
</tr>
<tr>
<td>Technological Awareness</td>
<td>Select and use appropriate technological tools for personal, academic, and career tasks.</td>
</tr>
<tr>
<td>Scientific Awareness</td>
<td>Understand the purpose of scientific inquiry and the implications and applications of basic scientific principles.</td>
</tr>
</tbody>
</table>
Accreditation

Woodland Community College is accredited by the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges, 10 Commercial Blvd. Suite 204, Novato, CA 94949, (415) 506-0234. The Accrediting Commission is an institutional accrediting body recognized by the Council for Higher Education Accreditation and the U.S. Department of Education Association of Junior Colleges.

Academic Freedom

Reference: Title 5, Section 51023; Accreditation Standard IIA.7

Academic employees must be free to teach and the students free to learn. Both students and faculty must have access to a full range of ideas, materials and options. It is the responsibility of academic employees to encourage students to study varying points of view and to respect the students’ right to form, hold, and express judgments, opinions, and beliefs, clearly identifying them as such.

The responsibility of protecting academic freedom rests with the Board of Trustees, administration, educational supervisors, and academic employees. Academic employees have a primary responsibility to develop the curriculum and select instructional materials and methods of presentation appropriate to meet the goals of that curriculum. Academic employees, educational supervisors, and administrators may recommend policies for Board consideration when there are criticisms of staff, methods, or materials.

Accessibility

The College recognizes its obligation to provide overall program accessibility throughout the College for handicapped persons. Contact the Section 504 Coordinator to obtain information as to the existence and location of services, activities, and facilities that are accessible to and usable by handicapped persons. Inquiries regarding Federal laws and regulations about nondiscrimination in education or the District’s compliance with those provisions may also be directed to the Office for Civil Rights, San Francisco Office, U.S. Department of Education, 50 United Nations Plaza, Room 239, San Francisco, CA 94102-4102.

The Yuba Community College District Board of Trustees has adopted a Diversity Policy, BP 1300, which includes the following: a Definition of Diversity, a Diversity Statement, Principles of Community and a Diversity Framework for Institutional Transformation and Cultural Competency.

Nondiscrimination Statement

The Yuba Community College District does not discriminate on the basis of race, color, national origin, sex (gender), physical and mental disability, age, sexual orientation, religion, medical condition, ancestry, or marital status in any of its policies, procedures, or practices, nor does it tolerate sexual harassment, in compliance with the Americans with Disabilities Act of 1991, Title VI of the Civil Rights Act of 1964 (pertaining to race, color, and national origin), Title IX of the Education Amendments of 1972 (pertaining to sex), Section 504 of the Rehabilitation Act of 1973 (pertaining to handicap), and Age Discrimination Act of 1975 (pertaining to age). This nondiscrimination policy covers admission and access to, and treatment and employment in, the College’s programs and activities, including vocational education.

Inquiries regarding the equal opportunity policies, the filing of complaints, or to request a copy of the complaint procedures covering discrimination complaints may be directed to in accordance with guidelines set forth by the Equal Employment Opportunity Commission (EEOC) and the Office of Civil Rights (OCR), the below individual is named as the District’s Section 504 Coordinator:

Chief Human Resources Officer
(530) 741-6876

In addition, the YCCD Board adopted BP/AP 5141-Academic Accommodations. Both documents are posted to the Yuba Community College District website:

Policies and Procedures: www.yccd.edu/board/policies

Diversity and Equity: www.yccd.edu/diversity
Admissions and Records

WOODLAND CAMPUS: (530) 661-5720, Building 700, Lobby
COLUSA COUNTY CAMPUS: (530) 668-2500
LAKE COUNTY CAMPUS: (707) 995-7926, Room 122

WCC.YCCD.EDU/ADMISSIONS

Students can obtain information regarding admission, enrollment, classes, grade information, parking, petitions, payment of fees, graduation and various other processes are available.

Student Learning Outcomes
✓ Students will demonstrate an increased understanding of various registration processes.
✓ Students will be able to utilize registration tools available to them through the web component.

A.S.W.C.C. Student Government

WOODLAND CAMPUS: (530) 661-5785, Building 700, Room 719

WCC.YCCD.EDU/ASWCC

The Associated Students of Woodland Community College (A.S.W.C.C.) controls student affairs, under the guidance of the Vice President of Student Services. The Student Council is the governing body of the ASWCC and provides services and social activities for students. They also represent students’ views to the administration and Board of Trustees through participation on college committees.

Bookstore

WOODLAND CAMPUS: (530) 661-5790, Building 200
TOLL-FREE: (800) 434-1443

WCC.YCCD.EDU/BOOKSTORE

In addition to making available for purchase the required books for each class, the bookstore also has classroom and course supplies, such as binders, pens, paper, snacks, drinks, etc. They also have a book rental program for students. Students from all campuses can order books online at wcc.yccd.edu/bookstore.

CalWORKs (California Works Opportunity and Responsibility to Kids)

WOODLAND CAMPUS: (530) 668-3681, Building 700, Room 711
COLUSA COUNTY CAMPUS: (530) 668-2500
LAKE COUNTY CAMPUS: (707) 995-4176, Room 602

WCC.YCCD.EDU/CALWORKS

The WCC CalWORKs program provides services to students receiving monetary assistance through Temporary Assistance to Needy Families (TANF). The CalWORKs Program offers services for eligible students in the following areas: Counseling, Job Placement, CalWORKs Work-Study and Childcare. Contact the CalWORKs office for further information.

Student Learning Outcomes
✓ The CalWORKs student will develop a Student Educational Plan (SEP) with the CalWORKs Counselor that is consistent with their welfare-to-work activity contract.
✓ The CalWORKs students will be familiar with how to access on/off campus resources to help them become successful students.

Career and Transfer Center

WOODLAND CAMPUS: (530) 661-5777, Building 700, Room 744
LAKE COUNTY CAMPUS: (707) 995-7322, Room 129

WCC.YCCD.EDU/CAREER-CENTER
WCC.YCCD.EDU/TRANSFER-CENTER

The Career/Transfer Center provides exploration and job search services utilizing industry career assessments, a library of occupation specific references and resources, career and job search workshops, community job talks/fairs and one-on-one career counseling by appointment.

Transfer services include transfer counseling, university representative visits, a library of college catalogs, and workshops about the transfer process.
Student Learning Outcomes

✓ Students will be able to identify their individual personality, interest and skills as it relates to selecting a career or major.
✓ As a result of discussing transfer with a counselor, a student will be able to identify online resources that they can utilize to facilitate their transfer process.
✓ Students will be able to identify courses needed for transfer through the development of an educational plan with a counselor.

Child Development Center

WOODLAND CAMPUS: (530) 661-5773, Building 1000
LAKE COUNTY CAMPUS: (707) 995-7909, Room 801
WCC.YCCD.EDU/CDC

The Child Development Center is open for the convenience of the students. Children must be three years through kindergarten age and must be toilet trained. Priority is given to children of parents carrying 12 or more units. Children must be signed up for at least a half-day session. Fees for the Child Development Center vary based on the session for which each child is registered. The Center offers a preschool program of planned learning experiences following a regular daily schedule. Facilities are available for outdoor/indoor play, learning activities, and naps.

Cooperative Agencies Resources For Education (CARE)

WOODLAND CAMPUS: (530) 661-5728, Building 700, Room 735
LAKE COUNTY CAMPUS: (707) 995-7912, Room 124
WCC.YCCD.EDU/CARE

The Cooperative Agencies Resources for Education (CARE) is a state-funded program which was developed to provide education opportunities for persons receiving TANF benefits. CARE is designed to provide support for students’ retention and academic success, as well as assist eligible students in their academic and/or vocational objectives. The program provides counseling, financial assistance, book grants, supplies, transportation, tutoring, and peer counseling. For further qualifications and information, contact the program directly.

Student Learning Outcomes

✓ At the end of one year in the CARE program, students will be able to identify and understand the various educational options available to students to help them successfully complete the requirements needed for their academic goals.
✓ With the CARE counselor, the student will develop a six-semester Student Educational Plan (SEP) that will identify and outline the coursework needed to be consistent with their academic goal.
✓ As a result of participating in the CARE orientation, the student will be able to identify and understand the requirements needed to be in compliance with the CARE program.

Cooperative Work Experience Education

WOODLAND CAMPUS: (530) 668-3696, Building 700, Room 745
LAKE COUNTY CAMPUS: (707) 995-7910
WCC.YCCD.EDU/CWEE

Cooperative Work Experience Education (CWEE) is a class designed to recognize learning that occurs on the job. In order to qualify, a student must: (1) be concurrently enrolled in a minimum of seven units which can include units earned in CWEE (enrollment in one other class during summer session); and (2) develop specific learning objectives approved by the employer and the college. A complete description of Cooperative Work Experience Education is found in the “Programs and Courses” section of this catalog.
Counseling Center

WOODLAND CAMPUS: (530) 661-5703, Building 700, Room 746
COLUSA COUNTY CAMPUS: (530) 668-2500
LAKE COUNTY CAMPUS: (707) 995-7900, Room 127
WCC.YCCD.EDU/COUNSELING

Counseling Services (free of charge) are designed to assist students in educational planning, career assessment, and personal growth and development. Counselors are available by appointment Monday-Friday with limited walk-in hours. Appointments are strongly recommended for developing an educational plan to ensure that students are taking the right courses to transfer or to meet specific educational goals. Counselors are ready to assist with any concerns that may affect a student’s successful participation in the college experience.

Student Learning Outcomes
✓ Students will be able to identify available educational resources.
✓ Students will be able to identify their educational goal.
✓ Students will be able to identify available educational resources.

Department of Supportive Programs & Services (DSPS)

WOODLAND CAMPUS: (530) 661-5797, Building 700, Room 764
LAKE COUNTY CAMPUS: (707) 995-7910, Room 141
WCC.YCCD.EDU/DSPS

Department of Supportive Program and Services (DSPS) offer eligible students access to a variety of individualized special support services. These services are intended to assist college students with disabilities in successfully participating at the postsecondary level. For additional information, please contact DSPS.

In accordance with guidelines set forth by the Equal Employment Opportunity Commission (EEOC) and the Office of Civil Rights (OCR), the below individual is named as the District’s Section 504 Coordinator:

Chief Human Resources Officer
(530) 741-6876

In addition, the YCCD Board adopted BP/AP 5141-Academic Accommodations. Both documents are posted online:

Extended Opportunity Programs and Services (EOPS)

WOODLAND CAMPUS: (530) 661-5728, Building 700, Room 735
LAKE COUNTY CAMPUS: (707) 995-7912, Room 124
WCC.YCCD.EDU/EOPS

EOPS supports students in their journey to successfully completing academic goals by providing above and beyond services. EOPS encourage access, retention, and transfer outcomes of students who are facing language, social, economic, and educational disadvantages through supportive services to support their academic and career goals. EOPS offers above and beyond services including academic and career counseling, financial grants, textbook assistance, progress reports, tutoring services, access to school supplies, printing, and peer mentoring. In order to empower our students and lead them to academic success, EOPS provides an atmosphere of positive encouragement, timely information, and financial assistance.

Student Learning Outcomes
✓ At the end of one year in the EOPS program, students will be able to identify academic goals.
✓ The student will work with an EOPS counselor to develop a six-semester Student Educational Plan (SEP) that will identify and outline the coursework needed to be consistent with their academic goal.
✓ As a result of participating in the EOPS orientation, the student will be able to identify and understand the requirements needed to be in compliance with the EOPS Program.
Financial Aid

WOODLAND CAMPUS: (530) 661-5725, Building 700, Lobby
LAKE COUNTY CAMPUS: (707) 995-7923, Room 117
WCC.YCCD.EDU/FINANCIALAID

Woodland Community College has a financial aid program that includes grants, scholarships, work study, student loans, and other aid designed to help students who need financial assistance to further their educational goals. To provide assistance in bridging the gap between a student’s own resources and the cost of attending college, students can get assistance from Financial Aid staff with completing a student aid application.

Federally subsidized PELL grants are available to students by applying for the Free Application for Federal Student Aid (FAFSA) which is available online at www.fafsa.gov. Students not eligible to complete the FAFSA may apply for state aid by using the California Dream Act Application (CADAA), which is available online at dream.csac.ca.gov.

After completing the FAFSA or CADAA online, students will receive an email confirming submission and receipt of the application. Once the college receives a student’s application, the school will notify students of any further documentation that may be required. Financial Aid staff are available to help students through the rest of the awarding process.

The FAFSA or CADAA should be completed as soon as possible. Applications for the academic year 2022-2023 are available as of October 1, 2021.

Student Learning Outcomes

✓ Students will be able to know and adhere to deadlines and priority dates, properly and accurately complete all necessary forms for financial aid using technology, i.e. apply through the web.

✓ Students will understand government philosophy of financial aid and learn the application process by submitting a complete and accurate package of requested information and/or documentation in a timely manner.

Foster & Kinship Care Education (FKCE)

WOODLAND CAMPUS: (530) 661-5772 or (530) 574-1964, Building 100, Room 109

The WCC Foster & Kinship Care Education (FKCE) program provides services to foster and kinship parents (relative caregivers), prospective foster parents, and families that have adopted children from the foster care system. The FKCE also connects caring professionals with children placed into out-of-home care and their families. Specialized educational classes and workshops are open to the general public and college credit is offered under Early Childhood Education (ECE). For more information, contact Cherie Schroeder, M.S., Instructional Specialist/Program Director.

Library/Media Services/Makerspace

WOODLAND CAMPUS: Library — (530) 661-5740, Building 800
      Media Services — (530) 661-5723
LAKE COUNTY CAMPUS: Library — (707) 995-7915, Room 156
WCC.YCCD.EDU/LIBRARY

The library offers a collection of books, periodicals, newspapers, DVDs, and electronic resources of various formats, such as scholarly peer reviewed journals, accessible in the library or online through the library’s website & portal pages. Books include topics for college-level research in addition to personal development, a small collection of children’s books, young adult literature, and adult easy readers (great for ESOL students or others wanting to improve their reading skills).

The library’s collections can be searched through the library’s catalog from the website. The website can also be used to access various subscription databases and the electronic book collection. Students can obtain assistance with research and library resources at the Library Reference Office. A library card may be obtained at the library circulation desk for free.

The library also provides resources for students to create and learn in the Library Makerspace. Equipment such as 3D printers, sewing machines, and hydroponics may be used to complete coursework or personal development. See the library’s web page for additional equipment, availability, and details.
The library provides instruction through research workshops and sessions in the college maker space as part of the Academic Success Workshop Series. A current schedule of the workshops can be found on the library’s website. The library also provides instruction through course integrated library sessions and one-to-one research assistance with students at the Reference Office.

Library facilities include quiet study areas, comfortable chairs and group study rooms. An Open Media Lab (OML) is available for computing and the library has multimedia stations for viewing DVDs, VHS, and other multimedia resources. The library’s primary responsibility is to serve the needs of students enrolled at Woodland Community College, Lake County Campus, and Colusa County Campus. Members of the public are also welcome to use the facilities any time the library is open. The library is open weekdays, evenings, and Saturdays.

**Student Learning Outcomes**

✓ To make a positive contribution to student learning through improving information competency.

**Student Health Services**

**WOODLAND CAMPUS**: (530) 358-2701, Building 700, Room 770  
**WCC.YCCD.EDU/HEALTH-CENTER**

Woodland Community College and CommuniCare Health Centers provide services for currently enrolled Woodland Community College students through the Student Services fee and the County of Yolo. Services are provided by appointment; however, walk-in appointments are welcome. Services are confidential and include behavioral health, physical exams, blood pressure checks, testing for anemia and diabetes.

Student health services include the diagnosis and treatment of minor illnesses, such as:

- Ear pain
- Sore throat
- Coughs/colds
- Sinus problems
- Headaches
- Rashes

- Urinary tract infections
- Pap smear testing, Birth Control methods
- Pregnancy testing and counseling services
- STD Counseling, testing, treatment, and referral

A Behavioral Health Specialist is also available to serve students who may be having a difficult time juggling the demands of college and challenges that arise in their personal lives.

**The college offers short-term assistance in the following areas:**

- Stress management
- Depression
- Anxiety
- Personal/social problems
- Family problems
- Eating disorders
- Concerns with domestic violence or abuse
- Sexual harassment or rape
- Post-traumatic stress disorder
- Substance abuse counseling and referral assistance

Contact Student Health Services for further information.

**Student Outreach and Retention (SOAR)**

**WOODLAND CAMPUS**: (530) 668-2595, Building 700, Room 757  
**LAKE COUNTY CAMPUS**: (707) 995-7349, Room 121  
**WCC.YCCD.EDU/OUTREACH**

Student Outreach and Retention (SOAR) aims to promote student engagement and retention while reaching out to the community and local K-12 institutions. The Student Engagement and Outreach Specialists coordinate with local high school counselors and partners to provide on-site matriculation workshops to successfully and seamlessly transition graduating seniors into WCC. SOAR also participates in other community events such as career fairs, high school college nights, conferences at CSU Sacramento and UC Davis, and the Yolo County Fair. The SOAR staff provides campus tours and oversees the Eagle’s Perch Student Lounge. Throughout the year, SOAR hosts several engagement and cultural awareness events at the Eagle’s Perch Student Lounge.

**Career Education**

Career Education (CE), also known as Career Technical Education (CTE) allows students the opportunity to embark in their chosen fields as early as high school. Through the CE Transitions program, WCC coordinates the awarding of college credit to high school students who meet approved articulation agreements. An articulated course is one in which the high school instructor/Regional Occupational Program (ROP) and Woodland Community College faculty have formally agreed that the high school/ROP course outline, syllabus, textbook, and final exam are comparable to those in a course of the same major within Woodland Community College. Students receive credit on a Woodland Community College transcript once the articulation requirements are completed. CE programs prepare students to earn a certificate, an associate’s degree, or transfer to a 4-year university.
Programs listed below have at least one class articulated with secondary institutions, typically a high school in our service area:

- Accounting
- Administration of Justice
- Agriculture Science
- Business Computer Applications
- Business
- Culinary Arts
- Early Childhood Education
- Welding

Students should check with a counselor if they have questions about specific classes in which they may have earned college credit courses completed at the secondary level. For more information about CE Programs and the CE Transitions Program, please contact SOAR or a counselor.

Student Learning Outcomes

✓ Students will be able to communicate effectively and use language and non-verbal communication consistent with and appropriate for the audience and purpose.

✓ Students will develop critical thinking skills and thus analyze data/information in addressing and evaluating problems and issues in making decisions.

✓ Students will select and use appropriate technological tools for personal, academic, and career tasks.

Student Success Center

WOODLAND CAMPUS: (530) 661-5733 Building 800, Room 814
COLUSA CAMPUS: (530) 661-5733, Room 115
LAKE COUNTY CAMPUS: (707) 995-7322, Room 129
WCC.YCCD.EDU/SUCCESS

The Student Success Center (SSC) offers free math and writing tutoring to all Woodland Community College students. Trained and friendly peer tutors are available to help students with subject content as well as reading and writing for any course. Students are welcome at any stage of the writing process, whether they need help understanding an assignment, getting started on a draft, organizing or developing ideas, or polishing sentences. Through a collaborative and supportive learning environment, the SSC strives to help develop active and independent learners.

THE STUDENT SUCCESS CENTER OFFERS ASSISTANCE IN THE FOLLOWING AREAS:

Mathematics, Engineering, and Science Achievement (MESA)
The MESA program is for students who have declared a major in Mathematics, Engineering, or Science. Additionally, this program is for qualifying low-income students who are the first in their family to attend college (first-generation college students). MESA is designed to help students within STEM fields excel academically, build community, participate in internships, capitalize on scholarship opportunities, and transfer to a four-year university.

Reading and Writing Center (RAWC)
The Reading and Writing Center offers students one-on-one assistance with reading and writing strategies in ANY discipline. Our RAWC tutors are trained to assist students with any phase of the writing process for all courses and will help with reading skills for any textbook or literary form. We recognize that reading and writing skills are important across many curricular areas and are equipped to help students at any stage of preparedness.

Supplemental Instruction (SI)
Supplemental Instruction (SI) is an interactive academic program that incorporates hands-on learning activities for students enrolled in specific courses. Courses that are affiliated with SI will offer ongoing, weekly SI sessions that deliver course material in fun and engaging ways.

Statistically, those who regularly attend SI sessions see an increase in course achievement. SI session days and times will be determined by students' availability in the course and will be geared to individual student needs.

Tutoring Center
The Tutoring Center provides one-on-one and group tutoring assistance for any math or science course. Tutors use independent learning strategies to help students better understand course concepts. Tutors will not complete a student's work, but will guide students through the material for a more holistic understanding.
TRiO Programs

WOODLAND CAMPUS: (530) 661-2285, Building 800, Room 850
COLUSA COUNTY CAMPUS: (530) 668-2500
WCC.YCCD.EDU/TRIO

The TRiO programs are for first-generation and/or students who meet the Federal Department of Education income guidelines. The programs work with junior/high school students and college students.

Pre-College Programs:
- Educational Talent Search (ETS) for 6th to 12th grade students
- Upward Bound (UB) for high school students

The goal of ETS and UB is to motivate and support students to enroll in postsecondary education. The programs help motivate, support, encourage and expose students to experiences that will enhance their potential to succeed on the secondary level and in a higher education institution of their choice.

College Programs:
- Student Support Services (SSS)
- Student Support Services - English as a Second Language (SSS-ESL)

Student Support Services (SSS)
Student Support Services (SSS) assists income-qualifying first-generation college students. The goal of SSS programs is to increase the college retention and graduation/transfer rates of participants. The program provides participants with: counseling services; academic tutoring; advice and assistance in postsecondary course selection; information on financial aid; and guidance as they research, apply, and transition to four-year institutions.

Student Support Services for ESL students (SSS-ESL)
Includes all the same benefits as SSS above but with additional English language support and workshops for students who are speakers of other languages (ESL/ESOL).

Student Learning Outcomes
✓ Students in the TRiO programs will identify their educational goals and design a plan to achieve these goals.
✓ Students will demonstrate effective leadership skills.
✓ Students will apply effective interpersonal communication skills in their interactions.

Veterans Resource Center (VRC)

WOODLAND CAMPUS: (530) 661-5704, Building 700, Room 775
WCC.YCCD.EDU/VETERANS

Woodland Community College is approved for the training of veterans and dependents under various laws of the United States and California. The Veterans Resource Center (VRC) assists veterans, reservists, and dependents of service disabled or deceased veterans with their educational benefits. The VRC also acts as a liaison with the U.S. Department of Veterans Affairs. Woodland Community College requires that all veterans and/or dependents who wish to collect education benefits contact the Woodland Community College VRC to start a file. The VRC will provide assistance in applying for benefits, educational pay, college registration, placement testing, and counseling referrals. All benefit recipients are required to submit a copy of their current class schedule to the Woodland Community College VRC each semester.

Regional VA processing can take 4 to 6 weeks. Any student receiving veterans’ educational benefits will have their benefits.

Student Learning Outcomes
✓ Students will be able to receive VA educational benefits for a determined length of time.
✓ Students will be informed of any additional benefits to assist students, offer additional awareness of program availability, and access
The focus of the Yuba Community College District Foundation is to provide increased opportunities for students and support student success. We do this by seeking, managing and administering funds for the betterment of student-centered programming and services at Woodland Community College and Yuba College.

Woodland Community College Fund:

Woodland Community College Fund of the Yuba Community College District Foundation is a charitable support organization for Woodland Community College. The WCC Fund is focused on securing financial, volunteer and community resources to increase opportunities for students, and support their academic success.

WCC Fund is an auxiliary of the YCCD Foundation, a tax-exempt 501(c)(3) not-for-profit organization and is overseen by a committee of local community volunteers. As an auxiliary of the YCCD Foundation contributions to the WCC Fund are tax-deductible.

Lake County Campus Fund:

At the Lake County Campus of Woodland Community College, we believe there is value in offering wider doors of opportunity for our students. Thanks to generous support of individuals and community members, the Lake County Campus provides more than 40 privately funded scholarships each year. LCC scholarship recipients are contributing members of our local communities. Every day you will see our graduates in a wide range of vocations from health care, law enforcement, culinary arts, education, welding and so much more. Your gift to support LCC scholarships will make a lasting impact in the life of a student and the community.

Scholarships & Programs

Visit the Financial Aid web page to learn how you might qualify for these scholarships or program funds at: wcc.yccd.edu/scholarships

WCC Scholarship Accounts
- Agriculture Scholarship Fund
- Bayer Crop Science Scholarship
- Disabled Students Scholarship Fund
- Emblem Club Scholarship
- Town and Country Club Scholarship
- Osher Scholarship
- Wettstein Family Geology Scholarship

WCC Program Funds
- Agriculture Progress Fund
- Beeghly-Merritt Rose Garden
- Bigelow Endowment
- Disabled Students Progress Fund
- Ethnic Studies Cross Cultural Series
- Faculty/Staff Emergency Relief Fund
- Foster and Kinship Care Program Fund
- Landscaping and Quad Fund
- Library Books Fund
- Library Reserve Books Fund
- Pre-School Parent Advisory Progress Fund
- Small Business Development Center
- WCC/Program Events Fund
Admissions

The Yuba Community College District does not restrict admission to residents of the District, nor does it restrict the privilege of District residents to attend any other community college. Nonresident students are accepted on the same basis as California resident students; however, State law requires an additional tuition charge (see “Residency Requirements” below).

Open Enrollment Policy

All courses, regardless of location, are open to members of the public who are otherwise eligible for admission, with the following exceptions:

- Courses that are specifically exempted by statute, including “impacted” allied health programs within the district (Radiologic Technology, Veterinary Technology, ADN, Psychiatric Technician, etc.);
- Courses closed by maximum enrollment of students by the “priority registration” policies;
- Courses with academic requisites that restrict enrollment of academically unqualified students; and
- Courses with content that would be a repeat of a course of equivalent or more advanced coursework previously taken by the student (exceptions require counselor recommendation and Vice President of Student Services approval).

Applicants may apply for admission online by going to our website at wcc.yccd.edu/admissions/apply.

Dual Enrollment of High School Students

A high school student who has completed the eighth grade may be admitted on a part-time basis subject to the following requirements with the written recommendation of the high school administrator/designee and the parent/guardian’s permission:

- Enroll in only college-level courses (courses numbered 1-99);
- No Physical Education (PE)/Kinesiology courses may be taken;
- Students must have met course prerequisite requirements;
- Students are required to fulfill the minimum day requirement at their high school, or, for charter/homeschooled students, the parent has to verify that the proposed college coursework will not interfere with the student’s basic high school coursework;
- Charter/homeschooled students must present a grade equivalency certification documenting the grade level the student has achieved;
- Charter/homeschooled students must present a copy of the affidavit submitted to the State or County Office Of Education to document the student’s involvement in an educational process;
- Students must be certified to be eligible for advanced scholastic or vocational coursework. Contact the high school administrator/designee for information concerning authorization to enroll.
- Students are subject to all rules, regulations, and fees of the College. The enrollment fee, student health fee, and non-resident tuition will be waived for eligible students.

Steps for Dual Enrollment Application

1. Complete the admission application through CCCApply.
2. High school transcripts must be received by electronic or direct mail from the issuing institution or hand carried in a sealed official envelope.
3. Participate in the Dual Enrollment program orientation through your partner high school district.
4. Information on the Dual Enrollment courses available at your high school along with upcoming course offerings should be available from your guidance counselor.

Residency Requirements

California state law mandates that each student who applies for admission must provide residency information and evidence as deemed necessary by the Admissions & Records Office in order to determine the student’s residence classification. The following rules regarding residency determination are not a complete explanation. For further information, contact the Admissions and Records Office. These rules are subject to change at any time in accordance with State law.
The residency determination date is the day prior to the first day of instruction for each semester. To determine this date, students must be physically present in the state a year and a day prior to the beginning of the term in which they wish to enroll.

**General Rules for Residency**

1. Persons who are 19 years of age or older may establish residence in accordance with the criteria listed below. Year of residence must begin after the student’s eighteenth birthday.

2. Persons who are under 19 years of age may establish residence in accordance with the criteria listed below and the following: (a) Married minors may establish their own residence, and (b) an unmarried minor derives residence from the parent with whom they are residing. If the student lives with neither parent, residency is derived from the parent with whom they last lived. (The Residence of an unmarried minor who has a parent living cannot be changed by their own act, by appointment of a legal guardian, or by relinquishment of a parent’s right of control.)

3. Active duty military personnel stationed in California are entitled to resident classification. Specific veteran classifications are entitled to residency classification for purposes of tuition.

4. A dependent child or spouse of an active duty military person stationed in California is entitled to residency classification.

5. A member of the armed forces of the United States stationed in California on active duty for more than three years immediately prior to being discharged may be exempt from non-resident fees. Establishment of residency requires physical presence and acts of intent be demonstrated for one full year.

6. Persons who have had a “permanent residence card” for one year or more may be eligible to establish residence in accordance with the “Criteria For Residency” section.

7. Nonresidents and noncitizens who have attended a California high school for at least three years and who graduated from a California high school may be eligible for exemption of the non-resident tuition. See the California Non-Resident Tuition Exemption (AB 540) form for more information or ask at Admissions and Records.

A student who is seeking reclassification must show financial independence in the current or preceding calendar year. This factor alone does not constitute residency.

**Criteria for Residency**

Nonresident students do not automatically become residents by merely being in California for more than one year. State law also requires “proof of intent” to establish California residence for more than one year prior to the residence determination date. The burden of proof rests with the student, not the District. Students must present a combination of documentation to prove intent to be a resident. Students must also show no contrary intent, that is, they must not have maintained residence status in their former state (i.e. driver’s license, taxes, car registration, etc.). Types of documentation that may be submitted that will help to establish proof of intent (No one factor is decisive) include the following:

**Documentation**

W-2 form; California State Income Tax payment; California Identification Card; California Driver’s License; Motor vehicle ownership and registration; Purchase of property; Lease of Property; Voter registration; License from California for professional practice; Any other proof of intent as may be deemed necessary to establish residence classification.

A student incorrectly classified as a California resident because of falsification of information is subject to reclassification as a nonresident and payment of nonresident tuition or exclusion from class(es) upon notification. Students classified as nonresidents may appeal the decision within 30 days of the date of the residence classification decision.

**Matriculation—Students’ Rights, Challenge, and Complaint process**

Students may challenge any matriculation component. To do so, students must consult with a college counselor. Challenges and/or complaints may be filed with the Vice President of Student Services, who is responsible for investigation and resolution. The Vice President of Student Services will maintain a file on all formal challenges and complaints.

Students who meet the criteria and receive an exemption from a WCC counselor are eligible to register as non-matriculated students without meeting any requirements other than the basic legal admission requirement.

For the purpose of registration status classification, such a student will be classified as a non-matriculant.
For the purpose of academic classification, the student’s statement on the registration form will be accepted without verification.

Students classified as non-matriculants will be required to declare an educational goal during the term after which the student completes 15 semester units of degree-applicable credit coursework. These students will be provided an opportunity to see a counselor to develop a student educational plan.

Registration Procedures

Continuing students should schedule a counseling appointment for advising on and completion of an educational plan. All other applicants should complete an Admission Application online, orientation, and have high school and/or college transcripts sent to the Admissions and Records Office. Applicants should also meet with a counselor to discuss educational plans and select appropriate courses for registration.

Student Responsibility Regarding Registration

Students should acquaint themselves with District policies and procedures, study the Catalog and the Schedule of Classes, consider the curricula carefully, and plan the courses needed/required for their majors and graduation before enrolling in courses.

Students must assume complete responsibility for fulfilling all requirements to meet planned objectives. Students on probation should carefully consider the consequences of their status when planning for registration and meet with a counselor to work on an educational plan.

Course placement services include counselor appraisal of previous college and/or high school work (transcripts should be sent to the college) as well as other information such as number of hours working that may have an effect on student goals.

10 Days to Pay Policy

Students have ten days to pay for their classes from the time of registration. Students who have not paid their fees within ten days may be dropped for non-payment. To avoid being dropped from classes, take one of the following steps:

1. Pay for classes in full; OR
2. Complete a California College Promise Grant (formerly known as the Board of Governors Fee Waiver) with Financial Aid prior to registration; OR
3. Sign up for a payment plan online through Self-Service. Students are responsible for making payment arrangements. Those who do not make payments may be dropped from one or more classes. Once registered, students will be able to see their status in Self-Service and through NelNet’s website: mycollegepaymentplan.com/woodland

Important: Students are responsible for any fees incurred and grades received. It is the student’s responsibility to drop classes by the state-mandated refund deadline to avoid fee obligations and they must be aware of all other published deadlines. (Once classes begin, non-attendance or non-payment does not release the student from their responsibility and may result in student fee debt and failing grades being awarded).

Change in Enrollment

Students wishing to change their course enrollment may add or drop classes using Self-Service or by submitting the appropriate forms to the Admissions and Records Office by the stated deadlines.

Enrollment fees for classes that are dropped on or before the refund deadline (end of second week of instruction for full-semester classes or ten percent of a short-term class) are credited to the student’s account. (See “Refunds” on page 30)

If a class is dropped prior to the Census Date (20% of the term for short-term courses), no notation of the course will be entered on the academic record. If a class is dropped after that time but prior to the end of the thirteenth week of a regular semester (75% of term for short-term courses), a “W” will be entered on the academic record. If the drop is processed after that time, state law provides the grade must be other than a “W,” and usually it will be a failing grade.

It’s the student’s responsibility (not the instructor’s) to process all adds and drops. This is not an automatic process. Students who discontinue attendance in any class without officially dropping the course are subject to a failing grade. If the student drops a class using Self-Service, it is the student’s responsibility to check that drops (or adds) were correctly processed.
Maximum Unit Load

The average student load is sixteen units per semester. In any case, nineteen units is the maximum allowable load, which is limited to sixteen maximum for a student on probation. Units in excess of nineteen are allowed only for the most urgent reasons and on the basis of counselor approval.

Eight units is the maximum in which a student may register during the summer session without counselor approval.

English/Math Placement

As one of the mandates of Assembly Bill (AB 705) passed in Fall of 2017, WCC has implemented a new process for placing students in their first English or Math course. Multiple measures include a combination of high school course information and a student’s cumulative GPA. Placement will be determined upon the completion of the college application. If a student’s placement requires adjustment, please meet with a Woodland Community College counselor. It is recommended that students bring their high school transcript (if available) or transcript information when meeting with a Counselor in order to complete the MMAP (Multiple Measures Assessment Program) form. For any questions, call WCC Counseling at (530) 661-5703.

*Note: It is helpful for students to know their level of performance in the English and math areas before planning a course of study at Woodland Community College. Students must meet with a counselor to discuss their educational strengths and needs. The counselor will guide them towards the appropriate English and math courses. Please call the WCC Counseling Office at (530) 661-5703 for an appointment.

If students have completed the equivalent prerequisite course at another college or university, they must submit official transcripts to the Admissions and Records Office. Students may clear prerequisites by scheduling an appointment with the Counseling Department.

For any questions regarding this process, please call the Admission and Records Office at (530) 661-5700.

Advisory Placement Levels For Courses Requiring College-Level Skills

Many “entry-level courses” that are numbered 1-99 carry credit/units that apply toward an Associate’s Degree and require college-level language and/or computation skills for successful participation. It is recommended that students meet the language and/or math requirements if they plan to enroll in any course with a description that includes an “L” and/or “M.”

- “L” means college-level language skills are recommended
- “M” means college-level computation skills are recommended.

THESE REQUISITES ARE ADVISORY ONLY:

(L) Designation
The (L) designation means that the content of the course is such that the student must have college-level language skills to successfully complete the course.

Students may meet the requirements for the (L) courses by:
1. Achieving an English placement level of 1105 or higher;
2. Achieving a grade of “C” or better in English 51;
3. Achieving eligibility to enroll in English 1A, 1B, or 1C; or
4. Possessing an AA, or AS, degree or higher.

(M) Designation
The (M) designation means that the content of the course is such that the student must have college-level math skills to successfully participate in the course.

Students may meet the requirements for (M) courses by:
1. Achieving a math placement level of 2105 or higher;
2. Achieving a grade of “C” or better in Math 101 or 101B
3. Achieving eligibility to enroll in Math 51, 52, or 58, or
4. Possessing an AA, or AS, degree or higher

(C) Designation
The (C) designation means that the content of the course is such that the student must have college-level computer skills to successfully participate in the course.

Students may meet the requirements for (C) courses by:
1. Achieving a grade of “C” or better in AG 12, BCA 15, 60, 62, 41, 22, 33, 26, 37, or COMSC 10L.
2. Possessing credit in an equivalent high school or college course.
3. Achieving a score of 50 or higher on the CLEP Information Systems and Computer Applications exam.

Schedule of Classes
The Schedule of Classes is published online each semester along with the Academic Calendar, registration procedures, and deadlines.

Unit of Academic Credit
The unit of credit is the semester hour. The value of a course is computed on the basis of one unit of credit for each hour of lecture or discussion and two-to-three hours of laboratory. Courses meeting less than a full semester will require an equivalent number of hours prorated on a per-week basis. Two hours of outside preparation are normally required for each semester hour of class lecture. In order to earn credit in a course, the student must complete the course; no partial units of credit are allowed. To serve the purposes of the students and the District, courses may, on occasion, be offered for less than the number of units indicated in the course outline.

Fees and Expenses
All fees are those known at the time this catalog went to press and are subject to change.

State-Mandated Enrollment Fee
All students (unless at the time of registration they qualify for an exemption under state mandates) are to pay an enrollment fee. These fees are established by the state legislature and are determined at the time of enrollment by the student’s unit load. The current fee is $46.00 per unit.

Exemptions
State regulations provide the following three programs to help eligible low income students with California residence status to have the enrollment fee waived.

- California College Promise Grant (formerly known as the Board of Governors Fee Waiver Program A.) For any student who, at the time of registration, is a recipient of (1) TANF (Temporary Assistance for Needy Families); (2) SSI/SSP (Supplemental Security Income/State Supplementary Program); (3) General Assistance/General Relief Program; or (4) The California Department of Veteran Affairs or the National Guard Adjutant General’s Certification of Eligibility for a dependent’s fee waiver.
California College Promise Grant Board of Governors Waiver Program B. For low-income students who meet eligibility requirements.

California College Promise Grant Board of Governors Waiver Program C. For low-income students who qualify for Financial Aid.

California College Promise Grant Board of Governors Waiver Program D. For students who meet the definition of unaccompanied homeless youth.

Prior to registration, students in any of these categories should obtain the appropriate application materials from the Financial Aid Office for exemptions:

Nonresident/Noncitizen Tuition
Students who have not established California residency in accordance with state regulations (See “Residency Requirements” on page 24), will be required to pay the nonresident tuition fee of $270.00 per unit. In addition to other enrollment fees, students who are both citizens and residents of a foreign country are required to pay $270.00 per unit plus the established per unit enrollment fee and student health fee.

Student Health Fee
ALL students are required to pay a $10.00 student health fee each semester/summer session. Students who depend exclusively upon prayer for healing in accordance with a bona fide religion, sect, or denomination (upon written verification from an authorized church official) are exempt from paying the student health fee. This church documentation must be submitted to the Vice President of Student Services office for the exemption.

Parking Fee
Students and staff who drive vehicles on campus will pay a parking fee and be issued a permit. The cost is $40.00 per semester; $20 for summer session. As an option, students may purchase a $2 daily parking pass in lieu of a semester permit. The parking fee covers day and evening campus attendance. All non-student, seasonal, and short-term employees may park in the General Parking lots and must display either a valid semester parking permit or a $2 parking pass. Students who have a fee waiver can purchase their parking permits for $20.00 per semester depending on their eligibility. All semester parking permits are available for purchase through Self-Service.

Students who withdraw from classes before the thirteenth day of the semester (dates vary for short-term classes) may apply for a refund of the parking fee. The parking permit must be returned to qualify for the refund.

Other Fees
The Associated Students of Woodland Community College collect a voluntary annual A.S.W.C.C. Fee of $10.00 per year, $5.00 per semester for services and benefits. In compliance with AB 1504, there is also an optional student representation fee of $2 that will be collected at the time of registration.

All students should be prepared to purchase their own books, which are sold at the bookstore. Direct school expenses for the entire year, including books, will probably average $600 to $700; book costs for pre-professional students (such as engineering and medicine) will run somewhat higher.

Students in some Career Education programs (such as Administration of Justice, Nursing, Psychiatric Technician, Radiologic Technology) are required to pay for drug testing, film badges, a background check, and other related items for the program. The California College Promise Grant (CCPG, formerly known as BOGW) enrollment fee waiver does not cover these charges.

Students may be required to provide instructional materials required for a credit or non-credit course. Such materials shall be of continuing value to a student outside of the classroom setting and shall not be solely or exclusively available from the District (See Administrative Procedure 5031).

Estimated total expenses, including personal expenses and transportation, for a California resident is $13,147.00. A sample budget for an average California resident for one year is shown below:

Sample Expenses of Average California Resident Student Attending Woodland Community College:

Refunds

All enrollment fee refunds are subject to a $10.00 processing fee. This fee will be charged only once per semester of enrollment. Any refund processed for less than $10.00 will not be assessed an additional fee.

Book Refunds
Full refunds will be made, at the college bookstore, for books purchased for the current semester up to two weeks after the start of that semester; one week for summer session. Receipts are required for all refunds and new books must be unmarked and in new condition.

Student Services Fees and Nonresident Tuition
Students are eligible for a refund of Student Services fees if the steps below are followed:

1. The student officially drops the class on or before the refund deadline (end of second week of instruction); and
2. The drop(s) reduces the student's currently enrolled unit load; and
3. A refund request form is filed through Self-Service. When students request a fee refund, they should be aware of the following:
4. Students must request to receive a refund of fees through Self-Service. All enrollment fee refunds are subject to a once-a-semester $10 processing fee.
5. If fees were paid by check, there will be a waiting period until that check clears through the student's bank before refunds can be processed.

For refunds, a student must complete a Request for Refund through Self-Service and a check will be mailed. Official drops may be submitted through Self-Service, or in person at Admissions and Records. It is the student's responsibility to ensure all drops are processed.

Parking Fees: Students who withdraw from classes before the thirteenth day of the semester (dates vary for short-term classes) may apply for a refund of the parking fee. The parking permit must be returned to qualify for the refund.
MATHEMATICS & STATISTICS

COURSE SEQUENCING

Preparatory Courses
These are recommended based on your guided placement prior to starting the math sequence.

Elementary Algebra
Math 101

Intermediate Algebra
Math 52

College Algebra
Math 20

Plane Trigonometry
Math 21

Math 20 and Math 21 can be taken in any order, but both are required before Math 1A.

Single Variable Calculus I — Early Transcendentals
Math 1A

Single Variable Calculus II — Early Transcendentals
Math 1B

Multivariable Calculus
Math 1C

Ordinary Differential Equations
Math 2

Linear Algebra
Math 3

Calculus for Business, Social & Life Science
Math 9

Concepts & Structures of Mathematics
Math 15

Finite Mathematics
Math 25

Introduction to Statistical Methods
Stat 1

Algebra Support for Intro. to Statistical Methods
Stat 100
Optional co-requisite recommended based on guided placement. Taken concurrently with Stat 1.

Preparatory Courses

WOODLAND COMMUNITY COLLEGE 2021–2022
FINANCIAL AID

The goal of the Financial Aid office is to assist students in bridging the gap between their own resources and the cost of attending college while pursuing an eligible educational goal. We offer assistance with completing applications and providing information about the requirements of the various financial aid programs. Financial aid consists of federal grants, work study, state grants, fee waivers, scholarships, and loans.

Criteria and Procedures for Financial Aid

In order to treat all students equitably, standardized budgets are established and are applied to all applicants. Typical expenses for an academic year for a California resident living with parents to attend Woodland Community College are: State-mandated Enrollment Fee, $46 per unit; Student Health Fee, $20; Room/Board, $9,081; Books/Supplies, $1,125; Personal expenses, $3,276; Transportation expenses, $999

The application form to be used for most financial aid programs is the Free Application for Federal Student Aid Program (FAFSA) at www.fafsa.gov. In order to determine “need” for financial aid funds, taxable and nontaxable income information is necessary. Award funds are made based on this need. Income, assets, debts, size of family, and number of family members in college are important factors considered in the calculation. This information is reported on the FAFSA application form and forwarded to the central processor for further processing. Supporting documentation may be required by the Financial Aid office. A student who is ineligible for FAFSA aid may complete the California Dream Act Application at dream.csac.ca.gov.

Deadline for Filing Financial Aid Applications

Applications for each academic year are available October 1st and are processed on a first-come, first-served basis. Eligible students with completed files will receive the highest award.

Satisfactory Academic Progress

Students awarded financial aid funds are required, by federal law and Woodland Community College policy, to make satisfactory academic progress towards their educational goal. Satisfactory of financial aid probation status is necessary in order to continue receiving funds.

The specific requirements are available in the Financial Aid Guide on the Financial Aid web page at wcc.yccd.edu/financialaid

Return to Title IV (R2t4)

Students who drop completely or withdraw from classes prior to completing 60% of the term may be required to repay any unearned federal funds to Woodland Community College or to the Department of Education, per federal regulations.

Types of Aid Available to Woodland Community College Students

Scholarships

Many scholarships are available to help students to meet the cost of education. These scholarships become available through private support from individuals and organizations in the Woodland Community College community who have contributed to scholarship funds. Most scholarships are based on academic achievement; others are based on financial need.

A complete listing of all scholarships offered, eligibility requirements, deadline dates, and application information is available online at wcc.yccd.edu/scholarships

Grants

Federal, state, and institutional grant programs are available to eligible Woodland Community College students. These funds are based on financial need criteria. Included are: Federal Pell Grant; Federal SEOG (Supplemental Educational Opportunity Grant); California College Promise Grant (CCPG); EOPS (Extended Opportunity Program & Services) Grant; CARE (Cooperative Agency Resources & Education) Grant; Chafee Grant; Cal Grants B and C; Student Success Completion Grant (SSCG); and Promise Award.

Work-Study

The Federal Work Study program provides jobs for eligible students awarded FWS funds as part of their financial aid package. An award offer is not a job guarantee. The Financial Aid office helps eligible students locate employment. College units may also be available for this job.
experience; contact a counselor for more information. This popular program provides invaluable work experience and a flexible work schedule for students attending Woodland Community College. The CalWORKs Work-Study Program coordinates with the Federal Work Study Program on a student-by-student basis.

**Federal Direct Loans**

Effective Spring 2019, WCC reinstated the federal loan program for students. The U.S. Department of Education offers eligible students at participating schools **Direct Subsidized Loans and Direct Unsubsidized Loans**. (Some people refer to these loans as Stafford Loans or Direct Stafford Loans.) **Federal Direct Stafford student loans** are a long-term financial obligation. Getting a loan means students are responsible for repaying the borrowed money, including interest and fees. **Repayment** of a student loan is necessary six months after any one of the following occur: 1) graduation, 2) dropping below half time enrollment status, or 3) completely withdrawing from classes.

For additional information regarding Federal Direct Loans, visit the Federal Student Aid website at studentaid.gov/understand-aid/types/loans

This site contains important information that students will be responsible for understanding as part of the loan obligations as federal student loan borrowers.

**NOTE:** To any student borrower or parent borrower of a student who enters into an agreement regarding a Title IV, HEA loan (Federal Direct Stafford and/or Federal Direct PLUS loans); your loan information will be submitted to the National Student Loan Data System (NSLDS) and such information will be accessible by authorized agencies, lenders, and institutions, per the Higher Education Act of 1965, as amended (HEOA 489 amended HEA Sec. 485B). Inquire with the WCC Financial Aid office for application and requirements.

**American Opportunity Tax Credit (AOTC)**

The American opportunity tax credit (AOTC) is a credit for qualified education expenses paid for an eligible student for the first four years of higher education. Students can get a maximum annual credit of $2,500 per eligible student. If the credit brings the amount of tax you owe to zero, you can have 40 percent of any remaining amount of the credit (up to $1,000) refunded to you.

The amount of the credit is 100 percent of the first $2,000 of qualified education expenses you paid for each eligible student and 25 percent of the next $2,000 of qualified education expenses you paid for that student. The full credit is available to individuals, whose modified adjusted gross income is $80,000 or less, or $160,000 or less for married couples filing a joint return. You receive a reduced amount of the credit if your MAGI is over $80,000 but less than $90,000 (over $160,000 but less than $180,000 for married filing jointly). You cannot claim the credit if your MAGI is over $90,000 ($180,000 for joint filers).

**Lifetime Learning Credit (LLC)**

The lifetime learning credit (LLC) is for qualified tuition and related expenses paid for eligible students enrolled in an eligible educational institution. This credit can help pay for undergraduate, graduate and professional degree courses—including courses to acquire or improve job skills. There is no limit on the number of years you can claim the credit. It is worth up to $2,000 per tax return. For tax year 2020, the amount of your LLC is gradually reduced (phased out) if your modified adjusted gross income (MAGI) is between $59,000 and $69,000 ($118,000 and $138,000 if you file a joint return). You can't claim the credit if your MAGI is $69,000 or more ($138,000 or more if you file a joint return).

The amount of the credit is 20 percent of the first $10,000 of qualified education expenses or a maximum of $2,000 per return. The LLC is not refundable. You can use the credit to pay any tax you owe, but you won't receive any of the credit back as a refund.

Visit the ETIC website for comparison of AOTC and LLC

**1098-T Forms**

At the end of each calendar year, the Yuba Community College District will make available a statement (Form 1098-T) for students who meet the required criteria and who paid for the enrollment/tuition fees (does not apply if fees were waived or paid by another agency). The Form 1098-T will be available in Self-Service.

For more information about education-related tax benefits, please visit the IRS Tax Benefits for Education: Information Center at the IRS newsroom
Student Activities

WCC believes that a variety of extracurricular activities outside the classes will give students an opportunity to develop their personalities and broaden their social lives under wholesome conditions. The college offers a carefully planned, faculty-sponsored activities program on campus. Clubs, Associated Students of WCC, class and departmental organizations, publications, music and drama activities, and traditional events offer a wide and interesting field for student participation. Those opportunities stimulate social and individual development comprise one of the advantages of campus life at WCC. Every student is urged to engage in activities insofar as academic responsibilities permit.

Clubs and Organizations

Clubs and organizations cater to and meet the academic, social, and political needs of a wide variety of students; they provide participation in extracurricular activities both on- and off-campus. Information concerning clubs and organizations can be obtained by calling our Student Engagement & Outreach Office at (530) 668-3691 or visiting the Student Organizations web page or the SOAR Team. Students are encouraged to start and participate in clubs. Below is a list of clubs that have been chartered by ASWCC in recent years:

- Club United
- Future Business Leaders of America (FBLA)
- Mesa Club
- Martial Arts Club
- Psychology Club

Student Code of Conduct

Violations & Sanctions

If a student’s conduct violates District rules or regulations, the Code of Conduct for Students, or public laws, the student will be subject to one of the forms of “sanctions” included in the Code, which are:

- **Admonition.** An oral statement to a student that he or she is violating or has violated District rules or legal statutes.
- **Warning.** Notice, orally or in writing, that continuation or repetition of conduct found wrongful, within a period of time stated in the Warning, may be cause for more severe disciplinary action.
- **Censure.** A written reprimand for violation of specified regulations, including the possibility of more severe disciplinary sanctions in the event of the finding in a violation of any District regulation or legal statute within a stated period of time.
- **Disciplinary Probation.** Exclusion from participation in the Financial Aid Program and/or in privileged or extracurricular District activities as set forth in the notice for a period of time not exceeding one school year; withholding of grades and/or transcripts, if on Disciplinary Probation due to refusal to meet financial obligation to the college, including a parking fine.
- **Restitution.** Reimbursement for damage to or misappropriation of property. This may take the form of requiring appropriate service or other compensation.
- **Suspension.** Exclusion from classes and other privileges or activities, including Financial Aid, as set forth in the notice for a definite period of time not to exceed two years; may include “Withdrawal of Consent for Student to Remain on Campus.”
- **Expulsion.** Termination of student status for an indefinite period. The conditions of readmission, if any, shall be stated in the Order of Expulsion. A copy of the Woodland Community College Code of Conduct for Students may be obtained from the Office of the Vice President of Student Services.

Dress Regulations

WCC students are expected to demonstrate maturity by exercising good judgment and taste in everyday attire. Within these expectations of student judgement, every individual is required to wear shoes or bona fide street sandals in all campus buildings. Instructors in charge of field trips and/or social events have authority to enforce additional dress regulations which they deem are required for the occasion.

Drug-Free School Policy

The District recognizes that substance abuse is a major health problem throughout the United States. In order to eliminate abuse, the entire college community must be involved. The single consistent message is that substance abuse is wrong, dangerous, and will not be tolerated.
You can view the college’s Drug and Alcohol Abuse Prevention Plan on Page 56 or on the website at wcc.yccd.edu/student/financialaid/daapp

The Yuba Community College District has a “zero tolerance” policy; all campuses and centers are to be alcohol and drug free.

It is the stated policy of the Yuba Community College District to implement a comprehensive substance abuse strategy that will work more effectively in combating potential drug use and use of drugs by students. The policy sets forth procedures that not only educates and informs students of the dangers of drugs and alcohol, but also encourages each individual to act to prevent the sale and use of drugs.

The following program principles have been adopted to implement this policy:

• The Student Code of Conduct, supported by Education Code Section 60041, prohibits the unlawful possession, use, or distribution of illicit drugs and/or alcohol by students on its property or as part of any of its activities.
• Information regarding applicable legal sanctions under local, state, and federal law for the unlawful possession or distribution of illicit drugs and/or alcohol is available to all students through the WCC Campus Police Department and the WCC Campus Student Health Services.
• Educational materials regarding health risks associated with the use of illicit drugs and the abuse of alcohol are made available to all students through Student Health Services. More in depth information is available through the Chemical Dependency Program courses.
• Information regarding resources for drug or alcohol counseling and treatment are available through Student Health Services.
• The Vice President of Student Services Office will keep records of all disciplinary actions and evaluate consistency of all enforcement.

Smoking Policy
In the interest of public health, Woodland Community College became a tobacco-free campus effective August 18, 2003.

Use of any form of tobacco is prohibited at all times in the following areas:

1. On all grounds and in all buildings of the Woodland Community College Campus, the Lake County Campus, and the Colusa County Campus.
2. In or on any space, building, or classroom leased or rented by the college.
3. In all vehicles owned or leased by the college.
4. This policy and these regulations apply to employees, students, visitors, and other persons who enter any Woodland Community College facility as described in paragraph one.

Smoking, or other use of tobacco, is prohibited within all Yuba Community College District buildings, including restrooms, dining areas, classrooms, laboratories, library, gymnasium, offices, and the theatre, along with any other interior building area, including quads.

Selective Service Registration
By law, all male citizens must register for selective military service at age 18. The Selective Service Registration Program allows the government to keep an accurate list of names and addresses for young men, 18 through 25 years old. In a national emergency requiring expansion of our Armed Forces, the list would be used to call men for possible military service. By registering all young men, the Selective Service System makes sure a future draft will be fair. If individuals do not register, they could be prosecuted and fined up to $250,000 and/or be put in jail for up to five years. Registration is also required to qualify for federal student financial aid, job training benefits, and most federal employment. The Selective Service Registration Form may be obtained from a local post office or online at www.sss.gov.

Children in Class
Attendance in a class is limited to those students who are officially registered in accordance with state and district regulations. This includes high school students enrolled concurrently in the class. Children of students are prohibited from attending classes. Classes are limited in size and no disruptions will be allowed in the classroom. Additionally, the college assumes no liability for injuries that may occur to the child.
Student Rights and Grievances

(Reference: Title IX, Education Amendments of 1972; Education Code Section 76224(a))

The purpose of this procedure is to provide a prompt and equitable means of resolving student grievances. These procedures shall be available to any student who reasonably believes a college decision or action has adversely affected his or her status, rights, or privileges as a student. The procedures shall include, but are not limited to, grievances regarding: Sex discrimination as prohibited by Title IX of the Higher Education Amendments of 1972 (Sexual Harassment, Financial Aid, Illegal Discrimination).

The exercise of rights of free expression protected by state and federal constitutions and Education Code Section 76120. This procedure does not apply to: Student disciplinary actions, which are covered under separate board policies and administrative procedures. Police citations (i.e., “tickets”); complaints about citations must be directed to the county courthouse in the same way as any traffic violation.

Definitions:

- **Party.** The student or any persons claimed to have been responsible for the student’s alleged grievance, together with their representatives.”Party” shall not include the Grievance Hearing Committee or the College Grievance Officer.

- **President.** The President or a designated representative of the President.

- **Student.** The student is a person that is currently enrolled, a person who has filed an application for admission to the college, or a former student.

- **Respondent.** Any person claimed by a grievant to be responsible for the alleged grievance.

A grievance by an applicant shall be limited to a complaint regarding denial of admission. Former students shall be limited to grievances relating to course grades to the extent permitted by Education Code Section 76224(a). Informal Resolution:

Each student who has a grievance shall make a reasonable effort to resolve the matter on an informal basis prior to requesting a grievance hearing, and shall attempt to solve the problem with the person with whom the student has the grievance, that person’s immediate supervisor, or the local college administration. Any student who believes they have a grievance shall file a Statement of Grievance with the Grievance Officer within 15 working days of the incident on which the grievance is based or fifteen working days after the student learns the basis for the grievance, whichever is later. The Statement of Grievance must be filed whether or not the student has already initiated efforts at informal resolution, if the student wishes the grievance to become official. Within five days following receipt of the Statement of Grievance Form, the Grievance Officer shall advise the student of their rights and responsibilities under these procedures and assist the student, if necessary, in the final preparation of the Statement of Grievance form. If at the end of five working days following the student’s first meeting with the Grievance Officer, there is no informal resolution of the complaint that is satisfactory to the student, the student shall have the right to request a grievance hearing.

Grievance Hearing Committee:

A Grievance Hearing Committee shall be constituted in accordance with the following: It shall include one student, two instructors, one college administrator, and one classified selected from the panel described above. If the President feels that sufficient grounds for removal of a member of the committee has been presented, the President shall remove the challenged member or members and substitute a member or members from the panel described above. The determination is subject to appeal as defined below.

The Grievance Officer shall sit with the Grievance Hearing Committee as Chair of the Committee but shall not serve as a member nor vote. The Grievance Officer shall coordinate all scheduling of hearings, serve to assist all parties and the Hearing Committee to facilitate a full, fair and efficient resolution of the grievance, and avoid an adversary role.

Request for Grievance Hearing:

Any request for a grievance hearing shall be filed on a Request for a Grievance Hearing within ten working days after filing the Statement of Grievance as described above.

Hearing Procedure:

The decision of the Grievance Hearing Committee chair shall be final on all matters relating to the conduct of the hearing unless there is a vote of a majority of the other members of the panel to the contrary. The members of the Grievance Hearing Committee shall be provided with a copy of the grievance and any written response provided by the respondent before the hearing begins. Hearings shall be closed and confidential unless all parties request that it be open to the public. Any such request must be made no less than five working days prior to the date of the hearing. Within five working days following receipt of the Grievance Hearing Committee’s decision and recommendations), the President shall send to all parties his or her written decision.
The decision of the President shall be final, subject only to appeal as provided below.

**Appeal:**
Any appeal relating to a Grievance Hearing Committee decision that the Statement of Grievance does not present a grievance as defined in these procedures shall be made in writing to the President within five working days of that decision. The President shall review the Statement of Grievance and Request for Grievance Hearing in accordance with the requirements for a grievance provided in these procedures, but shall not consider any other matters. The President’s decision whether or not to grant a grievance hearing shall be final and not subject to further appeal.

For more information see AP 5530 on the Yuba Community College District Board Policies at: www.yccd.edu/board/policies

---

**CAMPUS POLICE**

**Woodland Campus Police Department**

**Mission Statement:**
The Yuba Community College District Police Department is dedicated to developing partnerships with the community we serve, including students, staff, and faculty in order to support the goal of providing quality higher education in a safe and secure atmosphere. The college will closely interact with the community and local government agencies and engage in crime prevention, criminal apprehension, and other activities which reduce concerns in the community. We will commit ourselves and our resources in partnership with the community to promote a safe and secure learning environment.

**Campus Information:**
The Campus Police Department is located in Building 300 on campus. The telephone number is (530) 661-5722. Yellow emergency call boxes, which immediately summon an on-duty officer, are located at both the East (middle section) and West (by the parking permit dispenser) parking lots and on light posts outside of Buildings 600 and 700.

We are committed to ensuring the safety of our students, staff, faculty, and just and impartial visitors. Every member of our department is involved in keeping all of the campuses safe and secure. However, a truly safe campus can only be achieved through the cooperation of all students, employees, and visitors. The Yuba Community College District covers nearly 4,200 square miles, and currently has five campuses in five different personal counties. The police department provides professional law enforcement services at all five campuses. These campuses include Yuba Community College, Woodland Community College, Lake County Campus, Colusa County Campus, and the Sutter County Center.

A copy of the annual security report, also known as The Jeanne Clery Disclosure of Campus Security Policy, is a report published by colleges and universities that contain campus crime and fire safety statistics and certain campus security policy statements.

This annual security report is available online on both the public website as well as each campus’s individual website at: www.yccd.edu/central-services/campus-safety/jeanne-clery-report
ACADEMIC REGULATIONS AND INFORMATION

The College reserves the right to change any college rule or regulation, including the arrangement of courses; the requirements for graduation; the requirements for admission, degrees, and fees; and any other regulations affecting the student body. Such changed regulations will govern both old and new students and shall be effective whenever determined by the college. Failure to comply with established rules, regulations, policies, and/or procedures shall result in disciplinary action and may result in dismissal from the college.

Students who feel they have extenuating circumstances which excuse them from these academic regulations should:

- Obtain a student petition from the Admissions and Records Office or the Counseling Department.
- Seek the advice and recommendation from a counselor.
- File the completed petition with the Admissions and Records Office for action by the Vice President of Student Services.

Academic Dishonesty

Plagiarism is defined as the act of representing the work of someone else as your own and submitting it for any purpose. Cheating is the act of obtaining or attempting to obtain credit for academic work through dishonest, deceptive, or fraudulent means.

Interpretations of academic dishonesty may differ among individuals and groups. However, as a member of the Woodland Community College community, students are expected to refrain from the following activities, which constitute academic dishonesty:

1. Incorporating the ideas, words, sentences, paragraphs, or parts of another person’s writing without giving appropriate credit.
2. Representing another’s artistic or scholarly works such as musical compositions, computer programs, photographs, paintings, drawings, or sculptures as your own.
3. Copying, in part or in whole, from someone else’s work.
4. Submitting work presented previously in another course, if contrary to the rules of either course.
5. Submitting a paper purchased or copied from any research or essay service, including online services.

Academic Dishonesty also includes the following:

1. Purposefully allowing another student to copy from your paper during an examination.
2. Consulting with others, using electronic equipment such as cell phones.
3. Using materials not authorized by the instructor during an examination.
4. Giving your homework, essay, or other academic work to another student to plagiarize.
5. Letting another person submit any work in your name.
6. Lying to an instructor or college official to improve your grade.
7. Altering a graded work after it has been returned without instructor consent, then submitting the work for re-grading.
8. Forging signatures on college documents.
9. Altering electronic documents provided by college for student use.

Academic Honor Code

As a student at Woodland Community College, students join a community of scholars committed to excellence in the process of learning and instruction. We assume that students will pursue their studies with integrity and honesty. We uphold the principle of academic integrity, whereby appropriate acknowledgement is given to the contributions of others in any work, through appropriate internal citations and references. It is an individual’s responsibility to know what constitutes academic dishonesty. If students fail to maintain the standard of academic integrity as set by the college, they jeopardize their current and future standing in the classroom and as a member of this institution.
Academic and/or administrative sanctions may be applied in cases of academic dishonesty.

**Academic consequences may include:**

1. Receiving a failing grade on the test paper or exam
2. Having your course grade lowered
3. Receiving an F in the course

**Administrative consequences may include:**

1. Verbal or written reprimand
2. Disciplinary probation
3. Disciplinary suspension
4. Expulsion

Woodland Community College shall maintain a permanent record of students who have engaged in academic dishonesty. This information is used to identify and discipline students who have been reported for academic dishonesty more than once.

A copy of the Woodland Community College Academic Honor Code and disciplinary procedures are printed in the course catalog, student handbook, and online at wcc.yccd.edu/student/policies

---

**Academic Renewal without Course Repetition**

The Yuba Community College District Governing Board, permits the alleviation of substandard (“D” and “F”) academic performance, which is shown not to be reflective of the student’s recent performance. This policy is adopted for students who need a means of tempering their previous academic record so they may successfully accomplish an academic goal.

**Academic Renewal is subject to the following conditions:**

- The maximum amount of coursework that may be alleviated is 30 semester units.
- Since the end of the semester to be alleviated, the student must have completed 12 semester units with a 3.0 Grade Point Average (GPA), 18 semester units with a 2.5 GPA, or 24 semester units with a 2.0 GPA.
- A minimum of two semesters must have elapsed since the coursework to be alleviated was recorded.
- The student must have completed at least 12 units in residence in the Yuba Community College District.
- Under no circumstances may coursework be discounted that has been used in fulfillment of requirements for a degree or certificate.
- If the student is otherwise eligible for graduation, Academic Renewal may not be used to raise the grade point average (GPA) in order to qualify for graduation with honors.
- No units that have been excluded by Academic Renewal can be reinstated.
- Coursework granted Academic Renewal status may be counted, if appropriate, toward fulfillment of prerequisites.
- The student’s academic record will be annotated in such a way that all work remains legible, ensuring a true and complete academic history.

Students seeking Academic Renewal must petition the Vice President of Student Services. The petition arises out of a consultation between the student and a counselor. Current educational objectives should be discussed with a counselor and the counselor’s recommendation should be included on the petition.

WCC will honor similar actions by other accredited colleges and universities in determining grade point averages and credits. However, students should be aware that all coursework is subject to reevaluation by each subsequent college attended.

---

**Transfer of Credit**

Credit for lower-division courses taken previously at another college or university will be allowed toward the Associate in Arts or Associate in Science degree only if the former institution was accredited by one of the following regional accrediting associations: Western Association of Schools and Colleges, Middle States Association of Colleges and Schools, North Central Association of Colleges and Schools, Northwest Association of Colleges and Schools, and Southern Association of Colleges and Schools.

All such college transcripts will be evaluated. Only lower-division courses determined to be associate degree level will be accepted for transfer credit. Credit is also allowed for college-level USAFI courses (but not for USAFI GED tests). Credit will also be given for the College-Level Examination Program (CLEP). (See “CLEP Exam Credit Acceptance Policy” on page 41 for test information)
Auditing Class

The Governing Board of the Yuba Community College District has adopted the following guidelines authorizing the auditing of courses pursuant to Education Code Section 76370.

- Auditors must be eligible for admission to the College as regularly enrolled students.
- Auditing is authorized in accordance with AP 4070.
- Students enrolling for credit will have priority in all credit classes. Auditing will be permitted only at the conclusion of the late registration period.
- Auditors will complete an Auditor Application Form, which must be signed by the appropriate instructor. Faculty members instructing audit eligible courses have the right to refuse auditors.
- The completed Auditor Application Form must be filed with the Admissions and Records Office.
- A nonrefundable audit fee of $15 per unit will be payable at the time of enrollment by the auditor.
- Auditors will not be charged the regular Enrollment Fee which is paid for credit enrollment, and the Nonresident Tuition Fee will not apply.
- Course costs will be charged to auditors where appropriate.
- Auditors must purchase parking permits for on campus courses.
- Auditors must meet course prerequisites.
- No transcript of record will be maintained for audited classes.
- Auditors will not be counted in enrollment-based decisions about maintaining or cancelling classes.
- No transfer from audit to credit status or the reverse will be permitted within the term.
- Audited classes do not count toward units for any purpose, e.g., financial aid, veteran’s benefits, full-time student status.

Catalog Rights

Students maintaining attendance in at least one semester of a calendar year receive “catalog rights.” Summer session does not count for catalog rights. Catalog rights refer to the regulations determining graduation requirements. Students may elect the requirements in effect in the year they began their study or in the year they graduate from WCC. Once catalog rights are established, absence related to an approved educational leave or for attendance at another accredited institution is not to be considered an interruption, providing the above attendance criteria is met.

While catalog rights hold degree requirements (except for multicultural and health/PE), they do not apply to changes in prerequisites required in a given course. Prerequisite requirements are those stated in the “Course Descriptions” section of the current catalog. Catalog rights do not apply to the multicultural graduation requirement (See “Graduation Requirements” on page 59). Classes used to meet the multicultural graduation requirement must have been approved to satisfy the multicultural requirement at the time the class was taken.

Authority of Instructors

Every student is to attend class regularly and learn the varying points of view, as given by the instructor, which the coursework may contain to perform in a systematic manner. Faculty may consult with college counselors on students regarding classroom issues, attendance or other academic concerns. The instructor has the right to drop any student with excessive absences (as defined by instructor) which, in the instructor’s judgment, will prevent the student from meeting the objectives of the course.

Pursuant to the Student Code of Conduct, an instructor may remove a student from her or his class for the day of the removal and the next class meeting. The instructor shall immediately report the removal to the President. The President or designee shall initiate a review process to determine whether or not there are sufficient grounds to remove the student permanently from the class.

Basic Skills Pre-Collegiate Course Limitation

State regulations specify that students may take no more than 30 semester units in “Pre-Collegiate Basic Skills” courses. This regulation applies to all courses numbered 100-199, except ESOL (English for Speakers of Other Languages) courses AND for students identified by the district as having a learning disability.

Students who are not eligible to move into collegiate-level courses upon completion of the maximum 30 semester units of basic skills courses will be referred to adult education for future skill development and will be dismissed from attending WCC in pre-collegiate courses. Consult with a counselor if you are approaching this limit.
## CLEP Exam Credit Acceptance Policy

The Yuba Community College District welcomes students from a wide variety of backgrounds and experiences. It is recognized that many students bring with them a depth of knowledge in certain subjects and honor that knowledge by accepting the College-Level Examination Program (CLEP) examinations for credit in appropriate classes. Assuming that an acceptable score is achieved on a CLEP examination, WCC grants credit in the appropriate course(s) for each examination. The table below defines the credit offered and the course equivalent for each accepted CLEP examination.

</table>
Yuba Community College District awards credit for AP exam scores of 3 or higher (3, 4, or 5) in accordance with AB 1985:

- WCC Course Credit: credit for a specific course, when applicable (students may not enroll in a course if credit is awarded);
- WCC GE Area: credit for a General Education area;
- WCC Units Given: units of credit awarded

Credit is not awarded until the student has completed 12 units with a 2.0 GPA at Yuba Community College District.

The following table indicates WCC course equivalencies, GE areas, and units awarded for AP Exam scores of 3 or higher (3, 4, or 5). Note that other colleges and universities have different policies concerning Advanced Placement and may not honor this policy. Some specific majors may require a higher cutoff score. Please see a counselor about AP Exam credit within a specific major at four-year universities.

Computer and Network Usage Policy

The Board of Trustees, in granting access to District computers and networks, expects that employees and students, in their use of these systems, will adhere to legal and ethical standards consistent with the District's mission. The Board hereby directs the administration to develop regulations and procedures setting forth the specific responsibilities and obligations related to use of District computers and networks. The administration shall also establish disciplinary procedures to enforce this policy that are consistent with policies and laws governing the conduct of employees and students.

Credit for Prior Learning

Credit for prior learning may be earned for eligible courses approved by the District for students who satisfactorily pass an authorized assessment. Authorized assessments may include the evaluation of approved external standardized examinations, military service/training, the evaluation of industry recognized credentials and certifications, student-created portfolios, and credit by examination. Details and petition for CPL may be found at https://wcc.yccd.edu/admissions/credit-for-prior-learning/ and within Administrative Procedure 4235.

Students may demonstrate proficiency in a course eligible for Credit for Prior Learning and receive college credit through the approved alternative methods for awarding credit listed below:

- Achievement of a satisfactory score on a high-level International Baccalaureate (IB) examination
- Achievement of a satisfactory score on the College Level Examination Program (CLEP)
- Evaluation of military service/Joint Service Transcripts (JST)
- Evaluation of industry recognized credential documentation
- Evaluation of student-created portfolios
- Satisfactory completion of an institutional examination, known as Credit by Examination, administered by the college in lieu of completion of an active course listed in the current college catalog.

Determination of Eligibility for Credit for Prior Learning

- The student must be currently enrolled in the semester in which the petition is submitted.
- The student must be in good academic standing in the District.
- The student has earned less than 15 units through credit by examination.
- The course is listed in the current Woodland Community College Catalog
- The student is not currently enrolled in the course to be challenged.
- The student is not currently enrolled in or received credit for a more advanced course in the same subject.
- Credit by Examination: The student is registered in the District and not currently enrolled in nor received credit for a more advanced course in the same subject (may be waived by department)
- Credits acquired by examination are not applicable to meeting of such unit load requirements as Selective Service deferment, Veterans, or Social Security benefits.
- Credits acquired by examination shall not be counted in determining the 12 semester hours of credit in residence (YCCD) required for an Associate degree.
- Student must have completed at least 12 units from the Yuba Community College District with a GPA 2.0 or higher.
- Student must have approval from the dean and recommendation from the instructor teaching the course to be challenged.

College Board Advanced Placement (AP)

The California Community College System, the CSU System, and the UC System all award credit for Advanced Placement (AP) Exams. Yuba Community College District grants credit toward its Associate degrees and CSU GE and IGETC certification patterns to high school students who attain scores of 3, 4, or 5 on the Advanced Placement Examinations of the College Board in accordance with AB 1985.

Students may earn a minimum of 3 semester units of credit for each AP exam satisfactorily passed. The Advanced Placement Program Guide can be found in the Woodland Community College Catalog and will identify how AP exam credit can be applied. See a counselor for specific information regarding AP exam placement and credit awarded. Students intending to transfer to a four-year institution should consult a counselor or the individual university regarding its AP credit policy.
To receive credit, students must submit an official AP transcript to the Admission and Records Office. For information on obtaining a transcript, contact the College Board. Information is available on the web at www.collegeboard.com.

**International Baccalaureate (IB) Examination Program**

Woodland Community College may award International Baccalaureate (IB) Examination credit toward the Associate degree, or for CSU GE or IGETC transfer certification, to high school students who attain an appropriate score on Higher Level exams.

See a counselor for specific information regarding IB exam placement and credit awarded. Students intending to transfer to a four-year institution should consult a counselor or the individual university regarding its IB credit policy for major coursework. To receive credit, students must submit an official IB transcript to the Admissions and Records Office.

**College Level Examination Program (CLEP)**

Woodland Community College grants credit for successful completion of certain CLEP examinations to students who attain satisfactory scores. Students may earn a minimum of 3 semester units of credit for each exam satisfactorily passed. See a counselor for specific information regarding CLEP placement and credit awarded. Students intending to transfer to a four-year institution should consult a counselor or the individual university regarding its CLEP credit policy.

To receive credit, students must submit an official CLEP transcript to the Admissions and Records Office. The University of California does not award units for CLEP. CLEP credits do not apply toward IGETC requirements. For information on obtaining a transcript, contact the College Board. Information is available at www.collegeboard.com.

**Military Service/Joint Service Transcripts**

Woodland Community College may award credit for schools and training completed while in the military. Typically, credit awarded is applied only toward the Associate degree, usually as elective units. However, completion of Basic/Recruit Training will meet the Health and Fitness requirement for the Associate degree and will meet Area E requirements for both Associate Degree General Education (GE) and CSU GE. Service members should submit documentation to the Admissions and Records Office for evaluation of credit, have spent at least four months in active service and have a discharge other than dishonorable.

Students may earn semester units for military schooling and training. Credit is awarded for work satisfactorily completed at the lower division baccalaureate and associate degree levels only. Students intending to transfer to a four-year institution should consult with the individual university regarding its military credit policy.

To receive credit, students must submit an official transcript to the Admissions and Records Office. These may include the following: Joint Services Transcript (JST); Sailor/Marine American Council on Education Registry Transcript (SMART); Army and American Council on Education Registry Transcript Service (AARTS); Community College of the Air Force (CCAF) transcript; Coast Guard Institute (CGI) transcript; official transcripts from DANTES/USAFAI; Defense Language Institute Foreign language Transcripts (DLIFLC); Defense Manpower Data Center (DMDC) DLPT Examinee Results; DA Form 330 Language Proficiency recorded grade Questionnaire; or verified copies of DD214 or DD295 military records.

**Industry Recognized Credentials**

Students interested in Credit for Prior Learning using industry recognized credential(s) shall receive credit as recommended by the appropriate department chair or faculty designee:

- The student shall complete the Credit for Prior Learning assessment petition available in the Counseling Department and submits to the Admissions and Records office
- The Admissions and Records office shall grant credit for industry recognized credential(s) that have already been evaluated and approved by the appropriate department chair or faculty designee.
- If an industry recognized credential(s) has not yet been evaluated and approved by the appropriate faculty the student meets with the department chair or faculty designee to receive further instructions for industry recognized credential(s) assessment.
- The student submits all industry recognized credential documents to the department chair or faculty designee for assessment of prior learning.
- If the department chair or faculty designee determine the industry certification adequately measures mastery of the course content as set forth in the Course Outline of Record, the appropriate faculty shall sign the petition assigning either letter grade or pass/no pass, attach the industry recognized credential(s), and forward the completed petition and supporting documents to the Admissions and Records Office to be kept on file and recorded on the student transcript.
Student-Created Portfolio Assessment
Students interested in Credit for Prior Learning using a student-created portfolio shall receive credit as recommended by the appropriate department chair or faculty designee under the following circumstances:

- A department approved portfolio assessment rubric for the course is on file.
- The student shall complete the Credit for Prior Learning assessment petition available in the Counseling Department and submit the completed form to the Admissions and Records Office.
- The student meets with the department chair or faculty designee to receive further instructions for student-created portfolio assessment.
- The student submits all portfolio documents to the department chair or faculty designee for assessment of prior learning.

If the department chair or faculty designee determine the student-created portfolio adequately measures mastery of the course content as set forth in the Course Outline of Record, the appropriate faculty shall sign the petition assigning letter grade or pass/no pass and forward it to the Admissions and Records Office to be kept on file and recorded on the student transcript.

Credit by Examination from Within the District
A current, or formerly, enrolled student may take a special examination to earn credit or to meet a prerequisite. If the course is successfully challenged for a credit, a “P” grade (pass) will be awarded. Credit by examination is not applicable to all courses. The Department chair or faculty designee shall determine whether or not a student requesting Credit by Examination is sufficiently well prepared to warrant being given this opportunity. This determination is based upon a review of previous coursework and/or experience.

Students wishing to take a course through Credit by Examination are encouraged to informally discuss the matter with the department chair or faculty designee and instructor prior to initiating the formal process. All steps must be completed in the order listed or the Petition for Credit by Examination shall not be processed. The Petition for Credit by Examination must be completed prior to the end of the current semester or session.

- Credit by Examination is not available to students who have previously received a substandard grade (D, F, FW) in the course they wish to challenge.
- International Students (F-1 Visa) petitioning for Credit by Examination must be full-time, enrolled in 12 or more units (excluding the credit by exam course).
- A course may be challenged only once unless the Dean or the Vice President of Instruction determines the existence of extenuating circumstances.

Directory Information
Any currently enrolled or former student of the Yuba Community College District has a right of access to any and all student records relating to his or her student record maintained by the District. No District representative shall release the contents of a student record to any member of the public without the prior written consent of the student, other than directory information, and information sought pursuant to a court order or lawfully issued subpoena, or as otherwise authorized by applicable federal and state laws.

Directory information shall include: name, major field of study, student participation in officially recognized activities and sports including weight and height of athletic team members, degrees and awards received by students, including but not limited to; honors, scholarship awards, athletic awards and Dean’s List recognition. See Board Policy 5040.

Directory information is given out only when it is necessary or appropriate to do so in the opinion of a member of the Student Services professional staff. Students wishing to limit directory information may file a request with the Admissions and Records Office.

Examinations
Midterm and Final Examinations may be given in all courses. Final Examinations in full-semester courses are given as listed on the Final Examination Schedule. No student exception may be allowed to the Schedule except upon approval of an individual Student Petition through the Dean. Such exceptions will be allowed only in the case of extreme emergency.

Exemption from Academic Regulations
A student wishing to claim exemption from any academic regulation of the District must file a written Student Petition with the Student Success Committee.

Family Educational Rights and Privacy Act (FERPA)
The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are:

1. The right to inspect and review the student’s education records within 15 days of the day Yuba Community College District (YCCD) receives a request for access.
2. If a student wishes to do so, they should see a counselor to start the process. The student record contains copies of high school and college transcripts (if they were sent to YCCD by the student) and other data that may be important for student guidance. The College transcript includes summary information from other colleges attended when those transcripts have been sent to the College for evaluation. These records are available for review by the student with the counselor or Student Services administrator.
3. If this step does not cover the types of records requested, the student should submit to the Vice President of Student Services, a written request that identifies the record(s) they wish to inspect. The Vice President of Student Services will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the Vice President of Student Services, the Vice President of Student Services shall advise the student of the correct official to whom the request should be addressed.
4. The right to request the amendment of the student’s education records that the student believes are inaccurate or misleading.

5. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the District discloses educational records without consent to officials of another school in which a student seeks or intends to enroll.
6. Other than the permanent academic Yuba Community College District record, data is kept only as long as it is pertinent.
7. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.
8. The right to file a complaint with the U.S. Department of Education concerning alleged failures by WCC to comply with the requirements of FERPA.

The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-5920

Financial Obligations
Student records will be withheld and all student/alumni privileges canceled in the case of a student failing to meet financial obligations to the District, including failure to pay transcripts, Enrollment Fees, Tuition, Child Care charges; return library materials/pay library fines; return or pay for athletic equipment; meet loan or scholarship fund obligations; return/replace any District equipment for which responsible. Students will not be able to register until all outstanding debts are paid to the District.

Grades
Semester grades are permanent and are not changed unless extenuating circumstances are involved. Students who believe there is an error concerning their grade should contact the instructor. If the instructor agrees there is an error in the grade, the instructor will submit a “Change of Grade” to the Admissions and Records Office. If the instructor does not agree there is an error in the grade and the student wishes to pursue the matter further, the student should meet with the Dean concerning the appeal process. The request for a grade change should be initiated within the semester following the posting of a disputed grade. If the above process does not lead to resolution, a
student has the option to submit a Grade Change Appeal form to initiate the Formal Grade Change Resolution Process to the appropriate Vice President of Instruction. Grade appeals shall be made within a two-year period upon completion of the course.

**The Grade Appeal Form is located at:**
wcc.yccd.edu/student/student-grievance

**Students can obtain their grades through Self-Service at:**
wcc.yccd.edu/self-service

**Pass/No Pass Grading**
In accordance with Title 5 regulations, some courses are offered on a Pass-No Pass grading basis. In those cases where a single standard of performance for which unit credit is assigned, the “P/NP” grading system shall be used to the exclusion of other grades. Units shall be assigned for meeting that standard, no units for failure to do so. The P/NP grading is indicated in the course description section of this Catalog, the Schedule of Classes and on Self-Service.

In addition, each student will be allowed to select one course each semester from those courses in which students are usually graded on traditional “A,” “B,” “C,” “D,” “F” basis from the courses for which “P/NP” has been deemed appropriate in the Course Outline of Record. The selected course is in addition to such courses as the District’s Colleges may have opted to offer entirely on a “P/NP” basis.

The student should consult a counselor to discuss transferability of courses placed on the “P/NP” option. The student must file the appropriate form with the Admissions and Records Office no later than the end of the fifth week (30%) of the semester or the end of 30% of class for short-term courses. After this date, the grading mode will be final.

The “P” grade symbol will be awarded for work completed at “C” (satisfactory) or better level. Units earned for satisfactory achievement shall be counted in the satisfaction of degree requirements. A grade of “D” or “F” work will result in an “NP” for the course. In neither case will units be counted in the determination of the student’s grade point average, but the “NP” will be counted in Progress Probation.

**FW—Failed-Withdrawal:** A student who has both ceased participating in a course sometime after the last day to withdraw from the course without having achieved a final passing grade, and who has not received district authorization to withdraw from the course due to extenuating circumstances may be assigned an “FW”. Students who receive Financial Aid and receive an “FW” may be subject to a Return to Title IV calculation.

**Other Notations**
**P—Pass:** the “P” is awarded for work completed at the “C” or better level. Students earn no grade points, but they do earn the unit(s). Courses with a “P” grade are not computed in the GPA.

**NP—No Pass:** The “NP” is awarded for work completed at the “D” or “F” level. No units are earned for work at this level. Courses with an “NP” grade are not computed in the GPA.

**SP—Satisfactory:** Progress towards completion of a noncredit course. This symbol is used for noncredit courses only and is not supplanted by any other symbol. Courses with an “SP” grade are not computed in the GPA.

**AU—Audit:** Students do not earn units, but the notation does appear on a student’s permanent record.

**EW—Excused Withdrawal:** Special exemption that requires documentation. An excused withdrawal occurs when a student is permitted to withdraw from a course(s) due to extenuating circumstances or specific events beyond the control of the student affecting his or her ability to complete a course(s). A student must file a petition requesting this option and attach the appropriate documentation to support the extenuating circumstance or specific event. Upon review of submitted documentation and approval of the petition, a withdrawal symbol of “EW” will be assigned. Excused withdrawals will not be counted in progress probation and dismissal calculation. For more information, contact the college Student Services office.

---

**Grading System**
The grading system is as follows:

<table>
<thead>
<tr>
<th>GRADE</th>
<th>DEFINITIONS</th>
<th>POINTS</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent</td>
<td>4</td>
</tr>
<tr>
<td>B</td>
<td>Good</td>
<td>3</td>
</tr>
<tr>
<td>C</td>
<td>Satisfactory</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>Less than satisfactory</td>
<td>1</td>
</tr>
<tr>
<td>F</td>
<td>Failing</td>
<td>0</td>
</tr>
<tr>
<td>FW</td>
<td>Failed-Withdrawal</td>
<td>0</td>
</tr>
</tbody>
</table>

**FW—Failed-Withdrawal:** A student who has both ceased participating in a course sometime after the last day to withdraw from the course without having achieved a final passing grade, and who has not received district authorization to withdraw from the course due to extenuating circumstances may be assigned an “FW”. Students who receive Financial Aid and receive an “FW” may be subject to a Return to Title IV calculation.

---

**Other Notations**

**P—Pass:** the “P” is awarded for work completed at the “C” or better level. Students earn no grade points, but they do earn the unit(s). Courses with a “P” grade are not computed in the GPA.

**NP—No Pass:** The “NP” is awarded for work completed at the “D” or “F” level. No units are earned for work at this level. Courses with an “NP” grade are not computed in the GPA.

**SP—Satisfactory:** Progress towards completion of a noncredit course. This symbol is used for noncredit courses only and is not supplanted by any other symbol. Courses with an “SP” grade are not computed in the GPA.

**AU—Audit:** Students do not earn units, but the notation does appear on a student’s permanent record.

**EW—Excused Withdrawal:** Special exemption that requires documentation. An excused withdrawal occurs when a student is permitted to withdraw from a course(s) due to extenuating circumstances or specific events beyond the control of the student affecting his or her ability to complete a course(s). A student must file a petition requesting this option and attach the appropriate documentation to support the extenuating circumstance or specific event. Upon review of submitted documentation and approval of the petition, a withdrawal symbol of “EW” will be assigned. Excused withdrawals will not be counted in progress probation and dismissal calculation. For more information, contact the college Student Services office.
The “EW” symbol may be used as described in, and in accordance with, section 55024.

**W—Withdrawal:** A “W” is recorded for students who officially withdraw from a course after the Census Date or 30% of term (whichever is less) or 30% deadline of the course for short-term classes. Full semester courses officially dropped after the Census Date (30% of term for short term courses) but prior to the end of the thirteenth week (75% of term for short-term courses), will result in “W” on the student’s transcript. The “W” notation indicates that the student was permitted to drop the course or was dropped by the instructor. A “W” notation carries no connotation of quality of a student’s performance and is not used in the calculation of grade point average. Withdrawals for full semester classes after the thirteenth week of classes (end of 75% of term for short-term courses) must result in a grade other than a “W” (usually a failing grade). However, in cases of extenuating circumstances such as accident or serious illness, the student may file a petition and evidence (doctor’s excuse, hospital bill, etc.) at the Admissions and Records Office requesting permission to withdraw after the final withdrawal deadline. Although the “W” notation is not used in computation of grade point averages, excessive “W,” “NC,” “NP,” or “I” notations are considered in determining Progress Probation. Students are responsible for processing appropriate official forms prior to the deadlines.

**MW—Military Withdrawal:** Special exemption—requires documentation.

**Temporary Notations**

**I—Incomplete:** At the end of a term, an “I” (incomplete) may be awarded by the instructor when a student has been unable to complete academic work for unforeseeable, emergency, and justifiable reasons. The incomplete signifies that the student was enrolled, has attended classes throughout the term, that only a minimal amount of coursework has not been completed in the prescribed time, and there is still the possibility of earning credit. A copy of the Incomplete Grade Report Form will be emailed to the student indicating work to be completed for removal of the “I” and alternate letter grade to replace the “I” in the event the student fails to meet the conditions for removal of the “I.” An “I” must be made up within one year following the awarding of the incomplete notation (excluding summer). A final grade will be assigned by the instructor when the work has been completed or the alternate grade will be awarded in the event the student fails to complete the work during the prescribed time period.

**Note:** A student may not enroll in the same course in which an incomplete grade was awarded.

**IP—In Progress:** This symbol indicates that a course is in progress and has not yet ended.

**RD—Report Delayed:** This symbol indicates either the course has not yet ended, or the instructor has not yet submitted the final grade for the student in the course.

**Grade Point Average (GPA) Computing**

The GPA is computed by dividing the total grade points by the total number of units attempted in the following manner:

Grade points are computed by multiplying the number of units represented by an individual course by the grade point value assigned to the grade. For example, a 3-unit course with a grade of “B” is 9 grade points (“B” 3 grade points x 3 units attempted) (See “Grading System” on page 48 for grade point values).

The total number of grade points earned in all courses is divided by the total number of units attempted. The result is the GPA.

**Honors List**

The Honors List, produced at the end of each semester (except Summer Session), recognizes students who have maintained at least a “B” (3.0) grade point average in 12 or more GRADED units during that semester (does not count classes with P/NP grades). Honors achievement may be noted on the student’s academic record.

**Notification of Absence**

In cases where a student may be absent for four or more days, a Notification of Emergency Absence can be requested by a student from the College (in cases of accident, sickness, bereavement, etc.). Further, it is the responsibility of the student to contact instructors upon returning to make up missed coursework. Call the Counseling Office for the WCC campus to request the Notification of Emergency Absence.

**Prerequisites/Corequisites**

“Prerequisite” means the preparation or previous coursework considered necessary for success in a course. Prerequisites are required only for courses where specific academic background is necessary in order to assure students a reasonable chance of success in the course. Prerequisites which are listed as “required” include:
Courses for which specific prerequisites have been validated,
Sequential coursework in a degree or program, or
Courses in which a prerequisite is necessary for transfer to a baccalaureate college. Responsibility for having met the prerequisite rests with the student.

“Corequisites” A student may enroll in the corequisite prior to enrolling in the target course or simultaneously with the target course, unless otherwise noted. Corequisites provide the necessary skill or supplementary body of knowledge or laboratory time during the course to help assure success in the course. Concerns about requisites are best resolved with a college counselor or the course instructor prior to the first day of Class. It is the student’s responsibility to be aware of and comply with the prerequisite regulations.

Prerequisites are shown for each course in the Catalog and Schedule of Classes. It is the student’s responsibility to check the course descriptions and not register in any class for which the prerequisite has not been completed.

Students are not allowed to register for any course that has a prerequisite/corequisite without meeting one or more of the following requirements:

- Successful completion of the prerequisite course.
- Appropriate placement score on the Yuba Community College District Placement Examination.
- Requisite Equivalency form with an official grade report or transcript from another college/school showing grade of “C” or better in the prerequisite course attached.
- Requisite Equivalency form with an “In Progress” status under the condition that students will provide a transcript with final grade of “C” or better the Thursday prior to the term start or they will be dropped from the course.

Policy for Prerequisite Challenge

Course placement is determined by a process in which the student and counselor review all assessment criteria available. Students who wish to petition their recommended placement or the waiver of a prerequisite should be prepared to give evidence or justification why the exemption should be granted. Reasons for seeking a prerequisite challenge may include one or more of the following:

- Student has the knowledge or ability to succeed in the course without meeting the prerequisite, or
- Student believes the prerequisite is discriminatory or is being applied in a discriminatory manner, or
- Prerequisite has not been validated, or
- Prerequisite course is not available.

Check with a counselor or the Admissions and Records Office to obtain the required forms. Challenges to prerequisites/corequisites should be on the approved form and filed with the Admissions and Records Office.

Course Repetition

Repetition of courses is conducted in compliance with California Title 5 Regulations, Sections 55040 through 55046. No course repetition procedures established by the District will conflict with Education Code 76224 pertaining to the finality of grades assigned by instructors, with Title 5 Section 59023, or District procedures relating to the retention and destruction of records.

(A) Course Repetition with a Substandard Grade:

Students may repeat a course up to two times in the Yuba Community College District in which a notation of D, F, NP (No Pass), or W (Withdrawal) was earned (maximum three enrollments). This regulation is effective across the district at both colleges. If a student enrolled in a course at Yuba College or Woodland Community College this counts as one of the three attempts. Military Withdrawal (MW) or Excused Withdrawal (EW) is not counted as a substandard grade nor does it count toward the repeat of a substandard grade policy.

Upon completion of the repeated course, the best grade earned will be computed in the cumulative grade point average. The lower grade will remain on the academic record, but will be coded with a symbol indicating the course has been repeated and will be disregarded in the computation of the grade point average. The student's academic record will be notated so that all work remains legible, ensuring a true and complete academic history.

(B) Course Repetition without a Substandard Grade:

A course may be repeated when one of the following applies:

- The college finds there are extenuating circumstances. Extenuating circumstances are verified cases of accidents, illness, or other circumstances beyond the student’s control. This is a one-time exception.
- A student may repeat a course because there has been a significant lapse of time since the student previously took the course (no less than three years) when the
District has properly established a recency prerequisite for a course or program or another institution of higher education to which the student seeks to transfer has established a recency requirement which the student will not be able to satisfy without repeating the course in question. Grades awarded for courses repeated under this circumstance shall not be counted when calculating a student’s grade point average. This is a one-time exception.

- Courses for which repetition is necessary to meet the major requirements of CSU or UC for completion of a bachelor’s degree. The District will retain supporting documentation that verifies that the repetition is necessary to meet the major requirements. This is a one-time exception.
- Students may repeat courses listed in the college catalog to meet a legally mandated training requirement as a condition of continued paid or volunteer employment. These repetitions are not limited and are granted based on the college’s verification of established legal mandates. Such courses may be repeated for credit, and the grade and units shall be included for purposes of calculating the student’s grade point average. The district may claim apportionment each time the student repeats the course.
- Course repetition for disabled students is subject to the course repetition limitation; however, additional repeats may be individually authorized through the DSPS Office under the following circumstances:
  - When continuing success of the student in other general and/or special course (such as Adapted Physical Education), is dependent on additional repetitions of a specific course;
  - When additional repetitions of a specific special course are essential to completing a student’s preparation for enrollment into other regular or special course (such as Assistive Computer Technology, LEARN 155 or LEARN 156); or
  - When the student has a student educational contract which involves a goal other than completion of the special course in question and repetition of the course will further assist with achievement of that goal.

The previous grade and credit shall be disregarded in the computation of grade point average each time the course is repeated.

**(C) Repeatable Courses:**
Courses designated as “repeatable” are identified as such in the College Catalog and Schedule of Classes following the course description. For these courses the grade received each time is calculated in the student’s grade point average.

Courses designated as repeatable:
- Intercollegiate athletics where enrollment in the course is limited to no more than four times;
- Cooperative Work Experience courses up to a maximum of 16 units in any combination of Work Experience Occupational (General) and Internship enrollments;
- The course is a portion of a variable unit open entry/open exit course up to the maximum number of units allowed;
- Enrollment limitations in courses related in content: Students may not enroll more than four times in any combination of active participatory courses that are related in content. The colleges designate courses that are related in content as “families of courses”.

Active participatory courses are those courses where individual study or group assignments are the basic means by which learning objectives are obtained. Examples of active participatory courses include physical education, visual arts or performing arts. This enrollment limit applies even if the student receives a substandard grade or “W” during one or more enrollment or petitions for repetition due to extenuating circumstances.

**Exceptions:**
In special circumstances, the student may submit a petition for an additional repeat. No state funding (FTES) may be claimed for this additional repeat.

**Servicemembers’ Opportunity College**
Woodland Community College is a designated Service members’ Opportunity College (S.O.C.) involving an educational concept, jointly sponsored by educational agencies within the U.S. Department of Defense and the American Association of Community and Junior Colleges, recognizing that individuals serving in the Armed Forces often have unique educational needs. The District has committed its resources to aid in the quest of education. Admission, residency, course credit, and degree requirements are in accordance with the criteria for Service members’ Opportunity Colleges.

Special academic assistance is provided and credit is granted for educational experience obtained in the Armed Services. Among the types of credit accepted are: College Examinations (CLEP), College Proficiency Examinations (CPEP), Credit for Prior Learning (CPL), United States Armed Forces Institute (USAFI) courses, and on-campus “challenge” examinations. Under a Contract for Degree agreement, developed with the College Service members’
Counselor, a serviceperson may plan to earn an associate degree from the College as a result of a variety of learning options with a minimum of only 12 units earned, in any time sequence, at the College. Information regarding these opportunities may be obtained from any College counselor or from Veterans Services.

Standards for Probation/Dismissal

Students are subject to “Probation” and/or “Dismissal,” for reasons of deficient scholarship, in accordance with the provisions of Sections 55031 through 55034 of Title 5 California Administrative Code, and this Catalog. It is the policy of the Yuba Community College District Governing Board that no student be automatically dismissed, but that the individual case of each student subject to dismissal be reviewed by the Vice President of Student Services prior to invoking action.

Academic Probation
A student who has attempted at least 12 semester units of Yuba Community College District classes as shown by the student’s transcript shall be placed on Academic Probation when they have earned a cumulative grade point average of less than 2.0, including only grades earned in this College. Part-time students become subject to these Probation regulations after they have enrolled in an accumulated total of 12 semester units of Yuba Community College District classes.

Progress Probation
A student who has enrolled, beginning fall 1981, in a total of at least 12 semester units of Yuba Community College District classes as shown on the student’s transcript shall be placed on Progress Probation when the percentage of all units in which a student has enrolled and for which entries of “W,” “I,” and “NP” are recorded reaches or exceeds fifty percent (50%).

Removal From Probation: A student is removed from Academic Probation when the cumulative GPA (earned in Yuba Community College District classes only) reaches 2.0 or higher. A student is removed from Progress Probation when the units of “W,” “I,” and “NP” grades drop below 50% of the accumulated units of enrollment as shown on the student’s transcript.

Procedures And Regulations: While on the first semester of Academic and/or Progress Probation, the maximum number of units for which a student may register is 16. The counselor may, and often will, reduce this maximum. The maximum is reduced to 12 units for a student who is on a second semester of probation. If, after the end of the semester, it becomes necessary to place the student on Academic or Progress Dismissal, the student will be notified by the Dean of Student Services. An interview must then be scheduled by the student with a counselor. Regulations governing activities of students on Academic or Progress Probation are determined and enforced by the Student Success Committee. For those on Disciplinary Probation, see the provisions of the Yuba Community College District Code of Conduct for Students.

Dismissal: A student who is on Academic Probation shall be subject to dismissal if the student earned a cumulative GPA of less than 2.0 in all units attempted in each of 3 consecutive semesters even though a lapse of college attendance may occur between the semesters. A student who has been placed on Progress Probation shall be subject to dismissal if the percentage of units in which the student has been enrolled for which entries of “W,” “I,” and “NP” are recorded in at least 3 consecutive semesters reaches or exceeds fifty percent (50%). Dismissal may be postponed by the Student Success Committee when evidence of academic improvement or extenuating circumstances exist.

A student who feels they have extenuating circumstances with regard to these regulations should see a Counselor and file a petition with the Student Success Committee. The committee may conditionally reinstate a student when the circumstances are justifiable. Justifiable circumstances include accidents, illnesses, changes in working conditions, and other reasons beyond the student’s control.

Readmission: A dismissed student may petition for readmission (on probation) after consultation with a counselor. The Counselor will help the student select appropriate classes, limit the number of units of enrollment, and set up a visitation schedule to check the student’s progress during the semester of readmission.

Note: Students receiving financial aid must refer to the current Financial Aid Handbook concerning Probation Status. Students receiving veterans benefits should contact the Veteran Services Office concerning consequences of probation. All students receiving aid/benefits should consult a counselor concerning consequences of probation. Students on probation may be prohibited from receiving aid/benefits.

Student Definitions

I. Registration Status

- **Full-Time Student**: registered for 12 or more units of credit (4 units or more in summer session).
- **Part-Time Student:** registered for fewer than 12 units of credit (less than 4 units in summer session).
- **Special Part-time Student:** dual enrolled in high school under Education Code Section 76001 or 76002.

### II. Academic Class Status

- **Freshman Student:** has earned to date fewer than 30 units of credit.
- **Sophomore Student:** has earned to date 30 or more units of credit but has not completed all course and unit requirements for Associate in Arts or Associate in Science, or any higher degree.

### III. Student Definitions

- **Continuing Student:** A student who was enrolled in the previous semester (excluding summer session).
- **New Student:** A student who has never attended any college.
- **Returning Student:** A student who attended YCCD previously, but not during the previous semester (excluding summer session).
- **Transfer Student:** A student who attended another institution prior to applying to YCCD.
- **Returning Transfer Student:** A student who attended a YCCD class, then attended another institution, and plans to attend a YCCD class again.

### Transcripts

A student may apply for a transcript of college courses at the Admissions and Records Office. A student in good standing may receive a transcript at any time. Two copies are furnished free by the College; additional copies are charged for at the rate of five ($5) dollars each. Transcripts requested “over the counter” will require a $10.00 “Rush” fee. Fee subject to change.

Student’s may print out their own free “unofficial” copy of their transcript through Self-Service and follow the instructions.

Academic transcripts are not generated for students who withdraw from the College during the first four weeks of a semester or during the first week of summer session or for students enrolled in noncredit or fee courses. When requesting transcripts students should include ID number, name, birth date, name attended under, address, last year in attendance and signature. This can be completed on the Transcript Request form in the Admissions and Records Office or the downloaded form on the Admissions web page.

Transcripts will not be released for students who have holds placed on records for outstanding transcript fees to the College. There is a processing time for all transcript requests. Please see form for more details.

### Veterans Standard of Progress

A veteran student, who is receiving veteran benefits, and is placed on academic probation, that probation must be reported to the Veterans Administration prior to the commencement of the next semester.

In accordance with Woodland Community College’s policy on dismissal, students who remain on academic probation beyond two semesters where their cumulative GPA does not improve to a 2.0, or higher, the college is required to report a termination of benefits directly to the Veterans Administration due to unsatisfactory progress. The Woodland Community College Certifying Official cannot certify a veteran for any class beyond that point. Until the GPA is above a 2.0.

Once the veteran’s Certifying Official certifies or recertifies a student for re-enrollment after termination for unsatisfactory progress, the Veteran’s Administration presumes that the College has determined the student’s ability to maintain satisfactory progress in the future. Any student needing to be recertified will need to consult the veteran’s Certifying Official for assurance that all procedures and requirements have been met.

For more information, contact the Veteran Service Office at (530) 661-5704, Fax: (530) 661-5736.

### Military Withdrawal

A military withdrawal occurs when a student who is a member of the United States military (active or reserve) receives orders necessitating a withdrawal from enrolled courses. A student must file a petition requesting this option and attach a copy of military orders. Upon verification of such orders, a withdrawal symbol of “MW” will be assigned. Military withdrawals will not be counted in progress probation and dismissal calculations. For more information, call the Veteran’s Resource Center at (530) 661-5704.

### Withdrawal Symbol

A student may officially drop (withdraw) from a course or courses based on the approved academic calendar for full semester classes (short term courses vary). No notation will be entered on the student’s academic record to indicate enrollment.
Full-semester courses officially dropped in accordance to the approved academic calendar but prior to the end of the fourteenth week, will result in a “W” on the student’s academic record. The “W” symbol indicates that the student was permitted to drop the course or was dropped by the instructor. As of the beginning of Summer 2012 a “W” is now counted in the number of repeats a student may accumulate towards a single credit course. (Also see Page 49 under “Grading”)

Withdrawals for full semester classes after the fourteenth week of classes must result in a grade other than a “W” (usually a failing grade). However, in cases of extenuating circumstances such as accident, illness, or circumstances beyond the control of the student, a student may file a petition and include supporting evidence (doctor’s excuse, hospital bill, etc.) with the Admissions and Records office requesting permission to withdraw after the final withdrawal deadline. Although the “W” symbol is not used in computation of grade point averages, excessive “W,” “NP,” or “I” symbols are considered in determining Progress Probation (See “Standards for Probation/Dismissal” on page 52) and in the use of repeats towards courses.

Students are responsible for processing appropriate official forms prior to the posted deadlines.
CONSUMER INFORMATION

In accordance with federal regulations set forth by The Higher Education Act of 1965, as amended, the following is a summary of consumer information that must be made available to all students at Woodland Community College. Each topic listed gives a brief description of the information that must be disclosed and explains how it can be obtained. Additional details are available on the Woodland Community College website.

- Family Education Rights and Privacy Act
- Programs and Services Available to Students with Disabilities
- Student Body Diversity
- Textbooks
- Voter Information
- Selective Service
- Accreditation, Transfer of Credit, and Articulation

FOR HELP IN GETTING ANY OF THE INFORMATION LISTED OR TO OBTAIN A PAPER COPY, PLEASE CONTACT THE FINANCIAL AID OFFICE.
District Drug & Alcohol Policies

1.1 The following program has been adopted to implement YCCD Board Policy 3550/3560 adopted on 12/3/2019. (Reference: Board Document 3550/3560):

The Student Code of Conduct, supported by Education Code Section 60041, prohibits the unlawful possession, use, or distribution of illicit drugs and/or alcohol by students on its property or as part of any college sponsored activities.

Information regarding applicable legal sanctions under local, State, and Federal law for the unlawful possession or distribution of illicit drugs and/or alcohol is available to all students through the District Police Department.

Educational materials regarding the health risks associated with the use of illicit drugs and the abuse of alcohol are made available to all students through the District Counseling Services. Information regarding resources for drug or alcohol counseling and treatment are also available through the District Counseling Services.

The VP of Student Services will keep records of all disciplinary actions and evaluate the consistency of all enforcement.

1.2 The unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in all facilities under the control and use of the District. Any student or employee who violates this policy will be subject to disciplinary action by the college and/or local, state, or federal law. Disciplinary actions may include referral to an appropriate rehabilitation program, suspension, demotion, expulsion or dismissal. The Superintendent/President shall assure that the District distributes annually to each student and employee the information required by the Drug Free Schools and Communities Act Amendments of 1989 and complies with other requirements of the Act. (Board Document 3550/3560)

1.3 Woodland Community College is committed to preventing drug/alcohol abuse on any YCCD campus and in adherence to state and federal laws. Please read below the causes or damages that substance abuse can cause.

Use or misuse of controlled substances can lead to overdose, sudden death, liver disease, psychological disorders, and brain damage. Long-term alcohol abuse can cause ulcers, gastritis, pancreatitis, liver disease, cancer, loss of coordination, heart disease, stroke, emotional distress, sexual dysfunction, and other health problems. Occasional misuse may cause:

- Impaired learning ability due to drowsiness, memory loss, and indifference to academic achievement
- Impaired judgment leading to physical accidents, unwanted pregnancy, sexually transmitted diseases, violent behavior, and financial problem
- Any drug used intravenously can spread AIDS or hepatitis

1.4 See “Drug Prevention Resources” on page 58

1.5 Legal Sanctions

The Yuba Community College District Code of Conduct prohibits the use, sale, or possession on campus of, or presence on campus under the influence of, any controlled substance. Controlled substances include cocaine, marijuana, LSD, heroin, methadone, mescaline, peyote, and methaqualone, among others.

If a student abuses drugs or alcohol on campus, or appears on campus or at a college-sponsored function under the influence of drugs or alcohol, they can be suspended, expelled, and/or criminally prosecuted. The penalties for the more common offenses are:

- Possession or use of alcohol: year in jail and/or fine
- Possession of marijuana: criminal citation and fine
- Possession of cocaine: imprisonment in a state prison
- Sales of any illegal drug: imprisonment in a state prison
- Possession or use of alcohol by a minor: one year in jail and/or fine
- Student employees may be terminated
- Ineligibility for financial aid

(Board Document 3550)
2.0 Implementation:

2.1 The District will notify students and employees that the unlawful manufacture, distribution, dispensing, possession or use of illicit drugs and alcohol is prohibited in the workplace and college premises. The notice will include the actions that will be taken for violation of such prohibitions.

2.2 A drug and alcohol awareness program will be established to inform students and employees about the dangers of drug and alcohol abuse and the District’s policy of maintaining drug and alcohol-free workplace and college premises. Information will be provided regarding drug and alcohol counseling and rehabilitation programs and the penalties that may be imposed upon students and employees for violations occurring in the workplace and colleges.

2.3 Each employee will be given a copy of the policy statement annually regarding the drug and alcohol-free workplace and college premises.

2.3.1 Employees will be notified that, as a condition of employment under any federal or state contract/grant to the District, the employee will abide by the terms of the policy. The employee shall notify the District of any criminal drug statute conviction for a violation occurring in the workplace no later than five days after such conviction.

2.3.2 Within ten (10) days after receiving notice from an employee or otherwise receiving actual notice of conviction, the District will notify the contracting agency in accordance with the Drug-Free Workplace Act.

2.3.3 Within thirty (30) days of receiving notice with respect to any employee who is convicted, the District will take appropriate personnel action against such employee, which may include termination; or require such employee to participate satisfactorily in a drug or alcohol abuse assistance or rehabilitation program approved for such purposes by a federal, state, or local health, law enforcement, or other appropriate agency.

2.4 Each student will be given a copy of the policy statement annually regarding the drug and alcohol-free workplace and college premises. Violation of this policy by students shall result in disciplinary sanctions up to and including expulsion, and may include the completion of an appropriate rehabilitation program.

2.5 In addition to disciplinary sanctions, violators may be prosecuted under applicable state or federal law.

2.6 Students and employees will be informed of the health risks associated with the use of illicit drugs and the abuse of alcohol, and will be advised of the availability of drug or alcohol counseling, treatment or rehabilitation programs.

3.0 Review Process

3.1 A biennial review process will be led by the Woodland Community College Chief Student Services Officer in conjunction with the Office of Institutional Effectiveness. The review will also be conducted in collaboration with the college’s health care provider and Yuba Community College District Office.

4.0 Smoking Policy

YCCD Board Policy 3570 Smoking and Use of Tobacco Products: smoking, vaping, and the use of tobacco is prohibited on all district/college property. Smoking is defined as inhaling, exhaling, burning, or carrying any lighted or heated cigar, cigarette, pipe, or any other lighted or heated tobacco or other product intended for inhalation, in any matter or in any form. Smoking also includes the use of e-cigarettes. An e-cigarette is any oral device that provides a vapor of nicotine or any other substance for inhalation. E-cigarettes do not include products approved by the United States Department of Food and Drug Administration for medical treatment.

For individuals interested in quitting smoking or smokeless tobacco use please call the California Smokers’ Helpline at 1(800) NO-BUTTS or visit: www.nobutts.org.

Woodland Community College has a formal graduation ceremony once a year at the end of the spring semester. Students may petition to graduate in the Fall, Spring, or Summer terms. **Students must apply to graduate** prior to the posted deadlines for each term in order to be considered for graduation. Students must petition to graduate through Self-Service.

This catalog describes the District’s graduation and transfer requirements. Not all degree or transfer requirements can be met at all locations where classes are offered. Students should seek the consultation of a counselor, the schedule of classes, or Self-Service to determine the type of classes, locations, and frequency of offerings.

Transfer students must have a 2.0 grade point average (GPA) in associate degree level coursework, have a 2.0 GPA in Yuba Community College District associate degree level coursework, and have completed twelve units of associate degree level coursework from Woodland Community College in order to graduate.

Students who desire to graduate may work toward an Associate in Arts, Associate in Science, Associate in Arts for Transfer, or an Associate in Science for Transfer degree. Students who plan to continue their education at a four-year college or university should also plan on completing transfer requirements and should consult a counselor for further information.

Common to both the Associate in Arts and the Associate in Science degrees is a strong general education program which fosters the following philosophy:

General Education in the Yuba Community College District is more than a set of required courses; it is a course of study designed to assist the student in beginning an effective lifelong learning process in which the interrelationships of human knowledge and experience are recognized. Embodied in this educational design is recognition of the student’s need to think and communicate effectively, both orally and in writing; to use mathematics; to understand the modes of inquiry of the major disciplines; to be aware of other cultures and times; to achieve insights gained through experience in thinking about ethical problems; to develop the capacity for self-understanding; and to understand the issues related to and the ways in which health and well-being can be maintained.

### Degree Course Requirements

Only courses completed by deadlines may be counted toward the degree to be issued for the requested term. (See “Course Numbering and Transfer of Credits” on page 77)

**THE ASSOCIATE IN ARTS OR ASSOCIATE IN SCIENCE DEGREE MAY BE AWARDED TO A STUDENT WHO HAS COMPLETED THE FOLLOWING REQUIREMENTS:**

**REQUIREMENT 1:**
All students must pass the reading, writing, and mathematics competency examinations or equivalents listed below.

**Reading competency may be met by:**
1. Passing English 1A with a “C” or better; OR
2. Passing Reading 70 with “C” or better; OR
3. Achieving a passing score on the reading placement examination; OR
4. Possession of an AA, AS, or higher degree at the time of admission to the District.

**Note:** Students seeking an AA/AS degree should complete the reading competency requirement within the first 30 units of credits earned in the YCCD district or be enrolled in a prerequisite reading course.

**Writing competency may be met by:**
Passing English 1A with “C” or better.

**Mathematics competency may be met by a “C” or better in:**
1. Any mathematics or statistics course that has Math 101 (or Math 50) as a prerequisite; or
2. Any higher level mathematics or statistics course.
REQUIREMENT 2:
All students must complete 18 units of general education, selecting at least 3 units each from Areas A, B, C, D1, D2, and E below with a grade of “D” or better.

Area A. Natural Science (Select 3 units)
- Agriculture 45, 45L
- Astronomy 1L
- Anthropology 1
- Biology 1, 2, 3, 10L, 12, 15, 24, 25, 30
- Chemistry 2A, 10
- Ecology 10, 10L
- Environmental Horticulture 10, 15
- Geography 1
- Geology 8, 8L, 10L, 11L, 12, 20
- Nutrition 10
- Physical Science 10B, 10C
- Physics 2A, 2B, 3B, 4A, 4B,
- Plant Science 20*, 20L, 22, 22L, 25, 33, 34

*This course is only offered at Yuba College

Area B. Social Science (Select 3 units)
- Administration of Justice 10
- Agriculture 5
- Anthropology 2, 3
- Early Childhood Education 3, 18, 31, 42
- Economics 1A, 18
- Education 15
- Ethnic Studies 1, 2, 6, 7, 11, 15, 21
- Geography 2
- History 4A, 4B, 5A, 5B, 8, 11, 17A, 17B, 29
- Political Science 1, 2, 3
- Psychology 1A, 12, 22, 31, 33, 41, 46
- Sociology 1, 2, 5, 6, 10
- Speech 6, 7, 8, 16

Area C. Humanities (Select 3 units)
- Administration of Justice 1

Area D. Language & Rationality
D1. English Composition (Select 3 units)
- English 1A (met by writing competency)

D2. Communication & Analytical Thinking (Select 3 units)
- English 1B, 1C
- General Business 56
- Mathematics 1A, 1B, 9, 15, 20, 21, 25, 52, 58
- Philosophy 12
- Sociology 8
- Speech 1, 3, 6, 7, 8, 13, 14, 15
- Statistics 1

Area E. Electives (Select at least 3 additional units)
- A second course from any Area above;
- OR Documentation of active military service (may also be used to meet Requirement 4 (Health/P.E.));
- OR Course(s) listed below:
  - Administration of Justice 19, 30
  - Agriculture 40, 60
  - Business Computer Applications 59
  - Counseling 10, 25
  - Education 1
  - Environmental Horticulture 20, 22
  - General Business 18, 25
  - Health 1
  - Physical Education 1 course
  - Plant Science 12

REQUIREMENT 3:
All students must complete the designated degree major courses with a grade of “C” or better.

Majors are listed under “Certificates & Degrees” on page 74

REQUIREMENT 4:
All students are required to successfully complete one of the following courses:

- Administration of Justice 40, Health 1, Health 13, or Nutrition 10

Note: Students are exempt from this requirement if they will be completing degrees in Basic Police Academy, Associate Degree in Nursing, Psychiatric Technology, Radiologic Technology, or Veterinary Technology, and students who submit documentation of active military service.

WCC has established institutional graduation requirements. Currently, these are the health/PE and multicultural graduation requirements. The courses used to satisfy these requirements must be listed on the specific multicultural and health/PE sections of the approved graduation requirements checklist at the time the courses are taken. These requirements are not based on catalog rights and services are exempted from this requirement.
**Requirement 5:**
All students are required to fulfill the **multicultural graduation requirement (MGR)** by completing three or more units from the following courses or the programs listed below with a grade of “D” or better:
- Administration of Justice 19
- Anthropology 2
- Art 5
- ECE 27
- Education 1, 15
- English 36, 38
- Ethnic Studies 1, 2, 5, 6, 11, 15, 21, 30
- Geography 2
- History 5A, 5B
- Human Services 11
- Music 16
- Philosophy 20
- Sociology 5
- Spanish 20A, 20B
- Speech 8

Completion of the following programs also fulfills the requirement:
- Associate Degree Nursing
- Psychiatric Technician
- Radiologic Technology

**Requirement 6:**
All students are required to complete a minimum of 60 semester units in lower-division associate degree level courses with at least a 2.0 (“C”) grade point average. The grade point average that is calculated for associate degree purposes only counts units and grade points earned in associate degree level classes. Non-associate degree credit courses (numbered 100-199 and 200-299) completed fall 1989 and thereafter will not count toward the associate degree. For courses completed between July 1, 1983, and July 30, 1989, a maximum of six semester units of courses numbered 100-199 may be counted toward this requirement. All courses numbered 200-299 completed prior to fall 1989 may be counted toward this requirement.

**Requirement 7:**
All students are required to complete a minimum of twelve semester units with at least a 2.0 (“C”) grade point average in associate degree level classes at Woodland Community College.

**Requirement 8:**
All students wishing to graduate must file a graduation petition as a Candidate for Graduation. Deadline dates to apply are: Fall: November 15; Spring: April 15; Summer: July 1.

For Associates Degree Transfer (ADT) degrees (AA-T or AS-T), the deadlines are as follows to Admissions and Records:
- February 15th: CSU Fall term
- September 15th: CSU Spring term

**Additional Associate Degrees**
An additional Associate in Arts or Associate in Science degree will be awarded to those already possessing an associate degree, subject to the following conditions:

All requirements in a different major from that of the previous associate degree(s) must be satisfied. Students may only earn one degree in a general education major (i.e. Arts & Humanities, Natural Science and Mathematics, Natural Science, Social & Behavioral Sciences). Those students who have earned a general education degree prior to 2008 are not eligible for another general education degree.

All general education requirements go into effect at the time a new degree program begins. After meeting the above conditions, a student may petition for another degree for which they have met the graduation requirements.

Questions regarding this section should be directed to the Admissions and Records office.

**Courses from Other Colleges**
All coursework from other colleges/universities should be turned in for appropriate consolidation with a student’s record in a timely manner. Courses from other colleges will be checked for repeats when a student petitions for graduation. At that time, any credit awarded for repeated classes will be coded on the student’s academic record.
How to Find Course Articulations

Assist.org is an online information system that provides students with detailed course transfer and articulation information to help them plan their academic careers, facilitate a seamless transfer process, and reduce the number of redundant courses students may take as they move from community colleges to universities.

The ASSIST database includes all of the most current official articulation agreements that every CSU and UC campus has established with any of the 115 California Community Colleges. ASSIST also includes complete and historical information for all California community colleges, including CSU transferable courses and CSU GE-breadth certification courses.

ASSIST operates as California’s official statewide source for course articulation and transfer information and is available to all students, faculty and staff online at www.assist.org.

Preparation for Transfer

The requirements listed in the following section are subject to change without notice. Check with a WCC counselor and the Transfer Center for periodically updated information.

**Preparation for Advanced Standing at Four-year Universities and Colleges**

WCC offers courses similar to those offered in the lower division (first two years) of four-year universities and colleges. Since course requirements for graduation vary between colleges, it is to the student’s advantage to choose the university or college to which they plan to transfer as early as possible. This helps to ensure students complete the courses at WCC which best satisfy the lower-division course requirements at their intended college or university. Lower-division course requirements typically include a set of general education courses as well as a sequence of courses in the student’s chosen major or field of study.

Students interested in transferring should also be aware of critical application filing periods and procedures. Many universities require applications almost a year in advance. This information, as well as applications to most four-year institutions in California, can be obtained from the Transfer Center and from a WCC counselor.

**Student Responsibility for Meeting Transfer Requirements**

Students are advised to review a copy of the catalog for their chosen transfer college. Counselors provide assistance, but it is up to each individual student to decide upon an educational goal, take the responsibility for devising a long-range educational plan to achieve this goal, read the college catalog of the transfer college or university of their choice, and then choose the appropriate WCC courses to satisfy the requirements for transfer to that college or university.

**Transfer to Independent Colleges and Universities**

Admission requirements to independent colleges and universities vary. Course transferability and course credit allowed at independent colleges and universities also vary. Students should consult the transfer school’s catalog for specific requirements and transferability or make an appointment with a WCC counselor to clarify admission standards.
TRANSFER TO UC OR CSU

INFORMATION ABOUT TRANSFERRING TO THE UNIVERSITY OF CALIFORNIA (UC) SYSTEM OR CALIFORNIA STATE UNIVERSITY SYSTEM

IGETC

The Intersegmental General Education Transfer Curriculum (IGETC) is a program which community college transfer students may use to fulfill lower-division general education requirements for almost all schools in either the California State University or University of California system. Refer to the IGETC paragraphs in this catalog for more information.

Associate Degrees for Transfer

California Community Colleges are now offering associate degrees for transfer (ADT) to the CSU. These may include Associate in Arts for Transfer (AA-T) or Associate in Science for Transfer (AS-T) degrees which are designed to provide a clear pathway to a CSU major and baccalaureate degree. California community college students who are awarded an AA-T or AS-T degree are guaranteed admission with junior standing somewhere in the CSU system and given priority admission consideration to their local CSU campus or to a program that is deemed similar to their community college major. This priority does not guarantee admission to specific majors or campuses.

Students who have been awarded an AA-T or AS-T are able to complete their remaining requirements for the 120-unit baccalaureate degree within 60 semester or 90 quarter units. To view the most current list of Woodland Community College Associate Degrees for Transfer and to find out which CSU campuses accept each degree, visit the CSU ADT Campus Search web page. Current and prospective community college students are strongly encouraged to meet with a counselor to review their options for transfer and to develop an educational plan that best meets their goals and needs. Students must complete all degree applicable coursework with a grade of C or better.

ADT Submission Deadlines

Students must submit their graduation petition to Admissions & Records for CSU admission. Deadline dates are:

- Fall—February 15
- Spring—September 15
Identifying Courses that Transfer to UC and CSU

The status of a course’s transferability to UC and CSU is indicated under the course title. (“Programs & Course Listings” on page 79)

Note: Changes may occur throughout the year, so be sure to check with a counselor for current information about course changes and unit limitations.

University of California System

Advanced Standing Selection Criteria to the University of California

The University of California makes every effort to provide a place on one of its campuses for all applicants who meet the minimum admission requirements and file an application during the appropriate filing period. In recent years, the number of applicants for some campuses and some majors has far exceeded the number of spaces available. When a campus cannot accept all eligible applicants, it uses standards that are more demanding than the minimum requirements to select students. These criteria are listed below.

Academic Criteria:

1. Completion of a specified pattern or number of courses that meet general education or breadth requirements.
2. Completion of a specified pattern or number of courses that provide continuity with upper-division courses in the major.
3. GPA in all transferable courses.

Some colleges may also consider supplemental criteria, such as:

1. Special talents, interests, or experiences—beyond those indicated by the academic criteria—that demonstrate unusual promise of leadership, achievement, and service in a particular field, such as civic life or the arts.
2. Special circumstances that have adversely affected the applicant’s life experiences. These circumstances may include, for example, disabilities, personal difficulties, low family income, refugee status, or veteran status.

California State University System

Lower-Division Requirements

California State University requirements vary slightly from campus to campus and from major to major. Students should consult both the catalog of the state university or campus of their choice and their counselor at WCC for requirements.

Complete 60 semester units of UC transferable college credit with a grade point average of at least 2.4 (no more than 14 semester/21 quarter units may be taken Pass/Not Pass)

The California Education Code, Title 5, Section 40409 provides that up to 70 semester (105 quarter) units of credit, exclusive of any credit granted for military service, may be transferred from a community college to any state university campus. However, students must be certain to select courses at WCC appropriate in the major and to the state university campus which they have selected. When otherwise appropriately selected, all WCC courses numbered 1 through 49 are designed for transfer to a state university.

State law compels all state university campuses to require a minimum of 48 units of general education. Thirty-nine units are usually completed in lower division and the remaining nine units in upper division.

Many four-year institutions require multicultural classes for graduation. Consult a counselor for more information.

CSU Admission Requirements

Community college students may be admitted to the CSU system as either upper-division or lower-division transfers depending on space availability. Upper-division transfers (students with 60 or more CSU transferable units) will always be given priority consideration for admission and eligibility will be based upon academic performance at the college level. Lower-division transfers will only be admitted if space permits and eligibility was established at the high school level.

A considerable number of WCC students transfer to the California State University system. Admission representatives from local CSU campuses visit the Transfer Center on a regular basis. Check with the Center for more detailed information.

Making Up Missing College Preparatory Courses

To be eligible for admission to the California State University as a freshman, students who enter college must have completed, with grades of “C” or better in:
Four years of high school college preparatory English
Four years of high school college preparatory mathematics
One year of United States History
One year of laboratory science
Two years of foreign language
One year of visual or performing arts
Three years of electives, in addition to meeting the eligibility index.

Intersegmental General Education Transfer Curriculum (IGETC 2020-2021)

Note: Students should check with a counselor for updates verified after catalog publication date.

The Intersegmental General Education Transfer Curriculum (IGETC) is a general education program which community college transfer students may use to fulfill lower-division general education requirements in either the CSU or UC. Because of its generic nature and agreements between the CSU, the UC, and the community college system, completion of the IGETC to fulfill lower-division general education requirements has become a common path taken by community college students who transfer to a CSU or UC.

Completion of the IGETC, in itself, does not improve eligibility for admission to a CSU or UC or admission to a specific campus or program. The IGETC will permit a student to transfer from a community college to a campus in either the CSU or UC system without the need to take additional lower-division, general education courses to satisfy campus general education requirements. Completion of the IGETC is not a requirement for transfer to a CSU or UC campus nor is it the only way to fulfill the lower-division, general education transfer requirements to a CSU or UC campus.

See a counselor for segmental and campus-specific admission requirements and lower-division major requirements.

Some students may be better served by taking courses which fulfill the CSU General Education Breadth requirements or those of the UC campus or college to which they plan to transfer. Students pursuing majors that require extensive lower-division major preparation may not find the IGETC option to be advantageous. The IGETC is most useful for students who want to keep their options open before making a final decision about transferring to a particular CSU or UC campus. Some colleges and majors will not accept IGETC. See a counselor for assistance.

All coursework applicable to the IGETC must be completed and certified by the last California community college attended prior to transfer in order to be accepted by CSU and UC admissions offices. Except under special circumstances, certification means that the last community college attended prior to transfer to the UC or CSU campus will verify that the student has completed the IGETC (see “IGETC After Transfer Policy”). In addition to the course requirements for each subject area, full certification for the CSU must include completion of the oral communication requirement. For the UC system, oral communication is not required, but the certification must include satisfaction of the foreign language proficiency requirement. All courses must be completed with a grade of “C” or better.
IGETC Requirements for UC & CSU

**UPDATED FOR 2020 – 2021**

Students are encouraged to see a Woodland Community College counselor to discuss the latest transfer requirements.

Completion of all the requirements in the Intersegmental General Education Transfer Curriculum (IGETC) will permit a student to transfer from a community college to a campus in either the California State University or the University of California system without the need, after transfer, to take additional lower-division, general education courses. All courses must be completed with grades of “C” or better. Advanced Placement (AP) examinations are appropriate for inclusion on the IGETC pattern.

FOREIGN LANGUAGE PROFICIENCY

(May be double-counted in the CSU GE-B) May be met by any one of the following:

- Completion of the third year of a foreign language in high school (grade of “C-“ or better)
- Graduation from a secondary school where the language of instruction was not English
- Advanced Placement Foreign Language Examination scores of 3, 4, or 5; or
- Completion of two semesters of a foreign language at a community college or university, with a grade of “C-” or better. Proficiency must be demonstrated at a level comparable to second semester (1B level) of college level (i.e. Spanish 2 at Yuba CC.)

Exempt Majors:

If you have declared any of the majors below, you are EXEMPT from the Foreign Language Graduation Requirement:

- Business Administration – all concentrations
- Computer Science – all concentrations
- Chemistry – B.S. only
- Engineering – all concentrations
- Health Sciences – all concentrations
- Kinesiology – Exercise Science only
- Nursing – All concentrations
- Physics – B.S. only
- Recreation, Parks, Tourism Administration
Information for High School Students

The CTE Transitions Program at Woodland Community College coordinates the awarding of college credit to high school students who meet approved articulation requirements. An articulated course is one in which the high school instructor/Regional Occupational Program (ROP) and Woodland Community College faculty have formally agreed that the high school's/ROPs course outline, syllabus, textbook, and final exam are comparable to those in a course of the same major within Woodland Community College. Students receive credit on a Woodland Community College transcript once articulation requirements have been completed. The CTE Transitions Program prepares students to earn a certificate, an associate’s degree, or to transfer to a 4-year university.

For more information about the CTE Transitions Program, contact the Student Outreach and Retention (SOAR) Office at (530) 668-2595, visit the Admissions and Records Office, or see a counselor.

Programs listed below have at least one class articulated with secondary institutions. Students should check with a counselor if they have questions about specific classes in which they may have earned college credit for courses completed at the secondary level.

- Accounting
- Administration of Justice
- Agriculture Science
- Agricultural Business
- Environmental Horticulture
- Sustainable Agriculture
- Business
- Business Computer Application
- Early Childhood Education
- Child Development Teacher

Associate Degree Programs

Students must file a graduate petition by the deadline during the term they wish to graduate.

Petition deadlines are:

- Fall—November 15
- Spring—April 15
- Summer—July 1
CAREER TECHNICAL EDUCATION

Certificate courses with appropriate general education courses.

Requirements for a certificate to be issued are as follows:

1. All coursework must be completed with a “C”, “P”, “CR”, or better grade.
2. A grade point average of 2.0 or higher qualifies students for a certificate once requirements are achieved.
3. At least 6 units or the maximum number of units required for the certificate, whichever is less, must be completed in residence at Woodland Community College.

Exceptions

Student petitions may be submitted to the dean for consideration of outside work, not to exceed one-half of the required units of a certificate. Each petition will be taken into consideration individually and final determination rests with the dean in consultation with faculty. Student petitions are available on the website at Admissions and Records. Students must have recommendation from counselors and return to the Admissions and Records Office with appropriate supporting documentation prior to submission to the dean for further action.

Students who wish their name to appear in the graduation program must submit their online petition by April 15.

Steps for Applying for Certificates

1. Complete all requirements for the certificate as described in the college catalog.
2. Submit a Certificate Petition in Self-Service by the following deadlines:
   - Fall—November 15
   - Spring—April 15
   - Summer—July 1
3. Admissions and Records will review each student’s petition for requirements being completed.
4. A letter will be sent notifying the student of the outcome of their petition.
5. After the term has ended the certificates will be posted to records for students who have completed all requirements. (Note: Only students who have received Certificates of Achievement will have degrees posted on their transcripts)

Commencement

Woodland Community College holds the commencement ceremony once a year at the end of May. Students who wish their name to appear in the commencement program, must submit their online petition by April 15.

Students completing a degree the prior fall semester may participate in commencement ceremonies the following spring. Students completing a degree in summer may participate in commencement ceremonies the previous spring or subsequent spring. The summer students who decide to participate the prior spring must submit their petition to graduate early by April 15 to have their name in the commencement program.

Students who are eligible to attend the ceremony will receive an email about participating in the ceremony from the Dean of Student Services Office prior to the ceremony.

Note: Students must petition to graduate if they wish to have a degree or certificate reflected on their transcripts regardless of their plans to attend the commencement ceremony.

- COT—Certificate of Training
COURSE INFORMATION

The online schedule of courses and Self-Service provide a listing of courses available. Courses are continuously modified and updated, and may not be offered each term. Students should check with a counselor, the schedule of classes and Self-Service for the most up-to-date availability.

Requisites

“Prerequisite” means the preparation or previous coursework considered necessary for success in the course. Prerequisites are required only for courses where specific academic background is necessary in order to assure students a reasonable chance of success in the course. Prerequisites which are listed as “required” include:

- Courses for which specific prerequisites have been validated,
- Sequential coursework in a degree or program, or
- Courses in which a prerequisite is necessary for transfer to a four-year college.

Note: Responsibility for having met the prerequisite rests with the student. A grade of “C” or better is required to meet a course prerequisite.

“Corequisites” for a course, are those courses which a student may enroll prior to enrolling in the target course or simultaneously with the target course. Corequisites provide the necessary skill or supplementary body of knowledge or laboratory time during the course to help assure success in the course. Concerns about requisites are best resolved with a college counselor or the course instructor prior to the first day of class.

For additional information, see “Academic Regulations and Information” on page 38 and “Prerequisites/Corequisites” on page 49.

Policy for Petitioning or Waiving Course Prerequisites

Course placement is determined by a process in which the student and counselor review all assessment criteria available. Students who wish to petition their recommended placement or the waiver of a prerequisite should be prepared to give evidence or justification why the exemption should be granted. Reasons for seeking a prerequisite challenge may include one or more of the following:

- Prerequisite course is not available;
- Prerequisite has not been validated;
- Student has the knowledge or ability to succeed in the course without meeting the prerequisite; or
- Student believes the prerequisite is discriminatory or is being applied in a discriminatory manner.

Check with a counselor or Admissions and Records to obtain the required forms. Challenges to prerequisites/corequisites shall be on the approved form and filed with Admissions and Records.

Keys to Numbers and Listings

Content and policies expressed in this catalog are believed to be true and correct as of the date of publication. Courses are listed alphabetically by department and numerically within the listing of each department. Units of credit are shown immediately following the course title.

Any course listed in this catalog may be offered in the summer session, evening, or off-campus programs at any time there is a sufficient number of students available to justify offering the course. Students should consult the online schedule of classes or Self-Service to determine which courses will be offered during a given semester. Any course listed in the schedule of classes or Self-Service may be canceled when the enrollment is insufficient to justify offering the class or an instructor is not available.
Course “97”, “98”, “99”

These courses are reserved for special topics, independent study, and special project course offerings.

Course Numbering and Transfer of Credits

It is imperative that students planning to transfer to a university or four-year college plan their program of study with a counselor as there may be variances in courses accepted at certain universities. The District's courses are listed within a variety of numbering series as an aid in interpreting the nature of the course, as follows:

Current Course Numbering Definitions

1-49: Designed as Admissions List courses intended to carry transfer credits to all baccalaureate degree-granting colleges and universities.

50-96: Associate Degree applicable. Not primarily designed for transfer purposes, but taught at the recommended level for acceptable at any college or university offering such corresponding coursework.

97-99: Experimental/independent study.

100-199: Developmental basic skills

200-299: Primarily designed at the technical level; usually will be courses specifically designed as part of a program(s) leading directly to employment. Under special circumstances, a Baccalaureate degree-granting institution may wish to accept such courses for transfer credit.

500 Series: Noncredit courses—sometimes referred to as “Adult Education Courses.”

WCC Online Courses

Online learning at WCC is a quality alternative to traditional face-to-face classes. No distinction is made between requirements and expectations for face-to-face courses and online courses—it is simply a different method of instruction.

The college offers courses in several distance education modalities described in AP4105:

- **Fully Online**: A course in which 100% of the instruction and interaction between instructor and student is delivered online asynchronously
- **Online with Flexible In-Person Component**: Online, asynchronous course with in-person/proctored assessment/activities at a flexible time and place
- **Partially Online/Hybrid**: A course that replaces some, but not all, face-to-face or online synchronous class time with asynchronous online instruction
- **Broadcast Education**: A course offered synchronously through 2-way interactive/point-to-point instruction

Online courses require a self-disciplined student—one who is an active learner and does not procrastinate. Courses require participation through frequent online communication with instructors and other students. These courses are best suited for individuals who can manage time and take responsibility for their education.

Online students must have ready access to the Internet. If necessary, students may gain access to the Internet and WCC online courses via the campus open computer lab during regular lab hours. Certain courses may have specific software and class requirements; check with the instructor on log-into Canvas for details.

Online Student Success

Online courses are rigorous and require clear commitment by the student. The student will need to be self-disciplined, motivated, well-organized and on-task in order to succeed. Courses require participation through frequent online communication with instructors and other students. These courses are best suited for individuals who can manage time and take responsibility for their education. We strongly encourage students to view the Online Education Tutorials to help prepare for online education.

The student enrolled in an online class should have a solid understanding of Internet browsers (for example, Safari, Microsoft Edge, Chrome, or Firefox) and using file attachments and word processing programs. They should also be good problem solvers who are not intimidated by technology.
Technical Requirements
Online students must have ready access to the Internet. If necessary, students may gain access to the Internet and WCC online courses via the campus open computer lab during regular lab hours. Certain courses may have specific software and class requirements; check with the instructor on log-into Canvas for details.

Support for Classes
While taking online courses, students will be able to seek support from several sources:

Technical Assistance: Help Desk: (530) 741-6754

Online Help
Woodland Community College ensures all DE classes are accessible and compliant with Section 508, as well as Section 504 and the American Disability Act. For students who suspect they may have a disability which may impact accessibility, please contact:

Department of Supportive Programs & Services (DSPS): (530) 661-5797 or wccdspsp@yccd.edu

Transferability of WCC Courses/
Articulation of Courses Between Institutions

Articulation at WCC refers to courses and the process of developing a formal, written, and published agreement that identifies courses (or sequences of courses) on the WCC campus that are comparable or acceptable in lieu of specific requirements at another campus, often called the transfer or target institution. Successful completion of an articulated course assures the student and the faculty that the student has taken the appropriate course, received the necessary instruction and preparation, and that similar outcomes can be assured enabling progression to the next level of instruction at the transfer institution.

Information on current articulated courses can be located at: www.assist.org

Course Identification Numbering System
C-ID is a supplemental common course numbering system aimed at helping students and faculty identify courses across institutions that fulfill associate or baccalaureate degree requirements. ASSIST reports include designations for approved courses.

C-ID designations can be used in two ways:
1. When a community college course has a C-ID designation, such as C-ID HIST 130, that course can be used in place of any other community college course that has that same C-ID designation for the purpose of fulfilling associate degree major requirements.

2. Additionally, universities can indicate C-ID designations accepted for lower-division major preparation requirements. For example, a university can indicate for its history major that C-ID HIST 130 fulfills a particular major preparation requirement, so any community college course with the C-ID HIST 130 designation will be accepted to fulfill that requirement.

For more information about C-ID designations and how they can help in finding courses that are appropriate for a student’s academic goals, see a college counselor.

ACCOUNTING (A.S.)
AS: Associate in Science

Accounting is the language of business. The Accounting Associate in Science Degree is designed to prepare students for employment in the fields of accounting and/or bookkeeping. This major is best suited for the student who wishes to pursue secure rewarding positions such as accounting manager, internal auditor, financial analyst, tax accountant, or controller in public accounting firms, corporations, governmental agencies, or not-for-profit organizations. Accounting provides you with the information and experience to make educated decisions in all of your endeavors. Most businesses and organizations depend on in-house or contracted accountants (or both) to measure performance and provide financial information and forecasts. Students will learn the rules and language that govern business. They will learn how to use, interpret, prepare and present financial statements that can be used to assist business planning and decision-making. Students will understand and apply financial analysis techniques. An education in accounting can lead to a position preparing financial reports for the business entity served.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:
✓ Create accurate, professional, and appropriate accounting documents and reports for the business entity served.
✓ Compute financial data using accounting concepts and methods to understand, analyze, and communicate issues in quantitative terms.
✓ Analyze accounting data/information in addressing and evaluating problems and issues in making informed business decisions.
✓ Demonstrate effective use of technology applicable to the accounting field.

ACCOUNTING (CERTIFICATE)
Certificate of Achievement

The Accounting Certificate of Achievement is designed for students who would like to become full-charge bookkeepers. The certificate can also be used as a stepping stone towards the Associate of Science Degree in Accounting. After completing the coursework for this certificate, a student will be able to use introductory managerial accounting concepts to make decisions within a business. They will be able to apply generally accepted accounting principles to record common business transactions, to prepare simple financial statements, and to analyze the results of operations, cash flows, and financial position as reported. Students will learn to use computer technology and applications to record, report, and analyze business transactions and their effects on operating, investing, and financing activities.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:
✓ Demonstrate effective use of technology applicable to the accounting field.
✓ Create accurate, professional, and appropriate accounting documents and reports for the business entity served.
✓ Analyze accounting data/information in addressing and evaluating problems and issues in making informed business decisions.
✓ Compute financial data using accounting concepts and methods to understand, analyze, and communicate issues in quantitative terms.
Required Courses for Major

Required Courses 30.5 units

ACCT1 – Principles of Accounting – Financial 4 units
ACCT2 – Principles of Accounting – Managerial 4 units
ACCT3 – Computerized Accounting 3 units
ACCT6 – Individual Income Taxes – Federal/State 4 units
ACCT9 – Business Payroll Procedures 3 units
ACCT50 – General Accounting 3 units
BCA15 – Business Computer Applications – Beginning 3 units
BCA20 – Computer Calculation 1.5 units
BCA33 – Microsoft Excel II 1 unit
BCA34 – Microsoft Excel III 1 unit
GNBUS56 – Business Mathematics 3 units

Total Credits 30.5 units

ACCOUNTING COURSES

ACCT 1A  Principles of Accounting – Financial Lab 0.5 units
27 lab hours
Requisites:
Concurrent enrollment in or satisfactory completion of ACCT1
Advisories:
Language—Recommended eligibility for ENGL1A
Mathematics—Recommended eligibility for MATH52

Transferable to both UC and CSU
C-ID: ACCT 110 (ACCT 1 + ACCT 1A)

Laboratory to accompany Principles of Accounting – Financial (ACCT 1). Students use the computer as a tool in solving accounting problems. Includes spreadsheets and computerized accounting system. Each student is required to have some type of storage device to save their files on.

ACCT 1  Principles of Accounting – Financial 4 units
72 lecture hours
Advisories:
Computer Literacy—Recommended basic computer skills
Mathematics—Recommended eligibility for MATH52

Limitations on enrollment:
Not open for credit to students with credit in ACCT 1L

Transferable to both UC and CSU
C-ID: ACCT 110 (ACCT 1 + ACCT 1A)

This course introduces the student to the role of accounting in processing and reporting the effects of economic transactions. It examines financial accounting from both the user and preparer perspectives. It teaches how information is processed and reported by the accounting information system as well as how the reports are used by investors and creditors in making decisions. The economic transactions are also analyzed by type of business activity: operating, investing, or financing and their impact on cash flows and profitability for both service and merchandising concerns.

ACCT 2  Principles of Accounting – Managerial 4 units
72 lecture hours
Requisites:
Satisfactory completion of ACCT1 or ACCT1L
Advisories:
Computer Literacy—Recommended basic computer skills
Mathematics—Recommended eligibility for MATH52

Limitations on enrollment:
Not open for credit to students with credit in ACCT 2L

Transferable to both UC and CSU
C-ID: ACCT 120

Emphasizes accounting principles and tools used by management in decision-making, planning, directing and controlling operations. Focuses on cost terms and concepts, cost behavior, cost structure and cost-volume-profit analysis. Includes budgetary techniques, issues relating to cost systems, cost control, profit planning, and performance analysis for manufacturing and service environments; and utilizing computer applications as a tool in preparing and analyzing managerial related accounting reports.
**ACCT 3** Computerized Accounting 3 units

45 lecture hours, 27 lab hours

**Requisites:**
Satisfactory completion of ACCT1 or ACCT50 or ACCT10A or ACCT1L.

**Advisories:**
- **Computer Literacy**—Recommended basic computer skills
- **Language**—Recommended eligibility for ENGL1A
- **Mathematics**—Recommended eligibility for MATH52

Transferable to CSU only

Computerized accounting using QuickBooks Pro. Basic through Intermediate features for small and medium size businesses including banking, sales and customers, purchases and vendors, inventory, reports and graphs. Application of all aspects of accounting cycle.

---

**ACCT 6** Individual Income Taxes–Federal/State 4 units

72 lecture hours

**Requisites:**
Satisfactory completion of ACCT1 or ACCT1L

**Advisories:**
- **Computer Literacy**—Recommended basic computer skills
- **Mathematics**—Recommended eligibility for MATH52

Transferable to CSU only

Individual income tax preparation, forms and computations; business and professional returns; federal and state returns. Individual Income Taxes–Federal/State (ACCT 6) is a CTEC approved course, which fulfills the 60-hour “qualifying education” requirement for tax preparers. A listing of additional requirements to register as a tax preparer may be obtained by contacting CTEC at P.O. Box 2890, Sacramento, CA 95812-2890, toll-free by phone at (877) 850-2832, or on the Internet at www.ctec.org.

---

**ACCT 9** Business Payroll Procedures 3 units

54 lecture hours

**Transferable to CSU only**

Introduction to payroll terminology, procedures, calculations, record-keeping, timelines, percentages, limitations, and laws that relate to maintaining payroll for business firms in California; computerized payroll procedures will also be presented. Prior accounting knowledge is not necessary.

---

**ACCT 50** General Accounting 3 units

54 lecture hours

**Limitations on enrollment:**
Not open for credit to students with credit in ACCT 1 or ACCT1L

Introductory accounting course covering accounting principles and practices, the complete accounting cycle, and creation of financial reports. Use of proper procedures in the general journal, special journals, general ledger and subsidiary ledgers. Includes payroll processes, and proper financial reporting.
ADMINISTRATION OF JUSTICE

DIVISION CONTACT
Dr. Sandra Fowler,

Counseling: (530) 661-5703

DEGREES OFFERED
» Administration of Justice (A.S.-T)
» Corrections (A.S.)
» Law Enforcement (A.S.)

ADMINISTRATION OF JUSTICE (A.S.-T)
AS-T: Associate in Science for Transfer

The Associate in Science in Administration of Justice for Transfer (AS-T) degree prepares students for upper division coursework for a bachelor’s degree in criminal justice. By design of curriculum, students will be able to describe the individual functions and components of the modern criminal justice system; use introductory concepts of legal research to locate, and discuss the content of statutory and case law; analyze criminology factors that contribute to the cause of criminal behavior, recidivism, and strategies and practices established for the control of crime. In addition, this program encompasses ethical practices, standards and expectations within the entire criminal justice system.

Proper selection of curriculum electives further allows students to study other academic disciplines, such as chemistry or biology, psychology, sociology, public administration and computer science. For example if you have an interest in forensic anthropology, you may choose chemistry or biology as important electives to consider.

Students are encouraged to review program requirements specific to the CSU or UC educational institution they are planning to attend.

According to SB1440, section 66746, students seeking an AS-T degree are required to complete a minimum of 18 semester units in the major, must fulfill CSU GE-Breadth or IGETC requirements, complete 60 units of CSU transferable coursework, and complete all degree-applicable courses with a C or better.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:
✓ Effectively use language and non-verbal communication consistent with and appropriate for application in the Criminal Justice System through classroom discussion, exercises and written assignments.
✓ Evaluate and analyze information when addressing issues within the criminal justice system, draw reasonable conclusions that encompass criminal law, social expectation and ethical standards through classroom discussion exercises and written assignments.
✓ Demonstrate respect and acceptance for differing opinions, feelings and, values of others through the development of listening skills that promote ethical and equitable application of Criminal Law through classroom discussion, exercises and written assignments.

**AJ 1 Ethics In The Criminal Justice System**

- **54 lecture hours**
- **Advisories:**
  - **Language**—Recommended eligibility for ENGL1A
- **WCC Graduation Requirements:** Area C
- **Transferable to both UC and CSU**
  - CSU GE-Breadth: D0
  - IGETC: 4J

Examination of the types and history of ethical theories and development of moral and ethical behavior for criminal justice practitioners. Students learn how to analyze an ethical dilemma and apply this process to contemporary law enforcement issues.

**AJ 10 Introduction to Criminal Justice System**

- **54 lecture hours**
- **Advisories:**
  - **Language**—Recommended eligibility for ENGL1A
- **WCC Graduation Requirements:** Area B
- **Transferable to both UC and CSU**
  - C-ID: AJ 110
  - CSU GE-Breadth: D0

Overview of the history and philosophy of the U.S. justice system; study of the modern criminal justice system and its components, law enforcement, courts, and corrections; identifying the roles of the various professionals within the system and their interrelationships; analysis of legal issues; study of theories of crime causation, punishment, and rehabilitation.

**AJ 11 Criminal Law**

- **54 lecture hours**
- **Advisories:**
  - **Language**—Recommended eligibility for ENGL1A
- **Transferable to both UC and CSU**
  - C-ID: AJ 120

History, philosophy, and constitutional provisions of criminal law; study of penal code statutes and other statutory and case law applicable to law enforcement, including exploration of crimes against persons and property, public peace, narcotics, and dangerous weapons.

**AJ 13 Evidence**

- **54 lecture hours**
- **Advisories:**
  - **Language**—Recommended eligibility for ENGL1A
- **Transferable to CSU only**
  - C-ID: AJ 124

Origin, development, and philosophy of evidence; the study of both codified evidentiary law and applicable court decisions. Specific topics include, types of evidence, the judicial process, the admission and exclusion of evidence, legal standards of proof, direct and circumstantial evidence, testimonial evidence and witness competency, the hearsay rule and its exceptions, demonstrative evidence, judicial notice, and issues relating to search and seizure.

**AJ 14 Criminal Justice Process**

- **54 lecture hours**
- **Advisories:**
  - **Language**—Recommended eligibility for ENGL1A
- **Transferable to CSU only**
  - C-ID: AJ 122

Analysis of legal processes from pre-arrest through trial and appeal, sentencing, and corrections procedures utilizing statutory law and state and constitutional law precedents.

**AJ 15 Criminal Investigation**

- **54 lecture hours**
- **Advisories:**
  - **Language**—Recommended eligibility for ENGL1A
- **Transferable to CSU only**
  - C-ID: AJ 140

Addresses procedures and concepts as applied to criminal investigations, including surveillance; crime scene response management; and identification, collection, and processing of physical evidence. Covers U.S. Constitution and Statutory/Case Law; interview/interrogation processes and techniques; identifying information sources; procuring search warrants; serving search warrants; exceptions to the search warrant rule, and court process. Emphasis is placed on developing the student’s capacity to analyze specific situations and identify sound ethical investigative procedures.

This course is designed to prepare students to perform a battery of physical agility testing as it relates to peace officer standards for the successful completion of an academy and employment as well as maintain a level of wellness throughout their career. Topics include stress management, nutrition, and the necessity of fitness for duty. Students will learn strategies to optimize cut point fitness scores used for evaluating individual performance. Students enrolled in this course are required to participate in all fitness activities in preparation for performing agility and obstacle course exercises.

The Probation Officer Core Course is a 200 hour entry level training program designed to meet critical evidence based job performance specifications as outlined by the California Department of Corrections and Rehabilitation, Standards and Training for Corrections (STC) division. Curriculum includes: roles and responsibilities of a probation officer, ethical standards, legal liability, California Penal Code, statute and case law, evidence-based practices, interviewing techniques, motivational interviewing techniques, determinate sentencing, case plan and supervision, violations of probation, principles of restraint and use of force, and physical conditioning.

Investigative report writing for the criminal justice professional relative to law enforcement, probation, correctional institutions, parole activities, and private security services. Includes practical experience in preparing field notes, letters, memorandums, and official administrative reports; the role of reports in civil litigation, criminal prosecution, and the presentation of court testimony. Emphasis will be placed on recognizing the characteristics of good report writing and addressing the common report writing problems, including use of proper criminal justice terminology, grammar, spelling and composition.

AGRICULTURE PROGRAMS

AGRICULTURE ANIMAL SCIENCE (A.S.-T)
AS-T: Associate in Science for Transfer

The Associate in Science in Agriculture Animal Science for Transfer is intended for students who plan to complete a bachelor’s degree in Agriculture Business at a CSU campus. Students completing this degree are guaranteed admission to the CSU system with junior status, but not to a particular campus or major. Students transferring to a CSU campus that does accept this degree will be required to complete no more than 60 units after transfer to earn a bachelor’s degree.

The Associate in Science in Agriculture Animal Science for Transfer degree requirements (as stated in SB1440 law) requires students to complete the following:

- a minimum of 18 semester units in the major or area of emphasis as determined by the community college district.
- 60 semester CSU transferable units
- California State University General Education-Breadth (CSU GE-Breadth) pattern of 39 units; OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern of 37 units.
- Obtainment of a minimum grade point average (GPA) of 2.0.
- Earn a grade of “C” or better in all courses required for the major or area of emphasis.

Students should consult with a counselor for more information on university admission and transfer requirements.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:

✓ Evaluate and apply scientific knowledge into working skills used in animal sciences.

✓ Evaluation of agricultural data as it relates to animal production, draw reasonable conclusions, recognize the environmental implications of these conclusions, and apply these conclusions to examples used in industry.

Production Course (choose 1) 3 units
AG42–Sheep and Goat Science/Production...............3
AG43–Beef Cattle Science.....................................3

Total Credits 25 units

WOODLAND COMMUNITY COLLEGE 2021–2022
The Associate in Science in Agriculture Business for Transfer degree requirements (as stated in SB1440 law) require students to complete the following:

- a minimum of 18 semester units in the major or area of emphasis as determined by the community college district.
- 60 semester CSU transferable units
- California State University General Education-Breadth (CSU GE-Breadth) pattern of 39 units; OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern of 37 units.
- Obtaining a minimum grade point average (GPA) of 2.0.
- Earn a grade of "C" or better in all courses required for the major or area of emphasis.

Students should consult with a counselor for more information on university admission and transfer requirements.

### Student Learning Outcomes

Upon successful completion of this program, students will be able to:

- **✓** Students will be competent with evaluation of agricultural data, draw reasonable conclusions, recognize the environmental implications of these conclusions, and apply these conclusions to examples used in industry.
- **✓** Students will critically evaluate, and apply scientific knowledge into working skills applied in the Agriculture field.

AGRICULTURE BUSINESS (CERTIFICATE)
Certificate of Achievement

The Agriculture Business Certificate of Achievement is designed for students interested in working in the area of agricultural related business. Career opportunities in agricultural business may include working in banking, agricultural/farm credit, agricultural insurance, consulting firms, or agricultural product distribution and sales. The agricultural business sector is infused within all aspects of agriculture: across production, processing, distribution, and support opportunities linked to agriculture. In the state of California, agriculture is the #1 commodity which further increases our student's employment opportunities.

This certificate is designed to provide students with a solid business foundation related to the agriculture industry, using specific commodity examples that are marketed and sold. This program also prepares students to transfer to an Agriculture Business program at a four-year university. Students who plan to transfer should talk to a counselor or advisor to select appropriate general education and elective courses that will meet the requirements of the chosen university program.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:
✓ Apply critical thinking skills to information related to and applied to agricultural business; develop conclusions, and apply sound practices and problem solving during business processes.
✓ Apply the scientific method to understand, critically evaluate, and apply scientific knowledge into applied working skills in the agricultural business industry.

AGRICULTURE RESEARCH TECHNICIAN (CERTIFICATE)
Certificate of Achievement

The Agriculture Research Technician Certificate of Achievement combines preparatory coursework in workforce development with major specific topics in plant or soil science, to develop the pathway within agriculture. Students will be able to develop a base set of skills that are required to be successful in the increasingly complex business and production operations in the agriculture industry. Students will be prepared for this high demand industry following completion of coursework spanning research in workforce and careers, agricultural markets and policies, quantifying the value of farm operations, and recognizing the impact of food production and the environment in sustaining life.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:
✓ Apply the scientific method to understand, critically evaluate, and apply scientific knowledge into applied working skills in the agriculture industry.
✓ Apply critical thinking skills to information related to and applied to agriculture production; develop conclusions, and apply sound practices and problem solving during business or production of food.

AGRICULTURE COURSES

**AG 4** Introduction to Agricultural Business | 3 units

- **54 lecture hours**
- **Advisories:**
  - Language—Recommended eligibility for ENGL1A
  - Transferable to both UC and CSU
  - C-ID: AG-AB 104

Provides a basic understanding of the business and economics of the agricultural industry; an introduction to the economic aspects of agriculture and their implications to the agricultural producer, consumer and the food system; management principles encountered in the day-to-day operation of an agricultural enterprise as they relate to the decision-making process.

**AG 5** Agriculture Economics | 3 units

- **54 lecture hours**
- **Advisories:**
  - Language—Recommended eligibility for ENGL1A
  - Mathematics—Recommended eligibility for MATH52

- **WCC Graduation Requirements: Area B**

- **Transferable to both UC and CSU**
- C-ID: AG-AB 124
- CSU GE-Breadth: D2

The place of agriculture and farming in the economic system; basic economic concepts, and problems of agriculture; pricing and marketing problems, factors of production; and state and federal farm programs affecting the farmer’s economic position.

**AG 6** Agricultural Sales and Communication | 3 units

- **54 lecture hours**
- **Advisories:**
  - Language—Recommended eligibility for ENGL1A
  - Mathematics—Recommended eligibility for MATH52
  - Transferable to CSU only
  - C-ID: AG-AB 112

The study of principles and practices of the selling process; selling strategies and approaches, why and how people buy, prospecting, territory management, and customer service. Self-management, communication, and interpersonal skills necessary in developing managerial abilities, leadership qualities, and facilitating teamwork within the agribusiness sector will be explored. Students will gain experience through role-play, formal sales presentations, and job shadowing. The course content is organized to give students an in-depth understanding of the factors and influences that affect the agribusiness industry on a day-to-day basis.

**AG 11** Agricultural Accounting | 3 units

- **54 lecture hours**
- **Advisories:**
  - Language—Recommended eligibility for ENGL1A
  - Mathematics—Recommended eligibility for MATH52
  - Transferable to CSU only
  - C-ID: AG-AB 128

The study of the principles of agricultural accounting systems and types of records, their use and how to compute and use measures of earnings and cost of production to improve agribusiness efficiency. Farm income tax, Social Security, and employee payroll records also included. Application of these concepts and methods through hands-on projects developing computer-based solutions for agriculture business.

**AG 12** Computers in Agriculture | 3 units

- **36 lecture hours, 54 lab hours**

- **Transferable to CSU only**
- C-ID: AG-AB 108

Computer use in the workplace with emphasis on agricultural and business applications. Computer applications including word-processing, spreadsheets, databases, and presentation managers will be covered. Also included will be assessing information using the Internet and World Wide Web, telecommunications and introduction to web page design and other software appropriate to agribusiness.
AG 15 Introduction To Agriculture Education and Careers 1 unit

18 lecture hours

Transferable to CSU only

Introduction to educational and agricultural employment opportunities. Includes portfolio and educational plan development and curriculum requirements that pertain to educational goals as they relate to agriculture majors. Assists students in setting goals and developing skills necessary for life-long success in obtaining, maintaining, and advancing in agriculture careers. Current events that impact agriculture and society will be discussed.

AG 19 Agricultural Leadership Skills 1 unit

18 lecture hours

Transferable to CSU only

Covers meeting preparation and documentation, planning and implementation of organizations, problems and techniques of group dynamics, participation in community and competitive agricultural events. Recommended for agricultural club members and officers; open to all students interested in professional development and leadership activities. Not open to students with credit in AG19R. Grades are P/NP.

AG 20 Agricultural Leadership & Organization 1 unit

18 lecture hours

Transferable to CSU only

Covers parliamentary procedures as applied in professional meetings. Study of group and individual leadership aspects as it applies to community activities. Participation in competitive agricultural speech and leadership conferences. Recommended for agricultural club members and officers; open to all students interested in professional development and leadership activities. Grades are P/NP.

AG 32 Internship 1–4 units

60–300 lab hours

Transferable to CSU only

On-the-job training/occupational work experience in Agriculture that coordinates individual career goals with placement at a job site. A maximum of 4 semester units may be earned in one semester. Students enrolling in this class are not eligible for work experience classes or other Internship classes during the same semester. A maximum of sixteen (16) units may be earned in work experience & internship during a students’ enrollment within Yuba Community College District. Students must work 75 hours for each unit of paid work experience credit. If a student is performing non-paid volunteer work, one unit may be earned for each 60 hours of training.

AG 40 Animal Health and Sanitation 3 units

54 lecture hours

WCC Graduation Requirements: Area E

Transferable to CSU only

The study of common livestock disease and fundamentals of immune response as it relates to animal production systems. Focus will be on the role of establishing best practices related to prevention of disease and promotion of animal health, as well as establishing measures of biosecurity and critical control points in a production environment.

AG 42 Sheep and Goat Science/Production 3 units

36 lecture hours, 54 lab hours

Transferable to CSU only

Survey of the sheep and goat industries; management of commercial, purebred and small farm flocks; selecting, feeding, breeding and basic care of small ruminants plus marketing of sheep, goats and their products.
AG 43 Beef Cattle Science  3 units

**36 lecture hours, 54 lab hours**

Transferable to both UC and CSU  
C-ID: AG-AS 108 L

Principles and practices of purebred and commercial beef cattle production throughout California, the United States, and the world. Topics include beef cattle breeds, breeding principles, selection, nutrition, environmental management, health, marketing and record keeping to ensure scientifically-based management decisions and consumer product acceptance. Field trips are required.

AG 45L Principles of Animal Science  4 units

**54 lecture hours, 54 lab hours**

Advisories:
Language—Recommended eligibility for ENGL1A

Limitations on enrollment:
Not open for credit to students with credit in AG45L

WCC Graduation Requirements: Area A

Transferable to both UC and CSU  
C-ID: AG-AS 104  
CSU GE-Breadth: B2, B3  
IGETC: 5B

An overview of the principles of animal science and the interrelationships of domestic animals and mankind. This course will investigate animal anatomy, physiology, reproduction, nutrition, health, products and by-products, as well as behavior and genetics from a scientific perspective. Current topics on influences of humans on genetic potential and productivity will be addressed. Experimental design and reporting, animal dissections, basic animal handling and husbandry practices, recognition of animal health, and use of biotechnology in animal science will also be addressed.

AG 46 Animal Feeds and Nutrition  3 units

**36 lecture hours, 54 lab hours**

Transferable to CSU only  
C-ID: AG-AB 132L

Introduction to the feeds and nutrition of farm animals. This course will study digestive anatomy and physiology, composition and selection of feeds, characteristics of nutrients, principles of nutrition, nutrient requirements of ruminant and non-ruminant animals, and formulation of diets to meet these requirements.

AG 60 Preparing for 21st Century Workforce in Agriculture  3 units

**54 lecture hours**

WCC Graduation Requirements: Area E

Learning to critically evaluate and assess the job market and jobs in the future as it relates to agriculture related careers. Students will learn how to identify opportunities and evaluate skills, interests, and identify training and/or education pathways through career explorations.
ENVIRONMENTAL HORTICULTURE (A.S.)

AS: Associate in Science

California Agriculture represents a model of food and fiber production for the rest of the world. Producing over 300 different crops, the agriculture economy generates over $20 billion on a continued decline of land acres. The program of courses offered in the Agriculture department will prepare students for a variety of occupations in Agriculture, and will prepare students for transfer to higher education institutions.

Courses in agriculture, environmental horticulture, and plant sciences are designed for total student access. Many courses are available on campus and online. Students completing courses offered by the Agriculture department will gain an appreciation for the interrelationships between agriculture, the environment, world influences, and economic and political pressures.

Student Learning Outcomes

Upon successful completion of this program, students will be able to:
✓ Evaluate agricultural data, draw reasonable conclusions, recognize the environmental implications of these conclusions, and apply these conclusions to examples used in industry.

Required Courses for Major

Introduction to environmental studies with a focus on sustainability. The course will concentrate on the scientific issues relating to the study of environmental science, human impact on the natural environment and the search for solutions. Topics will include human population growth, natural resource use and degradation, and sustainable solutions. Specifically, we will discuss issues centered around use and management of biodiversity, land, air, water, climate, pollution, energy sources, and waste.

Management of plant materials in the greenhouse including greenhouse operations, propagation, growth and development, cultural practices, record keeping and marketing.
ENVHR 50 Workshop in Floral Design 1 unit

18 lecture hours

Elements of design, color, care and handling of floral materials. Six selected arrangements vary from fall to spring semester--projects appropriate to the florist industry. Student must provide a floral knife, wire cutter, scissors and hand towel.

ENVHR 51 Begin Floral Design 1 unit

9 lecture hours, 27 lab hours

Introduction to floral design including the principles and elements of design, color theory, preparation, care of flowers and foliage plants, and formation of basic floral arrangements used in industry. Includes applied art principles, cut flower care, handling practices, use of florist tools and materials, pricing of floral products, and use of current floral business technology. Construction of corsages, floral arrangements, and foliage plant items. Student must provide floral knife, wire cutter, and hand towel.
SUSTAINABLE AGRICULTURE PROGRAMS

SUSTAINABLE AGRICULTURE (CERTIFICATE)
Certificate of Achievement

Woodland Community College is located in Yolo County, home to a diverse group of farms and many Community Supported Agriculture (CSA) groups in the Capay Valley. The Woodland Community College Sustainable Agriculture Certificate of Achievement program is designed to engage students in agricultural practices and techniques that promote sustainability. Core courses introduce students to career opportunities and field experiences, while foundation courses in plant and soil science provide students with background information in general agriculture. The major courses in pest management and sustainable food systems emphasize specific approaches to sustainable agriculture and resources linked to energy.

This program will prepare students for high demand occupations that involve sustainable agriculture practices. Typical jobs include: farming, agriculture production, market gardener, farm manager, propagator, crop consultant, organic inspector, farm advisor, agricultural supplier, compost production, food technologist.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:
✓ Evaluate agricultural data, draw reasonable conclusions, recognize the environmental implications of these conclusions, and apply these conclusions to examples used in industry.

Required Courses for Major

Agriculture Career Core Courses 12 units
AG15–Introduction To Agriculture Education and Careers .................1
AG32–Internship ...............................................................2
AGSA11–Introduction To Sustainable Food Systems .........................3
AGSA51–Green Technology Alternative Energy ............................3
ENVHR15–Introduction to Environmental Science ..........................3

ENVHR11–Landscape Irrigation .................................................3
PLSCI12–California Water ......................................................3
PLSCI30–Principles of Pest Management ....................................3
PLSCI31–Introduction To Sustainable Agriculture ........................3

Total Credits 19 units

AG SUSTAINABLE COURSES

AGSA 11 Introduction To Sustainable Food Systems 3 units
54 lecture hours
Transferable to CSU only

Introduction to the study of social sustainability within the US food and agricultural systems, tracing the historical social forces that have shaped the direction of development of the US agri-food system. Principles of agricultural sustainability relating to existing international models of sustainable agri-food systems. Current social, political and economic obstacles to the advancement of more socially and environmentally sustainable food systems and alternatives.

AGSA 51 Green Technology Alternative Energy 3 units
54 lecture hours

Survey of green technologies that are considered sustainable or earth friendly. Topics include recycling, water purification, sewage treatment, environmental remediation, solid waste management, and renewable energy. Energy policy, efficiency, conservation, storage, climate change, and demand side management are also examined.

WOODLAND COMMUNITY COLLEGE 2021–2022
PLANT SCIENCE PROGRAMS

AGRICULTURE PLANT SCIENCE (A.S.-T)

AS-T: Associate in Science for Transfer

The Associate in Science in Agriculture Plant Science for Transfer is intended for students who plan to complete a bachelor’s degree in plant science or a related major at a CSU campus. Students completing this degree are guaranteed admission to the CSU system with junior status, but not to a particular campus or major. Students transferring to a CSU campus that does accept this degree will be required to complete no more than 60 units after transfer to earn a bachelor’s degree.

The Associate in Science in Plant Science for Transfer degree requirements (as stated in SB1440 law) requires students to complete the following:

- a minimum of 18 semester units in the major or area of emphasis as determined by the community college district.
- 60 semester CSU transferable units
- California State University General Education-Breadth (CSU GE-Breadth) pattern of 39 units; OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern of 37 units.
- Obtainment of a minimum grade point average (GPA) of 2.0.
- Earn a grade of “C” or better in all courses required for the major or area of emphasis.

Students should consult with a counselor for more information on university admission and transfer requirements.

Student Learning Outcomes

Upon successful completion of this program, students will be able to:

✓ Demonstrate critical thinking skills related to scientific research and application of data in the plant science industry.
✓ Develop and apply the scientific method as it relates to problem solving across topics in plant science.

PLANT PROTECTION (CERTIFICATE)

Certificate of Achievement

The Plant Protection Certificate of Achievement prepares students to design and implement comprehensive integrated pest management programs for private or public entities. Pest Control Advisers (PCA) provide written recommendations for the application of pesticides, as well as providing guidance to farmers for overall plant health. This certificate satisfies the core-course requirements specified for option “3. b” in preparing to take the Pest Control Adviser’s exam with the California Department of Pesticide Regulation. The following courses need to be completed with a 2.0 grade point average or better.

Note: In addition to completing the course work, the Department of Pesticide Regulation requires PCA exam applicants to have completed 24 months of technical work experience before taking the exam. Courses in the program provide hands-on experiences designed to give students a combination of practical skills and technical knowledge. Students who intend to transfer should meet with a counselor or advisor to review lower-division requirements of the college or university they plan to attend.

Student Learning Outcomes

Upon successful completion of this program, students will be able to:

✓ Demonstrate the ability to communicate with clients, assess pest damage for ecological and economic sustainability, determine thresholds and implement IPM practices based on client/crop needs
✓ Explain and apply basic principles of soils, cation exchange capacity, entomology and botany to horticulture practices and pesticide mode of action.
✓ Demonstrate application of pesticides in a safe manner, include selecting proper PPE, mixing, calibration and application.

**PLANT SCIENCE COURSES**

**PLSCI 12** California Water 3 units

*54 lecture hours*

**WCC Graduation Requirements: Area E**

Transferable to CSU only

This course in an interdisciplinary examination of California's water use and management with an emphasis on historical conflict and politics surrounding water scarcity as it relates to food production. Fundamentals of irrigation applications and measurement systems will be covered, focusing on water management. California's water systems and water quality problems will be discussed.

**PLSCI 20L** Principles of Plant Science 4 units

*54 lecture hours, 54 lab hours*

Limitations on enrollment:
Not open for credit to students with credit in PLSCI 20

**WCC Graduation Requirements: Area A**

Transferable to both UC and CSU

<table>

Principles of plant growth including structure, growth processes, propagation, physiology, growth media, and biological competitors. Laboratory topics include microscope use, plant structures internal and external, photosynthesis, respiration and other aspects of plant growth and development.

**PLSCI 21** Fertilizers and Plant Nutrition 3 units

*54 lecture hours*

Advisories:

Language—Recommended eligibility for ENGL1A
Mathematics—Recommended eligibility for MATH52

Transferable to CSU only

The study of the composition, value, selection, and use of fertilizer materials and soil amendments within the context of soil, plant, and fertilizer relationships. Organic fertilizers and the current application practices being used in California will be discussed.
PLSCI 22L  Introduction To Soils  4 units

54 lecture hours, 54 lab hours

Limitations on enrollment:
Not open for credit to students with credit in PLSCI 22

WCC Graduation Requirements:  Area A
Transferable to both UC and CSU
C-ID: AG-PS 128L
CSU GE-Breadth: B2
IGETC: 5B, 5C
UC-TCA: UC-S

Physical, chemical and biological properties of soils as related to plant growth and soil formation. Including the scientific study and theory of soil development, classification and characteristics; soil use and management including erosion, moisture retention, structure, cultivation, organic matter and microbiology. Focus on scientific methodology, development of hypothesis and experimental results as it relates to soil properties.

PLSCI 25  Field and Vegetable Crops  3 units

36 lecture hours, 54 lab hours

WCC Graduation Requirements:  Area A
Transferable to CU only

Economic importance, adaptation, cultural practices, irrigation, integrated pest management, cost analysis, calendar of operations, and marketing in the production of field crops (including barley, oats, wheat, corn, alfalfa, rice, dry beans, cotton, and seed crops) and vegetable crops (including tomatoes, peppers, lettuce, and melons). Field trips are required.

PLSCI 30  Principles of Pest Management  3 units

54 lecture hours

Transferable to CU only

Principles of pesticide management including: pesticide laws and regulations; identification and symptoms of plant pests; modes of pesticide action; principles of integrated pest management; non-pesticide pest control; effective and safe use of herbicides, insecticides, fungicides and other crop protection chemicals; and pesticide record keeping. This course will assist students in preparation for the Department of Pesticide Regulations PCA Exam (Category: Pest Management).

PLSCI 31  Introduction To Sustainable Agriculture  3 units

54 lecture hours

Transferable to both UC and CSU

Introduction to the history, definitions, concepts, principles, and practices of sustainable agricultural systems. Sustainability topics to be discussed include: organic farming, integrated pest management, holistic resource management, non-organic sustainable agriculture, low-input sustainable agriculture, etc. Local examples of enterprises using sustainable agricultural systems will be discussed.

PLSCI 32  Plant Protection Materials  3 units

54 lecture hours

Advisories:
Language—Recommended eligibility for ENGL1A
Mathematics—Recommended eligibility for MATH52

Transferable to CSU only

Introduction of the history, laws and regulations, safe and responsible use, toxicology, risks, benefits, and sustainability in the use of horticultural and agricultural chemicals including pesticides, fertilizers, plant growth regulators, defoliants, and antimicrobials. Applied examples will be used to integrate information into agri-chemical management programs. Course is used to prepare students for the State applicator certification test.

PLSCI 33  Weed Science  3 units

36 lecture hours, 54 lab hours

WCC Graduation Requirements:  Area A
Transferable to both UC and CSU

An introduction to the classification, identification, and life cycle of weeds common in California. Weed management practices will be covered including: mechanical, biological, and chemical methods. Herbicide resistance management will also be covered. Collection and labeling of plant specimens as well as field trips are required.
This course examines the disease triangle of plant, environment, and pathogen interactions. It covers fungal, bacterial, viral and nematode pathogens and the diseases they cause in agricultural crops. Disease identification and management practices including prevention, cultural, chemical, and biological methods are also discussed.
ANTHROPOLOGY (A.A.-T)
AA-T: Associate in Arts for Transfer

The Associate in Arts in Anthropology for Transfer degree (AA-T in Anthropology) creates a seamless transfer pathway for students who plan to complete a Bachelor of Science in Anthropology at a California State University. With the completion of the AA-T in Anthropology, students will possess foundational knowledge and skill that comprise the core content of the first two years of many four-year programs in Anthropology.

The following is required for all AA-T or AS-T degrees:

- Minimum of 60 CSU-transferable semester units.
- Minimum grade point average (GPA) of at least 2.0 in all CSU transferable coursework. While a minimum of 2.0 is required for admission, some majors may require a higher GPA. Please consult with a counselor for more information.
- Completion of a minimum of 18 semester units in an “AA-T” or AS-T” major as detailed in the transfer section of the catalog. All courses in the major must be completed with a grade of C or better or a “P” if the course is taken on a pass/no pass basis.
- Certified completion of the California State University General Education-Breadth pattern (CSU GE Breadth); OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:

✓ Identify and practice key aspects of anthropological research methodology.
✓ Identify and discuss major topics relevant to physical anthropology, cultural anthropology, and archaeology.
✓ Critically analyze and interpret anthropological data.

## ANTHROPOLOGY COURSES

### ANTHR 1 Introduction To Biological Anthropology 3 units

**54 lecture hours**

**Advisories:**
- **Language**—Recommended eligibility for ENGL1A

**WCC Graduation Requirements: Area A**

Transferable to both UC and CSU

- **C-ID:** ANTH 110
- **CSU GE-Breadth:** B2
- **IGETC:** 5B
- **UC-TCA:** UC-S

Study of human biology, genetics, theory of evolution, primatology, changes in humans through time, human fossil record, human variations today, significance of culture.

### ANTHR 2 Cultural Anthropology 3 units

**54 lecture hours**

**Advisories:**
- **Language**—Recommended eligibility for ENGL1A

**WCC Graduation Requirements: Area B**

Transferable to both UC and CSU

- **C-ID:** ANTH 120
- **CSU GE-Breadth:** D1
- **IGETC:** 4A
- **UC-TCA:** UC-B

Diversity of cultures from aspects of universals of language, economics, kinship, art, religion, technology, etc.; functional aspects of culture and cultural change; varieties of customs and institutions of different peoples; significance of human culture.

### ANTHR 3 Introduction to Archaeology 3 units

**54 lecture hours**

**Advisories:**
- **Language**—Recommended eligibility for ENGL1A

**WCC Graduation Requirements: Area B**

Transferable to both UC and CSU

- **C-ID:** ANTH 150
- **CSU GE-Breadth:** D1
- **IGETC:** 4A
- **UC-TCA:** UC-B

Introduction to the methods and theories of modern archaeology, including site exploration and interpretation. Patterns of evidence for human behavior from the first humans to the present.
ART COURSES

ART 1A History of Art I 3 units

54 lecture hours
Advisories:
Language—Recommended eligibility for ENGL1A

WCC Graduation Requirements: Area C
Transferable to both UC and CSU
CSU GE-Breadth: C1
IGETC: 3A
UC-TCA: UC-H

Survey of Art history, painting, sculpture, and architecture; Art from the Paleolithic period through the Early Christian World, including pre-literate art and Pre-Columbian art.

ART 1B History of Art II 3 units

54 lecture hours
Advisories:
Language—Recommended eligibility for ENGL1A

WCC Graduation Requirements: Area C
Transferable to both UC and CSU
CSU GE-Breadth: C1
IGETC: 3A
UC-TCA: UC-H

Survey of European Art history, painting, sculpture and architecture from the Middle Ages to the Baroque period.

ART 1C History of Art III 3 units

54 lecture hours
Advisories:
Language—Recommended eligibility for ENGL1A

WCC Graduation Requirements: Area C
Transferable to both UC and CSU
CSU GE-Breadth: C1
IGETC: 3A
UC-TCA: UC-H

Survey of Art history: painting, sculpture, photography, and architecture, including a survey of American art; the 19th through the 20th Century.

ART 4A Drawing and Composition Beginning 3 units

27 lecture hours, 81 lab hours
Advisories:
Language—Recommended eligibility for ENGL1A

Transferable to both UC and CSU

Drawing and composition using various materials. Basic instruction in perspective, landscape, still life, and other subjects.

ART 4B Drawing and Composition Advanced 3 units

27 lecture hours, 81 lab hours
Advisories:
Language—Recommended eligibility for ENGL1A

Transferable to both UC and CSU

Drawing and Composition using various materials. Basic instruction in figure drawing and architectural studies.
ART 5  Art Appreciation  3 units

54 lecture hours
Advisories:
Language—Recommended eligibility for ENGL1A
Limitations on enrollment:
Not open for credit to students with credit in HUMAN 5

WCC Graduation Requirements: Area C, Multicultural Graduation Requirement

Transferable to both UC and CSU
CSU GE-Breadth: C1
IGETC: 3A
UC-TCA: UC-H

This course provides a general introduction to art that offers a look at works of art through the study of theory, terminology, themes, design principles, media, techniques, with an introduction to the visual arts across time and diverse cultures.

ART 9A  Beginning Painting  3 units

27 lecture hours, 81 lab hours

Transferable to both UC and CSU
C-ID: ARTS 210

Introduction to the principles, elements, and practices of painting. Focus on painting materials, perceptual skills and color theory, paint mixing and technique, as well as creative response to materials and subject matter.

ART 9B  Intermediate Painting  3 units

27 lecture hours, 81 lab hours

Transferable to both UC and CSU

Continued exploration of painting media and techniques. Emphasis on painting from life.

ART 11  Mural Painting  3 units

27 lecture hours, 81 lab hours
Advisories:
Mathematics—Recommended eligibility for MATH52

Transferable to both UC and CSU

Studio course focused on the actual creation of a large mural. Students will design the composition, prepare the wall, and produce the mural.

ASTRONOMY

ASTRONOMY COURSES

ASTRO 1L  Introduction To Astronomy With Lab  4 units

54 lecture hours, 54 lab hours
Advisories:
Language—Recommended eligibility for ENGL1A
Mathematics—Recommended eligibility for MATH52
Limitations on enrollment:
Not open for credit to students with credit in ASTRO 1

WCC Graduation Requirements: Area A

Transferable to both UC and CSU
CSU GE-Breadth: B1, B3
IGETC: 5A, 5C
UC-TCA: UC-S

Survey of the solar system, stars, galaxies, history, and tools of astronomy, cosmology, and exploration of space. Laboratory covers the study and interpretation of astronomical observations through the use of prepared astronomy exercises, the use of telescopes or computer simulations of telescopes, naked eye observation of celestial bodies, and laboratory activities using various quantitative measuring devices.

DEGREES OFFERED
» Biology (A.S.-T)

BIOLOGY (A.S.-T)
AS-T: Associate in Science for Transfer

The Associate in Science in Biology for Transfer (AS-T) degree at Woodland Community College prepares students for transfer in biology and related majors in the CSU system. This degree is intended for students who wish to transfer to a California State University to complete a Bachelor’s Degree in Biology.

The Associate in Science in Biology for Transfer (AS-T) degree will provide students with the preparation in general education and major specific courses to be prepared for Bachelor's level coursework. Students who earn a Bachelor's degree in biology are prepared for advanced degrees, or to enter employment opportunities as laboratory technologists, x-ray and respiratory technologists, physical therapists, physicians, nurses, and researchers in the medical field; as foresters, wildlife and fisheries biologists, field ecologists, ethnobiologists, botanists, entomologists, and others in field biology and ecology; as veterinary technicians, researchers, and doctors in veterinary medicine; as agronomists, plant pathologists, enologists, and pest management specialists in agriculture.

The Associate Degree for Transfer student completion requirements are:

- Completion of 60 semester units that are eligible for transfer to the California State University, including both of the following:
- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements.
- A minimum of 18 semester units in a major or area of emphasis, as determined by the community college district.
- Obtainment of a minimum grade point average of 2.0.
- Earn a “C” or better in all courses required in the major of emphasis.

Student Learning Outcomes

Upon successful completion of this program, students will be able to:

✓ Using examples, apply evolutionary theory to an understanding of the unity and diversity of life.
✓ Analyze data/information in addressing and evaluating problems and issues in making decisions.
✓ Using the Scientific Method, students will be able to correctly interpret experimental data and effectively communicate the findings and implications of that data in writing.
✓ Understand the purpose of scientific inquiry and the implications and applications of basic scientific principles.

Transferable to both UC and CSU
C-ID: BIOL 190
CSU GE-Breadth: B2, B3
IGETC: 5B, 5C
UC-TCA: UC-S

An introduction to biology for majors that emphasizes the molecular, cellular, and environmental processes that are common to most organisms. Topics include an introduction to biomolecules, cell structure, reproduction, enzymes, fermentation, respiration, photosynthesis, molecular genetics, heredity, and evolution.
**BIOL 2 General Zoology**  
**4 units**

36 lecture hours, 108 lab hours  
**Requisites:**  
Satisfactory completion of MATH52 and concurrent enrollment in or satisfactory completion of BIOL1; or Satisfactory completion of BIOL15  
**Advisories:**  
Language—Recommended eligibility for ENGL1A  

WCC Graduation Requirements: Area A  

Transferable to both UC and CSU  
**C-ID:** BIOL 150  
**CSU GE-Breadth:** B2, B3  
**IGETC:** 5B, 5C  
**UC-TCA:** UC-S  

Applies the concepts introduced in Biology 1 to the study of animals and evolution. Animal topics include: patterns of diversity and classification, anatomy and physiology, development and sexual reproduction. Evolution topics include speciation, macro-and microevolution, adaptation to environmental and social challenges, and natural selection. Designed for biology majors and related fields, but open to all qualified students.

**BIOL 3 General Botany**  
**4 units**

36 lecture hours, 108 lab hours  
**Requisites:**  
Satisfactory completion of BIOL1 and MATH52; or satisfactory completion of BIOL15  
**Advisories:**  
Language—Recommended eligibility for ENGL1A  

WCC Graduation Requirements: Area A  

Transferable to both UC and CSU  
**C-ID:** BIOL 150  
**CSU GE-Breadth:** B2, B3  
**IGETC:** 5B, 5C  
**UC-TCA:** UC-S  

Applies the concepts introduced in Biology 1 to the study of plants and general ecology. Topics include: morphology, physiology, systematics, and evolutionary trends among cyanobacteria, algae, fungi, and plants. Populations, community, and ecosystems dynamics of higher plants will be emphasized. Designed primarily for biology majors and related fields but open to all qualified students.
**BIOL 6** Introductory Microbiology 4 units

36 lecture hours, 108 lab hours

**Requisites:**
Satisfactory completion of BIOL1 or BIOL15

**Advisories:**
Language—Recommended eligibility for ENGL1A

Transferable to both UC and CSU
CSU GE-Breadth: B2, B3
IGETC: 5B, 5C
UC-TCA: UC-S

History, structure, metabolism, genetics, and ecology of microscopic life forms; their relationship to disease, immunology, agriculture, and industry. Laboratory emphasizes the development of techniques for the detection, isolation, and identification of both harmless and pathogenic species.

**BIOL 10L** General Biology 4 units

54 lecture hours, 54 lab hours

**Advisories:**
Language—Recommended eligibility for ENGL1A

Limitations on enrollment:
Not open for credit to students with credit in BIOL 10

WCC Graduation Requirements: Area A

Transferable to both UC and CSU
CSU GE-Breadth: B2, B3
IGETC: 5B, 5C
UC-TCA: UC-S

The science of life for non-science majors. Provides an overview of the world of living organisms including their classification and unifying characteristics. Introduces basic biological processes such as homeostasis, photosynthesis, cellular respiration, DNA function, cellular reproduction, evolution, and ecosystem interactions with an emphasis on the relationship of structure to function and the interrelationships of living organisms. Labs and lectures.

**BIOL 12** Marine Biology 3 units

54 lecture hours

**Advisories:**
Language—Recommended eligibility for ENGL1A
Mathematics—Recommended eligibility for MATH52

Limitations on enrollment:
Not open for credit to students with credit in ECOL 12

WCC Graduation Requirements: Area A

Introduction to the biology and natural history of marine organisms. Basic scientific principles, classification, ecology, behavior, and evolution of marine organisms are explored in relation to their environment. The impact of human populations on marine ecosystems and ocean resources is also addressed.

**BIOL 15** Bioscience 4 units

54 lecture hours, 54 lab hours

**Advisories:**
Computer Literacy—Recommended basic computer skills
Language—Recommended eligibility for ENGL1A

WCC Graduation Requirements: Area A

Transferable to both UC and CSU
CSU GE-Breadth: B2
IGETC: 5B, 5C
UC-TCA: UC-S

Introduction to the unifying principles of biology including the chemistry of life, cell structure and function, energy, genetics, evolution, and organismal structure.
BIOL 24  Human Biology  
3 units

54 lecture hours

Advisories:
Language—Recommended eligibility for ENGL1A

WCC Graduation Requirements: Area A

Transferable to both UC and CSU
CSU GE-Breadth: B2
IGETC: 5B
UC-TCA: UC-S

An introduction to general biology of human beings. Emphasis is placed on the concepts, mechanisms and terminology used in anatomy, physiology, and ecology. Topics include cell structure and function, human evolution, anatomy and physiology of the organ systems, genetics, and the human impact on the environment.

BIOL 25  Human Genetics  
3 units

54 lecture hours

WCC Graduation Requirements: Area A

Transferable to both UC and CSU
CSU GE-Breadth: B2
IGETC: 5B
UC-TCA: UC-S

Designed for non-science majors to provide an understanding of basic principles of genetics, current developments in genetics, and the influence of genes and the environment in determining human characteristics.

BIOL 30  Emerging Infections and the History of Infectious Disease  
3 units

54 lecture hours

WCC Graduation Requirements: Area A

Transferable to both UC and CSU

Designed for non-science majors. This course examines current biological threats to societies including emerging and re-emerging diseases (such as AIDS and avian flu) and the release of infectious bio-agents either by terrorists or military organizations. We will also discuss these threats in a historical context by reviewing diseases that have had significant effects on human societies (such as smallpox and polio). The biology of infectious disease and treatment will be covered.

BUSINESS COMPUTER APPLICATIONS BASICS
(NONCREDIT CERTIFICATE)
Certificate of Completion (Noncredit)

Employers demand good computer skills. They want employees who can type, are familiar with word processing and spreadsheets, and know how to use the Internet as a strategic business tool. Woodland Community College's Business Computer Applications Basics certificate starts with the basics of using a computer and operating system, then moves on to software applications, keyboarding, and online skills. This certificate will help students begin to develop the core computer skills they will need to succeed in today's job market.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:
✓ Demonstrate a basic understanding of the Internet, computer hardware and software, problem-solving and troubleshooting skills, and the utilization of web technologies. Students will be able to apply program skills in a professional business environment.

BUSINESS COMPUTER APPLICATIONS COURSES

BCA 15 Business Computer Applications—Beginning 3 units

45 lecture hours, 27 lab hours
Advisories:
Computer Literacy—Recommended basic computer skills
Transferable to CSU only
C-ID: BSOT 111X+112X+113X+114X

Develop beginning skills using the Microsoft Office suite. Basic features of Word, Excel, Access and PowerPoint are covered. Microsoft Word hands-on activities will focus on basic document creation, formatting, and editing. Microsoft Excel activities will focus on spreadsheet design, creation, revision, formatting, and printing a workbook. Problem-solving for Excel solutions is also emphasized. Microsoft Access activities will introduce fundamental relational database design and management. Microsoft PowerPoint activities provide the learner with experience planning, creating, editing, viewing, and printing PowerPoint presentations. Basic computer literacy and keyboarding skills are strongly advised.

BCA 20 Computer Calculation 1.5 units

22.5 lecture hours, 13.5 lab hours
Advisories:
Computer Literacy—Recommended basic computer skills
Mathematics—Recommended eligibility for MATH52
Transferable to CSU only

Skill development in the operation of electronic calculator and computer 10-key as it applies to business operations. Functions include: addition, subtraction, multiplication, division, memory, percentages, and interest calculations to solve typical business problems. Speed and accuracy by touch method emphasized.
**BCA 33  Microsoft Excel II**  1 unit

12 lecture hours, 18 lab hours  
Requisites:  
Satisfactory completion of BCA15  
Limitations on enrollment:  
Not open for credit to students with credit in BCA 33A  
Transferable to CSU only  
C-ID: BSOT 122X

This course is designed to follow the successful completion of BCA 15 and will provide students with an intermediate understanding of Microsoft Excel. Analyzing data, working with multiple worksheets and functions, pivot tables, resolving conflicts, tracking changes, data validation, chart formatting, templates, and macros are covered. Problem-solving for Excel solutions is also emphasized.

**BCA 34  Microsoft Excel III**  1 unit

12 lecture hours, 18 lab hours  
Requisites:  
Satisfactory completion of BCA15; satisfactory completion or concurrent enrollment in BCA33  
Transferable to CSU only  
C-ID: BSOT 132X

This course is designed to provide students with an advanced understanding of Microsoft Excel. Financial and what-if analysis, data tables, scenario management, importing and exporting data, enhancing with Visual Basic, sub-routines, modifying default settings, and problem-solving tools are covered. Problem-solving for Excel solutions is also emphasized.

**BCA 37  Microsoft Access II**  1 unit

12 lecture hours, 18 lab hours  
Requisites:  
Satisfactory completion of BCA15  
Advisories:  
Language—Recommended eligibility for ENGL1A  
Mathematics—Recommended eligibility for MATH52  
Transferable to CSU only  
C-ID: BSOT 123X

This course is designed to follow the successful completion of BCA 15 and will provide the student with an intermediate understanding of database design and management. Advanced queries, table design, custom forms and reports, as well as integration of Access with the web and other programs are covered.

**BCA 38  Microsoft Access III**  1 unit

12 lecture hours, 18 lab hours  
Requisites:  
Satisfactory completion of BCA15; satisfactory completion of or current enrollment in BCA37  
Advisories:  
Language—Recommended eligibility for ENGL1A  
Mathematics—Recommended eligibility for MATH52  
Limitations on enrollment:  
Not open for credit to students with credit in BCA 37B  
Transferable to CSU only  
C-ID: BSOT 133X

This course is designed to provide students with an advanced understanding of database design and management. Action queries, table relationships, and automating tasks with macros are covered. Visual Basic for Applications is introduced to enhance database construction and functionality.

**BCA 59  Computer Literacy**  1 unit

12 lecture hours, 18 lab hours  
Limitations on enrollment:  
Not open for credit to students with credit in BCA 41  
WCC Graduation Requirements: Area E

This course is designed for those with very little computer experience. Learners practice file management, email, instant messaging, Internet browsing and searching. This course includes a brief introduction to industry standard Microsoft Office (word processing, spreadsheet, and presentation) application programs and the Windows operating system. Use of proper computer terminology and identification of fundamental hardware and software applications is reinforced.

**BCA 60  Computer Keyboarding**  3 units

36 lecture hours, 54 lab hours  
Acquire basic beginning level of keyboarding and document formatting skills.
### BCA 64  Microsoft Word II  
1 unit

**12 lecture hours, 18 lab hours**  

**Requisites:**  
Satisfactory completion of BCA15

**Limitations on enrollment:**  
Not open for credit to students with credit in BCA22 or BCA22A

This course is designed to follow the successful completion of BCA 15 and will provide the student with an intermediate level of understanding of word processing with Microsoft Word, including complex document creation, mail merge, columns, formatting, plus integration with other applications, and collaborating on documents using Microsoft Word. Themes, templates, and styles are also covered.

### BCA 65  Microsoft Word III  
1 unit

**12 lecture hours, 18 lab hours**  

**Requisites:**  
Satisfactory completion of BCA15 or BCA22 or BCA62; satisfactory completion or concurrent enrollment in BCA64

This course is designed to provide the student with an advanced level of understanding of word processing with Microsoft Word, including the creation of templates, macros, advanced table formatting, and use of long documents and subdocuments. Customizing and automating work and online forms are also covered.

### BCA 66  Microsoft Outlook  
1 unit

**12 lecture hours, 18 lab hours**  

**Advisories:**  
Computer Literacy—Recommended basic computer skills

**Limitations on enrollment:**  
Not open for credit to students with credit in BCA 23

This course introduces personal management software and use of Microsoft Outlook functions. Topics include management of e-mail, organization of contacts, creation and scheduling of events using the calendar, and creating and managing tasks for personal and business use. Customization of Outlook features is also covered.

### BCA 67  Adobe Acrobat  
1 unit

**12 lecture hours, 18 lab hours**  

**Requisites:**  
Satisfactory completion of BCA59

This course is designed to provide the learner with a basic understanding of Adobe Acrobat. Topics include creating portable document files (PDF), working with PDF files, annotation and editing of files plus interactive forms. Distribution and management of PDFs is also covered.

### BCA 68  Records and Information Management  
1 unit

**12 lecture hours, 18 lab hours**  

**Advisories:**  
Computer Literacy—Recommended basic computer skills

The Records and Information Management course is designed to provide instruction in the systematic control of records and information from creation or receipt through processing, distribution, organization, storage, retrieval, and ultimately, through disposition. Learners will practice indexing, coding, and managing business information and records and will review regulatory compliance requirements. American National Standards Institute (ANSI) and International Organization for Standardization (ISO) standards are covered. Students are introduced to using computer databases to apply records management principles.

### BCA 70  Microsoft PowerPoint II  
1 unit

**12 lecture hours, 18 lab hours**  

**Requisites:**  
Satisfactory completion of BCA15

**Limitations on enrollment:**  
Not open for credit to students with credit in BCA 26

This course is designed to follow the successful completion of BCA 15, and builds on a fundamental skill set to feature the use of PowerPoint as a tool for designing, producing, and controlling visual elements to build and deliver effective presentations. Creating templates, publishing, customizing, and protecting presentations as well as inserting audio, video, and animations and integrating with other programs is included. This course focuses on design and effective delivery methods which are explored through project presentations.

Counseling: (530) 661-5703

DEGREES OFFERED
» Chemistry (A.S.-T)

CHEMISTRY (A.S.-T)
AS-T: Associate in Science for Transfer

Chemistry is the science that studies the composition and properties of substances and the changes they undergo. The Associate in Science in Chemistry for Transfer (AS-T in Chemistry) is designed to allow students to complete the first and second year requirements to transfer to the California State University campus in Chemistry or a related major. Students with a degree in chemistry may pursue careers in a variety of fields such as pharmacy, medicine, engineering, teaching, biotechnology, patent law, and forensic science. While at least a baccalaureate degree is recommended preparation for those considering professional careers, completion of this curriculum will demonstrate commitment to the field and provide comprehensive preparation for further academic study through upper-division coursework.

The Associate in Science in Chemistry for Transfer (AS-T) may be obtained by the completion of 60 transferable, semester units with a minimum 2.0 GPA, including (a) the major or area of emphasis described in the Required Program outlined below (earning a C or better in these courses) and (b) either the Intersegmental General Education Transfer Curriculum (IGETC) for STEM majors, or the California State University General Education Breadth Requirements.

Students are advised to follow the IGETC for STEM pattern to complete the degree in 60 units. Please consult with a counselor for further information.

For chemistry majors with the goal of applying to CSU as well as UC, there’s a lot of overlap in coursework; students applying to UC will be expected to complete multivariable calculus and differential equations.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:
✓ Use mathematical calculations in chemistry problem solving.
✓ Think and reason scientifically to solve real life problems.

Required Courses for Major

Required Core 35 units
CHEM1A—General Chemistry I .............................................. 5
CHEM1B—General Chemistry II ............................................. 5

PHYS4B—Electromagnetism .................................................... 4

Total Credits 35 units

CHEMISTRY COURSES

CHEM 1A General Chemistry I 5 units

54 lecture hours, 108 lab hours

Requisites:
Satisfactory completion of MATH52 or equivalent course

Transferable to both UC and CSU
C-ID: CHEM 110/120S
CSU GE-Breadth: B1, B3
IGETC: 5A, 5C
UC-TCA: UC-S

Fundamental principles of inorganic chemistry; nomenclature of inorganic compounds, chemical formulas, equations and reactions; stoichiometry; structure of atoms, ions, and molecules and periodic table; oxidation-reduction and acid-base reactions; gas laws; thermochemistry and equilibrium. Students who have not successfully completed high school chemistry are strongly recommended to take CHEM 2A prior to CHEM 1A.
### CHEM 1B  General Chemistry II  5 units

- **54 lecture hours, 108 lab hours**
- **Requisites:** Satisfactory completion of CHEM1A
- **Transferable to both UC and CSU**
  - **C-ID:** CHEM 120S
  - **CSU GE-Breadth:** B1, B3
  - **IGETC:** 5A, 5C
  - **UC-TCA:** UC-S

Continuation of the development of fundamental principles of chemistry and application of principles developed in CHEM 1A. Principles of inorganic chemistry, including intermolecular forces, solutions, colligative properties, kinetics; further aspects of equilibrium including acid-base and solubility equilibrium, thermodynamics, electrochemistry, descriptive chemistry, and qualitative analysis; coordination chemistry. Nuclear chemistry may be presented as time permits.

### CHEM 2A  Introductory Chemistry  5 units

- **72 lecture hours, 54 lab hours**
- **Requisites:** Satisfactory completion of MATH101 or MATH50 or equivalent course
- **Advisories:** Computer Literacy—Recommended basic computer skills
- **WCC Graduation Requirements: Area A**
- **Transferable to both UC and CSU**
  - **C-ID:** CHEM 101
  - **CSU GE-Breadth:** B1, B3
  - **IGETC:** 5A, 5C
  - **UC-TCA:** UC-S

Introduction to fundamental principles of inorganic chemistry; structure and bonding, nomenclature, chemical equations and reactions, stoichiometry, acids, bases, and chemical equilibrium, redox, gases, solutions, and nuclear chemistry.

### CHEM 2B  Introductory Chemistry  4 units

- **54 lecture hours, 54 lab hours**
- **Requisites:** Satisfactory completion of CHEM2A or CHEM1A
- **Advisories:** Language—Recommended eligibility for ENGL1A
  - Mathematics—Recommended eligibility for MATH52
- **Transferable to both UC and CSU**
  - **CSU GE-Breadth:** B1, B3
  - **IGETC:** 5A, 5C
  - **UC-TCA:** UC-S

Introduction to fundamental concepts of organic and biochemistry. Topics of instruction include (1) structure, nomenclature, and reactions of some organic compounds and drugs, (2) stereochemistry, (3) structure and metabolism of carbohydrates, lipids, proteins, enzyme activity and inhibition, nucleic acids and DNA, and (4) bioenergetics. Completion of this course along with CHEM 2A is designed to satisfy the requirements of those allied-health career programs which require two semesters of chemistry.

### CHEM 10  Concepts of Chemistry  3 units

- **54 lecture hours**
- **Advisories:** Language—Recommended eligibility for ENGL1A
  - Mathematics—Recommended eligibility for MATH52
- **WCC Graduation Requirements: Area A**
- **Transferable to both UC and CSU**
  - **CSU GE-Breadth:** B1
  - **IGETC:** 5A
  - **UC-TCA:** UC-S

A survey of basic concepts and practices of chemistry. Designed for non-science majors desiring an introduction to fundamental chemistry concepts and skills. Not intended for students who will enroll in subsequent chemistry coursework.
### CHEM 14  Survey of Chemistry and Physics  4 units

**54 lecture hours, 54 lab hours**

**Requisites:**
- Satisfactory completion of MATH101

**Limitations on enrollment:**
- Not open for credit to students with credit in PHYSC 10B or 10C

**WCC Graduation Requirements:** Area A

**Transferable to CSU only**
- **C-ID:** CHEM 140
- **CSU GE-Breadth:** B1

An investigation of basic principles of physics and chemistry including matter, physical and chemical properties, energy, motion, light, atomic structure, bonding, solutions and chemical reactions. The inter-dependence of chemistry and physics will be emphasized. This course is intended for non-science majors. Students who take an online section will be required to purchase lab kits for home use.

### CHEM 18B  Organic Chemistry for Health and Life Science  4 units

**54 lecture hours, 54 lab hours**

**Requisites:**
- Satisfactory completion of CHEM18A

**Transferable to both UC and CSU**
- **CSU GE-Breadth:** B1, B3
- **IGETC:** 5A, 5C
- **UC-TCA:** UC-S

A continuation of CHEM 18A. Designed for students planning professional school studies in health and life sciences. Emphasis on the preparation, reactions and identification of organometallic compounds, aldehydes, ketones, carboxylic acids, and their derivatives, alkyl and acyl amines, B-dicarbonyl compounds, and various classes of naturally occurring biologically important compounds.

### CHEM 18A  Organic Chemistry for Health and Life Science  4 units

**54 lecture hours, 54 lab hours**

**Requisites:**
- Satisfactory completion of CHEM1B

**Transferable to both UC and CSU**
- **CSU GE-Breadth:** B1, B3
- **IGETC:** 5A, 5C
- **UC-TCA:** UC-S

Designed for students planning professional school studies in health and life sciences. A rigorous, in-depth presentation of basic principles with emphasis on stereochemistry and spectroscopy and preparations and reactions of aromatic and nonaromatic hydrocarbons, haloalkanes, alcohols, and ethers. Reactions include Sn1, Sn2, E1, and E2.

### CHEM 28A  Organic Chemistry for Chemists, Engineers and Pre-Health Majors I  5 units

**54 lecture hours, 108 lab hours**

**Requisites:**
- Satisfactory completion of CHEM1B

**Transferable to CSU only**
- **CSU GE-Breadth:** B1, B3
- **IGETC:** 5A, 5C
- **UC-TCA:** UC-S

Introduction to the basic concepts of organic chemistry with emphasis on stereochemistry, chemistry of hydrocarbons, aromatic and aliphatic substitution reactions, and elimination reactions. Designed primarily for majors in chemistry, engineering and premedical and health careers.

### CHEM 28B  Organic Chemistry for Chemists, Engineers and Pre-Health Majors II  5 units

**54 lecture hours, 108 lab hours**

**Requisites:**
- Satisfactory completion of CHEM28A

**Transferable to CSU only**

This course is the second semester in the 28 series of organic chemistry. This course is designed primarily for chemistry, engineering, premedical, pharmacy and other majors who require a more intensive organic chemistry course. Emphasis on carbonyl compounds and their derivatives and biological compounds of interest. Spectrometry is featured.
COMMUNICATION STUDIES (A.A.-T)
AA-T: Associate in Arts for Transfer

The WCC Communication Studies program is designed to nurture an understanding and examination of the crucial role of communication in human relationships, cultures, society, and civic affairs, as well as, developing students' personal and professional communication skills.

The Communication Studies program at WCC offers curriculum that provide students with a foundation in communication theory and practice. Courses offered in this program fulfill general education and transfer requirements that prepare students for further study that may lead to Bachelor in Arts, Master in Arts, and/or other advanced degrees.

The Associate in Arts in Communication Studies degree for Transfer (AA-T) is designed specifically for students planning to transfer to the CSU system.

The Associate Degree for Transfer student completion requirements are:

- Completion of 60 semester units that are eligible for transfer to the California State University, including the following:
- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education—Breadth Requirements.
- A minimum of 18 semester units in a major or area of emphasis, as determined by the community college district.
- Minimum grade point average of 2.0.
- Students must earn a C or better in all courses required for the major of emphasis. A “P” (Pass) grade is not an acceptable grade for courses in the major.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:

- The student upon completion of this program will be able to demonstrate and apply critical thinking skills in a variety of communication studies context.
- The student upon completion of this program will be able to demonstrate the communication skills necessary to engage in personal, professional, civic, and social relationship.

Required Courses for Major

Required Core Courses 12 units
SPECH1—Public Speaking ........................................... 3
SPECH6—Small Group Communication ......................... 3
SPECH7—Interpersonal Communication ......................... 3
SPECH13—Introduction to Communication Studies .......... 3

Group B—Choose one 3 units
SPECH3—Argumentation and Critical Thinking ............. 3
SPECH8—Intercultural Communication ......................... 3
SPECH14—Persuasion ............................................. 3

Group C—Choose One, or any List B course not used above 3 units
ENGL1B—Critical Thinking & Writing About Literature .... 3
ENGL1C—Critical Thinking/Advanced Composition .......... 3
PSYCH1A—General Psychology .................................. 3
SOCIL1—Introduction To Sociology ............................. 3
SPECH2—Oral Interpretation of Literature ...................... 3

Total Credits 18 units

SPEECH COURSES

SPECH 1 Public Speaking 3 units

54 lecture hours

WCC Graduation Requirements: Area D2
Transferable to both UC and CSU
C-ID: COMM 110
CSU GE-Breadth: A1
IGETC: 1C

Principles of effective oral communication applied to several public speaking assignments which emphasize the development of support and organization of ideas, audience analysis, public speaking anxiety, and effective delivery styles.

54 lecture hours

**Advisories:**
- **Language**—Recommended eligibility for ENGL1A

**WCC Graduation Requirements:** Area C

**Transferable to both UC and CSU**
- C-ID: COMM 170
- CSU GE-Breadth: C1, C2

Introduction to the analysis and interpretation of literature for oral reading. The course encourages a deeper, richer experience of prose, poetry, and drama and enables the student to share the love of literature in the oral tradition.

### SPECH 3  Argumentation and Critical Thinking  3 units

54 lecture hours

**Advisories:**
- **Language**—Recommended eligibility for ENGL1A

**WCC Graduation Requirements:** Area D2

**Transferable to both UC and CSU**
- C-ID: COMM 120
- CSU GE-Breadth: A1, A3
- IGETC: 1C

General approach to rational decision making and argumentative analysis including structuring written and oral arguments and rebuttals, gathering relevant evidence for arguments, and identifying logical fallacies.

### SPECH 6  Small Group Communication  3 units

54 lecture hours

**Advisories:**
- **Language**—Recommended eligibility for ENGL1A

**WCC Graduation Requirements:** Area B, Area D2

**Transferable to both UC and CSU**
- C-ID: COMM 140
- CSU GE-Breadth: A1
- IGETC: 1C

Study of communication theory in small group situations. Emphasis will be placed on researching, organizing, and delivering oral presentations. Investigation of the role of communication in various group processes, problem solving, leadership, team building, effective decision making, and conflict.

### SPECH 7  Interpersonal Communication  3 units

54 lecture hours

**Advisories:**
- **Language**—Recommended eligibility for ENGL1A

**WCC Graduation Requirements:** Area B, Area D2

**Transferable to both UC and CSU**
- C-ID: COMM 130
- CSU GE-Breadth: A1
- IGETC: 1C
- UC-TCA: UC-B

Study of communication skills associated with establishing and maintaining satisfying interpersonal relationships. Various approaches to effective communication in multiple interpersonal contexts will be discussed. Factors influencing interpersonal communication are analyzed, such as: language, perception, non-verbal and communication climate.

### SPECH 8  Intercultural Communication  3 units

54 lecture hours

**Advisories:**
- **Language**—Recommended eligibility for ENGL1A

**WCC Graduation Requirements:** Area B, Area D2, Multicultural Graduation Requirement

**Transferable to both UC and CSU**
- C-ID: COMM 150
- CSU GE-Breadth: D7
- IGETC: 4G
- UC-TCA: UC-B

The study of intercultural communication theory relates to perception, context, language, verbal, nonverbal messages, and adaptation. Emphasis will be placed on developing effective intercultural communication skills. Students will demonstrate effective intercultural communications skills by oral presentations, group/interpersonal interactions.

</tbody>
</table>

Processes and theories of gender and communication; emergence of sexual identity and orientation in society; the power of language and stereotypes in private discourse and public dialogue; the impact of historical, social, ethical, cultural, and psychological factors on gendered communication in public and private contexts. Discussions focus on such topics as self-perceptions and images of men, women, and sexuality; language use and gendered differences in information processing; non-verbal communication; and self-disclosures, and self-assertion.
## COOPERATIVE WORK EXPERIENCE EDUCATION COURSES

### CWEE 44 General Work Experience 1–3 units

- **60–225 lab hours**
- **Requisites:**
  - Must have a paid or volunteer position
- **Limitations on enrollment:**
  - Students enrolled in CWEE 44 are not eligible for other Cooperative Work Experience/Internship classes during the same semester.

**Transferable to CSU only**

Coordination of on-the-job learning with college experience to develop desirable work habits, attitudes and career awareness through supervised “paid” or “volunteer” employment. For paid employment, students must complete 75 hours for each enrolled unit; for volunteer employment, students must complete 60 hours for each enrolled unit. General work experience students may earn a maximum of 3 units each semester for a total of 6 semester units during the students’ enrollment. A maximum of sixteen (16) semester units may be earned in CWEE 44 and CWEE 45 within Yuba Community College District. Students enrolled in CWEE 44 are not eligible for other Cooperative Work Experience/Internship classes during the same semester.

### CWEE 45 Occupational Work Experience 1–4 units

- **60–300 lab hours**
- **Requisites:**
  - Must have a paid or volunteer position
- **Limitations on enrollment:**
  - Students enrolled in CWEE 45 are not eligible for other Cooperative Work Experience/Internship classes during the same semester.

**Transferable to CSU only**

Coordination of on-the-job learning with college experience to develop desirable work habits, attitudes and career awareness related to the students’ educational or occupational goals. For paid employment, students must complete 75 hours for each enrolled unit; for volunteer employment, students must complete 60 hours for each enrolled unit. Occupational work experience students may earn a maximum of 4 units each semester for a total of 16 semester units of combined CWEE 44 and CWEE 45 during the students’ enrollment in Yuba Community College District. Students enrolled in CWEE 45 are not eligible for other Cooperative Work Experience/Internship classes during the same semester.
COUNSELING COURSES

COUNS 10  College Success  3 units

54 lecture hours
Advisories:
Language—Recommended eligibility for ENGL1A

WCC Graduation Requirements: Area E
Transferable to both UC and CSU
CSU GE-Breadth: E

Study skills and knowledge necessary for college success including time management, memory techniques, note taking, reading skills, test taking skills, critical thinking, writing, learning styles, diversity, communication skills, career planning, assessment, use of technology and other resources.

COUNS 25  Career Planning and Development  3 units

54 lecture hours

WCC Graduation Requirements: Area E
Transferable to CSU only
CSU GE-Breadth: E

Survey of techniques of career exploration and planning selection. In the context of a study of the changes that occur during a typical life span, each student will construct a personal profile of current and projected interests, aptitudes, skills, values, personality, life and personal circumstances. Students will create a comprehensive career plan/portfolio using career research and decision making strategies.

COUNS 30  Transfer Preparation  2 units

36 lecture hours
Advisories:
Language—Recommended eligibility for ENGL1A
Transferable to CSU only

Preparation for a successful transfer experience to a university; emphasis on understanding the public and private university systems in California.

CULINARY ARTS (A.A.)
AA: Associate in Arts

The Lake County Campus of Woodland Community College offers a Certificate of Achievement in Baking, Culinary Arts, and Associate of Arts in Culinary Arts. These certificates and degree are intended to provide students with the skills and abilities necessary to obtain employment in the growing bakery, restaurant and hospitality industry. Students that earn the certificate and/or have the ability to secure employment from restaurants, hotels, casinos, bakeries and other foodservice establishments. The students will learn: food safety and handling, recipe conversions, equipment selections, French techniques for pastry and dessert components and a variety of modern cooking methods and techniques. The Culinary Arts Associate of Arts prepares students with the skills to be the future Sous/Executive Chefs, Restaurant Managers and Food service Business Owners in the rapidly growing foodservice industry. This degree gives students the complete culinary skill set to be successful and the industry advantage of an accredited culinary degree.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:
✓ Student will understand and utilize the appropriate cooking methods and techniques according to industry standards.
✓ Students can create two seasonal sustainable 5 course menus using seafood from the Monterey Bay Aquarium’s seafood watch program, local seasonal produce and proteins.
✓ Students can successfully cost a aromas menu item and find its accurate selling cost.
✓ Students can successfully obtain employment in the restaurant and hospitality field.
✓ Students will demonstrate professionalism in appearance, teamwork and promptness.
✓ Student will understand and demonstrate the ability to clean, organize and sanitize according to industry standards in food handling, and restaurant service.
✓ Student can accurately cost a aromas recipe
✓ Students can use micros point of sale system to input on order at Aromas cafe.

- Students can use micros point of sale system to input on order at aromas cafe.
- Student can accurately cost a aromas recipe.
**CUL 76** Introduction to Culinary Operations 8 units

54 lecture hours, 270 lab hours

Basic modern restaurant cooking techniques such as sauce making, meat cutting, seafood fabrication, lunch and dinner entree preparation. Use and operation of food service machines and equipment. Intro to culinary will also cover set up and operations of the campus restaurant, including planning, preparing, cooking, and serving food in the student operated restaurant.

**CUL 77** Advanced Culinary Operations 7 units

36 lecture hours, 270 lab hours

Requisites:
Satisfactory completion of CUL76

Advanced modern restaurant cooking methods, such as Grade Manager, French stock and sauce making, advanced principles of meat cookery, advanced meat & seafood fabrication and identification, and advanced vegetable and starch identification and cookery. Setup and management of the campus restaurant, including scheduling, marketing, inventory menu planning and costing.

**CUL 78** Introduction to Catering and Event Hospitality 2 units

18 lecture hours, 54 lab hours

Introduction to event set up, service, preparation and breakdown. Principles of special event hospitality as it applies to event organization and logistics.

**CUL 79** Advanced Foods and Catering 2 units

18 lecture hours, 54 lab hours

Requisites:
Satisfactory completion of CUL78

Plan, prepare and serve several large and small catered events during the semester.

**CUL 80** Food Service Operations and Management 2 units

36 lecture hours

Nature and importance of food service management, including planning, organizing, controlling, and developing a realistic and dynamic personnel program.
EARLY CHILDHOOD EDUCATION

CERTIFICATES OFFERED
» Child Development Teacher (Certificate)
» Child Development Associate Teacher (Certificate)
» Child Development Master Teacher (Certificate)

EARLY CHILDHOOD EDUCATION (A.S.-T)
AS-T: Associate in Science for Transfer
The Associate in Science in Early Childhood Education for Transfer is intended for students who plan to complete a bachelor's degree in early childhood education or a related major at a CSU campus. Students completing this degree are guaranteed admission to the CSU system with junior status, but not to a particular campus or major. Students transferring to a CSU campus that does accept this degree will be required to complete no more than 60 units after transfer to earn a bachelor's degree.

The Associate in Science in Early Childhood Education for Transfer degree requirements (as stated in SB1440 law) requires students to complete the following:
• a minimum of 18 semester in the major or area of emphasis as determined by the community college district.
• 60 semester CSU transferable units
• California State University General Education-Breadth (CSU GE-Breadth) pattern of 39 units; OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern of 37 units.
• Obtainment of a minimum grade point average (GPA) of 2.0.
• Earn a grade of “C” or better in all courses required for the major or area of emphasis.

Students should consult with a counselor for more information on university admission and transfer requirements.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:
 ✓ Develop and refine both non-verbal and verbal communication skills to enhance professionalism when working with children, families, and co-workers in the child care field.
 ✓ Evaluate and analyze the use of different developmental theories and instructional strategies that encourage development of critical thinking, problem solving, and performance skills when working with children and families.

EARLY CHILDHOOD EDUCATION (A.S.)
AS: Associate in Science
This degree prepares students for a variety of careers in Early Childhood Care and Education. The degree includes General Education courses, which are required for most California Child Development Permits, and can lead to higher wages and more opportunities for career advancement. Positions are available nationwide in preschools, child care facilities, private homes, recreation programs, child development centers on K-12 school sites, and human service agencies.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:
 ✓ Evaluate and analyze the use of different developmental theories and instructional strategies that encourage development of critical thinking, problem solving, and performance skills when working with children and families.
 ✓ Develop and refine both non-verbal and verbal communication skills to enhance professionalism when working with children, families, and co-workers in the child care field.
 ✓ Students will learn and practice professional ethics, personal and social responsibility, and effective team membership in their work as child care professionals.

CSU GE-Breadth: D7, E  
IGETC: 4G  
UC-TCA: UC-B

This course examines the major physical, psychosocial, and cognitive/language developmental milestones for children, both typical and atypical, from conception through adolescence. There will be an emphasis on interactions between maturational processes and environmental factors. While studying developmental theory and investigative research methodologies, students will observe children, evaluate individual differences and analyze characteristics of development at various stages. Designed as a foundation course for careers in ECE, Education, Human Services, Health and related fields.

**ECE 4**  Positive Social Development in Young Child  
3 units

| 54 lecture hours |

**Limitations on enrollment:**  
Not open for credit to students with credit in ECE 1C

**Transferable to CSU only**

Designed to help teachers and caregivers of young children to establish relationships with children and apply principles of behavior management. Basic principles include helping young children develop positive self-esteem, enter into group play, form friendships and learn pro-social behavior.
**ECE 7** Creative Materials 3 units

45 lecture hours, 27 lab hours

Limitations on enrollment:
Not open for credit to students with credit in ECE 7A

Transferable to CSU only

Creative activities for young children (2-8 years old) including the planning and implementation of painting, drawing, printmaking, weaving, stitchery, collage, sculpture, puppet-making, and modeling materials.

**ECE 8** Worldwide Arts for Children 3 units

45 lecture hours, 27 lab hours

Limitations on enrollment:
Not open for credit to students with credit in ECE 7B

Transferable to CSU only

Culturally sensitive and diverse art activities for young children including planning and integrating projects across the curriculum. Construction of age-appropriate art objects representative of cultures and regions in West Africa, the Middle East, Europe, Asia, Mexico, Central America, South America, Caribbean Islands, the United States and Canada.

**ECE 10** Health, Safety, and Nutrition 3 units

54 lecture hours

Transferable to CSU only

C-ID: ECE 220

Introduction to the laws, regulations, standards, policies, procedures, and best practices related to child health, safety, and nutrition in early childhood settings. This includes prevention strategies, nutrition, and meal planning for various ages and planning educational experiences integrated into daily routines designed to teach children positive health, safety, and nutrition.

**ECE 11** Observation and Assessment 3 units

54 lecture hours

Advisories:
Language—Recommended eligibility for ENGL1A

Transferable to CSU only

This course focuses on the appropriate use of assessment and observation strategies to document development, growth, play, and learning to join with families and professionals in promoting children’s success. Recording strategies, rating systems, portfolios, and multiple assessment tools are explored. Child observations will be conducted and analyzed.

**ECE 14** The School Age Child 3 units

54 lecture hours

Advisories:
Language—Recommended eligibility for ENGL1A

Transferable to CSU only

Developmental characteristics and needs of the 5-12 year old child at home or in a group care setting; includes developmental stages, program environment, developmentally appropriate curriculum, activities and materials, meeting the needs of families, classroom management, communication techniques, administrative requirements, skills, and characteristics of caregivers.

**ECE 17** Introduction to Children with Special Needs 3 units

54 lecture hours

Advisories:
Language—Recommended eligibility for ENGL1A

Transferable to CSU only

Introduces the variations in development of children with special needs ages birth through eight and the resulting impact on families. Includes an overview of historical and societal influences, laws relating to children with special needs, and the identification and referral process.
### ECE 18  Curriculum and Strategies for Children with Special Needs  
3 units

**54 lecture hours**

**Advisories:**
- **Language:** Recommended eligibility for ENGL1A

**WCC Graduation Requirements:** Area B

**Transferable to CSU only**

Covers curriculum and intervention strategies for working with children with special needs in partnership with their families. Focuses on the use of observation and assessment in meeting the individualized needs of children in inclusive and natural environments. Includes the role of the teacher as a professional working with families, collaboration with interdisciplinary teams, and cultural competence.

### ECE 25  Group Experiences in Outdoor Environment  
3 units

**54 lecture hours**

**Transferable to CSU only**

Developing creative outdoor learning environments including playgrounds, activities, and cooperative games. Developmentally appropriate activities, circle times, and daily planned group experiences will also be explored and developed.

### ECE 27  Teaching in a Diverse Society  
3 units

**54 lecture hours**

**Advisories:**
- **Language:** Recommended eligibility for ENGL1A

**WCC Graduation Requirements:** Multicultural Graduation Requirement

**Transferable to CSU only**

C-ID: ECE 230

Examination of the development of social identities in diverse societies including theoretical and practical implications of oppression and privilege as they apply to young children, families, programs, classrooms and teaching. Various classroom strategies will be explored emphasizing culturally and linguistically appropriate anti-bias approaches supporting all children in becoming competent members of a diverse society. Course includes self-examination and reflection on issues related to social identity, stereotypes and bias, social and educational access, media and schooling.

### ECE 31  Child, Family, Community  
3 units

**54 lecture hours**

**WCC Graduation Requirements:** Area B

**Transferable to both UC and CSU**

C-ID: CDEV 110

CSU GE-Breadth: D7

IGETC: 4G

UC-TCA: UC-B

An examination of the developing child in a societal context focusing on the interrelationship of family, school and community and emphasizes historical and socio-cultural factors. The processes of socialization and identity development will be highlighted, showing the importance of respectful, reciprocal relationships that support and empower families.

### ECE 37  Adult Supervision  
2 units

**36 lecture hours**

**Advisories:**
- **Language:** Recommended eligibility for ENGL1A

**Transferable to CSU only**

Methods and principles of supervising student teachers in the ECE classrooms. Emphasis is on the role of experienced classroom teachers who function as mentors to new teachers while simultaneously addressing the needs of children, parents, and other staff. Satisfies adult supervision requirement for the State Department of Social Services.

### ECE 39  Children's Literature  
3 units

**54 lecture hours**

**WCC Graduation Requirements:** Area C

**Transferable to CSU only**

C-ID: ECE 230

An introduction to children's literature: history, elements, and types of books of interest to children from birth through eight years old. Students will read, share, and plan activities around classical, cultural, and award-winning books. Methods of selecting and evaluating books will be applied.
ECE 42  Infant/Toddler Development  3 units

54 lecture hours

Advisories:

Language—Recommended eligibility for ENGL1A

WCC Graduation Requirements: Area B

Transferable to CSU only

A study of infants and toddlers from pre-conception to age three including physical, cognitive, language, social, and emotional growth and development. Applies theoretical frameworks to interpret behavior and interactions between heredity and environment. Emphasizes the role of family and relationships in development.

ECE 43  Care and Education for Infants and Toddlers  3 units

54 lecture hours

Advisories:

Language—Recommended eligibility for ENGL1A

Transferable to CSU only

Study of current theory and research to the care and education of infants and toddlers in group settings. Emphasis will be placed on the essential policies, principles and practices that lead to quality care and developmentally appropriate curriculum for children birth to 36 months.

ECE 45  Practicum in Early Childhood Education  3 units

18 lecture hours, 108 lab hours

Requisites:

Satisfactory completion of ECE1A, ECE1B, ECE3, and ECE31

Limitations on enrollment:

Not open for credit to students with credit in ECE 46, 46A, 46B, or 46C

Transferable to CSU only

C-ID: ECE 210

A demonstration of developmentally appropriate early childhood teaching competencies under guided supervision. Students will utilize practical classroom experiences to make connections between theory and practice, develop professional behaviors, and build a comprehensive understanding of children and families. Child centered, play-oriented approaches to teaching, learning, and assessment; and knowledge of curriculum content areas will be emphasized. Students are required to complete 108 hours in addition to weekly lecture at a qualified licensed preschool, school-age, infant-toddler or special needs program.

ECOL 10L  Environment Lab  1 unit

54 lab hours

Requisites:

Concurrent enrollment in or satisfactory completion of ECOL10

Advisories:

Language—Recommended eligibility for ENGL1A

WCC Graduation Requirements: Area A

Transferable to CSU only

Laboratory and field studies demonstrating the systematic study of both the biological and physical components of ecosystems, especially as seen in local organisms and ecosystems.

ECOL 10  Environment–Concepts and Issues  3 units

54 lecture hours

WCC Graduation Requirements: Area A

Transferable to both UC and CSU

CSU GE-Breadth: B1, B2

IGETC: 5B

UC-TCA: UC-S

Ecology studies the interaction and interdependence among living organisms in their environment. The course presents fundamental scientific principles in examining how natural ecosystems function, focusing on physical, chemical, and biological processes within the Earth system, and how human actions affect natural ecosystems. Emphasis is placed on the role of science in determining causes and in contributing solutions to local and global environmental problems. Topics include ecological principles, biodiversity, climate change, sustainability, renewable and non-renewable energy, water resources, air and water pollution, and solid waste management.

DEGREES OFFERED
» Economics (A.A.-T)

ECONOMICS (A.A.-T)
AA-T: Associate in Arts for Transfer
Economics is the study of how the individual or society allocates scarce resources to satisfy unlimited wants. The Associate in Arts in Economics for Transfer is designed to prepare students for a seamless transfer into the CSU system to complete a baccalaureate degree in Economics or similar major.
For economics majors with the goal of applying to CSU as well as UC, there’s a lot of overlap in coursework; students who are applying to UC should opt to take both MATH 1A and 1B.
Students completing a bachelor’s or more advanced degree in Economics may find employment as market researchers, educators, budget analysts, statisticians, economists, or government or banking employees.
The following is required for all AA-T or AS-T degrees:
• Minimum of 60 CSU-transferable semester units.
• Minimum grade point average (GPA) of at least 2.0 in all CSU transferable coursework. While a minimum of 2.0 is required for admission, some majors may require a higher GPA. Please consult with a counselor for more information.
• Completion of a minimum of 18 semester units in an “AA-T” or AS-T” major as detailed in the transfer section of the catalog.
All courses in the major must be completed with a grade of C or better or a “P” if the course is taken on a pass/no pass basis.
• Certified completion of the California State University General Education-Breadth pattern (CSU GE Breadth); OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:
✓ Explain terms and concepts used in macroeconomics and microeconomics.
✓ Apply critical thinking skills to evaluate the credibility of economic theories, concepts, and research.
✓ Solve problems requiring the application of economics, statistics, and mathematics.

Required Courses for Major

Required Core 14–15 units
ECON1A—Elementary Economics–Macro 3 units
ECON1B—Elementary Economics–Micro 3 units
STAT1—Introduction To Statistical Methods 4 units
MATH9—Calculus for Business, Social and Life Sciences 4 units
MATH1A—Single Variable Calculus I—Early Transcendentals 5 units

List A (select one course) 3–5 units
ACCT1—Principles of Accounting–Financial 4 units
ACCT1A—Principles of Accounting–Financial Lab 0.5 units
ACCT2L—Principles of Accounting–Managerial 5 units
MATH1B—Single Variable Calculus II—Early Trans 4 units
SOCIL1—Introduction To Sociology 3 units

List B (select additional course from List A or List B) 3–4 units
MATH1C—Multivariable Calculus 4 units
MATH3—Linear Algebra 3 units

Total Credits 20–24 units

ECONOMICS COURSES

ECON 1A Elementary Economics–Macro 3 units

54 lecture hours

Requisites:
Satisfactory completion of MATH101 or MATH101B or 50 or 50B or equivalent

Advisories:
Language—Recommended eligibility for ENGL1A

WCC Graduation Requirements: Area B

Transferable to both UC and CSU
C-ID: ECON 202
CSU GE-Breadth: D2
IGETC: 4B
UC-TCA: UC-B

Economic principles, problems and policies. Theories related to various economic problems and policies; i.e. Inflation, recession, taxation, poverty, agriculture, economic development, the environment. Includes possible solutions to these problems. Emphasizes macro-economics.
### ECON 1B  Elementary Economics–Micro  3 units

**54 lecture hours**

**Requisites:**
- Satisfactory completion of MATH101 or MATH101B or 50 or 50B or equivalent

**Advisories:**
- **Language**—Recommended eligibility for ENGL1A

**WCC Graduation Requirements: Area B**

**Transferable to both UC and CSU**
- **C-ID:** ECE 201
- **CSU GE-Breadth:** D2
- **IGETC:** 4B
- **UC-TCA:** UC-B

Economic principles, problems and policies. Theories include: price theory or theory of the firm, labor economics, foreign trade and comparative economic systems. Emphasizes micro-economics.
SOCIAL SCIENCE (A.A.)

AA: Associate in Arts

This degree is designed to prepare students for a Bachelor of Arts degree in Social Science and to provide subject matter preparation for the Single Subject Teaching Credential in Social Science. Career possibilities, most requiring further study, include: Middle School or High School Teacher of Civics, Economics, Geography, and History; Politics; Government and Civil Service; Lobbyist; Pre-Law Attorney; Law Enforcement; Business; Public Relations; Human Relations/Personnel Specialist; Journalist; Military Service; Community Service; Graduate School.

Student Learning Outcomes

Upon successful completion of this program, students will be able to:
✓ Demonstrate an understanding of a variety of social science concepts.

COLLEGE SUCCESS (CERTIFICATE)

Certificate of Achievement

This certificate is designed for students who want to learn more about increasing college success and are looking for a pathway to transfer to a four-year institution. The certificate requires coursework in English and math, as well as study skills, student success, and navigating the education system. Students who complete this certificate will be prepared for transfer-level coursework in English and Math, earn 10 transferable units to CSU and UC, and complete up to 12 units of general education requirements for WCC, CSU, and IGETC.

Student Learning Outcomes

Upon successful completion of this program, students will be able to:
✓ Identify and practice foundational skills for college success.
✓ Develop transfer-level competency in computation and composition.
✓ Analyze structural and cultural factors that impact student success in the education pipeline.

EDUCATION COURSES

EDUC 1  Introduction To Teaching With Field Experience
3 units

54 lecture hours

Advisories:
Language—Recommended eligibility for ENGL1A

WCC Graduation Requirements: Area E, Multicultural
Graduation Requirement

Transferable to both UC and CSU

Prospective teachers are placed in selected K-12 schools that have been recognized for exemplary practices and whose student population represents California's diversity. Course content includes a review of California Standards for the Teaching Profession, review of cognitive and learning studies, current issues in K-12 education, characteristics of successful teachers, and effective communication skills for the teaching profession.

EDUC 15  Educational Inequities in the U.S. School System
3 units

54 lecture hours

WCC Graduation Requirements: Area B, Multicultural
Graduation Requirement

Transferable to both UC and CSU

CSU GE-Breadth: D7
IGETC: 4G
UC-TCA: UC-B

This course examines the social, political, economic, and historical context of inequities in the U.S. education system, from preschool to higher education. Students will be introduced to a set of concepts and theories from which to better understand the educational experiences and realities of historically underrepresented students. The course will also challenge students to be more reflective about their educational experiences, and to apply the concepts introduced in class to an analysis of their own educational and service learning experiences.
EMERGENCY MEDICAL TECHNICIAN COURSES

EMT 61 Emergency Medical Technician 7.5 units

99 lecture hours, 108 lab hours

Requisites:
Students must be 18 years of age at the start of the EMT course. Students will be required to possess a current American Heart Association BLS Provider CPR certification. Students will be required to provide proof of two (2) negative TB skin tests (or negative chest x-ray following a positive response from the first test), provide proof of immunizations for Measles, Mumps, and Rubella (MMR), Varicella (or positive titre), Hepatitis B series or signed declination, current Diphtheria, Tetanus, Pertussis (Tdap), and current influenza vaccine. Students must have all of the required specified textbooks and must be prepared to purchase their EMT uniform and additional materials. Uniforms must be worn to all EMT class oriented activities. Students will also be required to complete a criminal background and drug screening in compliance with class mandates. This will be completed through a specified vendor.

The EMT program is a comprehensive curriculum for Emergency Medical Care workers in a pre-hospital environment. Practical skills training includes hands-on skills training and interactive simulations for medical emergencies and traumatic injuries. This course meets requirements of California Code of Regulations Title 22, the California EMS Authority and National Registry of Emergency Medical Technicians (NREMT). Upon successful completion, students are eligible to take the NREMT certifying examination and qualify for a California State EMT certification. Students are required to complete 24 additional hours of clinical experience outside of scheduled hours per Title 22. A mandatory orientation will be held prior to the start of class.

EMT 252 EMT Refresher 1 unit

16 lecture hours, 8 lab hours

Requisites:
Satisfactory completion of EMT61 and current CPR Certification for Healthcare Provider or Professional Rescuer and current certification as EMT-I

Designed to provide the student with 24 hours of Continuing Education Units including review, up-dated information, and skills assessment necessary for pre-hospital care of medical and traumatic emergencies. Satisfies National Registry and State requirements for EMT recertification.
ENGLISH

Student Learning Outcomes
Upon successful completion of this program, students will be able to:

✓ Interpret, analyze, or respond to the writing of others and incorporate the ideas of others in one's own writing.

✓ Write clearly and concisely on assigned topics consistent with and appropriate for the intended audience and purpose.

ENGLISH COURSES

ENGL 1A College Composition and Reading 4 units
72 lecture hours
Requisites:
Satisfactory completion of ENGL1

WCC Graduation Requirements: Area D1, Writing Competency Requirement

Transferable to both UC and CSU
C-ID: ENGL 100
CSU GE-Breadth: A2
IGETC: 1A
UC-TCA: UC-E

Development of analytical reading and the writing of college-level essays, including critical analysis, rhetorical forms, and collegiate research.
**ENGL 1B**  Critical Thinking & Writing About Literature  3 units

54 lecture hours  
Requisites:  
Satisfactory completion of ENGL 1A or by placement  

WCC Graduation Requirements: Area D2  

Transferable to both UC and CSU  
C-ID: ENGL 120  
CSU GE-Breadth: A3, C2  
IGETC: 1B, 3B  
UC-TCA: UC-E  

Critical thinking and writing about literature; develops critical thinking, reading, and writing skills applicable to the analysis of prose, poetry, drama, and criticism from diverse cultural sources and perspectives; emphasis on the techniques and principles of effective written argument; some research required.

**ENGL 1C**  Critical Thinking/Advanced Composition  3 units

54 lecture hours  
Requisites:  
Satisfactory completion of ENGL 1A  
Advisories:  
Language—Recommended eligibility for ENGL 1A  

WCC Graduation Requirements: Area D2  

Transferable to both UC and CSU  
C-ID: ENGL 105  
CSU GE-Breadth: A3  
IGETC: 1B  
UC-TCA: UC-E  

Principles of critical thinking, reading, and writing beyond freshman composition; focuses on the principles of, and the development of, logical and analytical reasoning, argumentative writing, and on the principles of rhetoric (invention, arrangement, style, memory, delivery, modes of discourse, audience).

**ENGL 1X**  Support for English 1A  1 unit

9 lecture hours, 27 lab hours  
Requisites:  
Concurrent enrollment in or satisfactory completion of ENGL 1A  

Transferable to CSU only  

This course provides additional support and hands-on practice in critical reading and writing instruction for ENGL 1A students. The course will focus on college reading, writing, and academic success strategies, including critical thinking, composition, and grammar conventions.

**ENGL 23**  Literature Through Film  3 units

54 lecture hours  
Requisites:  
Satisfactory completion of ENGL 51 or by placement  

WCC Graduation Requirements: Area C  

Transferable to CSU only  

A close analysis of selected themes in literature and its fundamental elements as interpreted on film. Students view and analyze film interpretations of the traditional genres of fiction, poetry and drama.

**ENGL 30A**  Introduction To American Literature, I  3 units

54 lecture hours  
Requisites:  
Satisfactory completion of ENGL 51  

WCC Graduation Requirements: Area C  

Transferable to both UC and CSU  
C-ID: ENGL 130  
CSU GE-Breadth: C2  
IGETC: 3B  
UC-TCA: UC-H  

A survey of American literature from its beginning in 1620 to 1865. The course readings and discussion cover the evolution of literary traditions, contexts, and genres during that time period. Writers include, among others, Bradstreet, Taylor, Franklin, Emerson, Thoreau, Hawthorne, Melville, Poe, Whitman and Dickinson. Special attention will be paid to major literature genres, themes, and historical backgrounds.
ENGL 30B Introduction To American Literature, II  
54 lecture hours
Requisites:
Satisfactory completion of ENGL51
WCC Graduation Requirements: Area C
Transferable to both UC and CSU
C-ID: ENGL 135
CSU GE-Breadth: C2
IGETC: 3B
UC-TCA: UC-H

A survey of American Literature from 1865 through the early Twenty-first Century. Writers covered include, among others, Clemens, Du Bois, James, Wharton, Frost, Faulkner, Hemingway, Hughes, Brooks, Wright, Roth, Rich, and Morrison.

ENGL 31 Creative Writing  
54 lecture hours
Requisites:
Satisfactory completion of ENGL51
WCC Graduation Requirements: Area C
Transferable to both UC and CSU
C-ID: ENGL 200

Emphasizes principles of writing poetry, short fiction and/or nonfiction and drama. Students write in prescribed forms and in experimental forms of their own choosing. Work done in the course may be contributed to the college literary magazine.

ENGL 36 American Ethnic Voices  
54 lecture hours
Requisites:
Satisfactory completion of ENGL51
WCC Graduation Requirements: Area C, Multicultural Graduation Requirement
Transferable to both UC and CSU
CSU GE-Breadth: C2
IGETC: 3B
UC-TCA: UC-H

Survey of selected American ethnic writers of African, European, Native American, Central/South American, Mexican-American, Asian, and Middle Eastern descent, focusing on how these writings contribute to the dialogue of American voices and how the writings both reflect and shape a definition of American culture.

ENGL 37 Women’s Voices  
54 lecture hours
Requisites:
Satisfactory completion of ENGL51
WCC Graduation Requirements: Area C
Transferable to both UC and CSU
CSU GE-Breadth: C2
IGETC: 3B
UC-TCA: UC-H

A survey of selected women’s literature from a variety different ethnic groups in the United States and/or the world touching on historical and ancient cultures as a foundation for understanding contemporary women’s literature.

ENGL 38 Classic and Contemporary Youth Literature  
54 lecture hours
Requisites:
Satisfactory completion of ENGL51
WCC Graduation Requirements: Area C, Multicultural Graduation Requirement
Transferable to both UC and CSU
CSU GE-Breadth: C2
IGETC: 3B
UC-TCA: UC-H

Social-historical context and tools for analyzing literature directed towards young readers. Emphasizes contemporary U.S. texts, classic works and the origins of youth literature (including fables, folk tales and fairy tales). Explores subgenres and literary elements common to young adult literature, including fantasy and the quest. Emphasizes literature from diverse authors and communities, and the impact of this literature on the psychological, sociological and cultural growth of young readers.

ENGL 42 Introduction To Shakespeare  
54 lecture hours
Requisites:
Satisfactory completion of ENGL51
WCC Graduation Requirements: Area C
Transferable to both UC and CSU
CSU GE-Breadth: C2
IGETC: 3B
UC-TCA: UC-H

Introduction to the major works of William Shakespeare with special attention given to the tragedies, comedies and histories.
ENGL 46A  Introduction To English Literature, I  3 units

54 lecture hours

Requisites:
Satisfactory completion of ENGL51

WCC Graduation Requirements: Area C

Transferable to both UC and CSU
C-ID: ENGL 160
CSU GE-Breadth: C2
IGETC: 3B
UC-TCA: UC-H

Survey of English Literature from its beginning to the end of the 18th Century; writers include, among others, Chaucer, Shakespeare, Donne, Milton and Poe; special attention paid to major literary genres.

ENGL 46B  Introduction To English Literature II  3 units

54 lecture hours

Requisites:
Satisfactory completion of ENGL51 or by placement; successful completion of ENGL1A recommended

WCC Graduation Requirements: Area C

Transferable to both UC and CSU
C-ID: ENGL 165
CSU GE-Breadth: C2
IGETC: 3B
UC-TCA: UC-H

Survey of English Literature from the end of the 18th Century to the present; writers include, among others, Blake, Wordsworth, Coleridge, Tennyson, Arnold, Joyce, Yeats, and Eliot; special attention paid to major literary genres.

ENGL 51  Preparatory Composition and Reading  4 units

72 lecture hours

Requisites:
Satisfactory completion of ENGL105 or ESL105 or by placement

Improving reading skills and writing pre-college level essays; includes basic writing elements, rhetorical modes, and a review of sentence structure and mechanics.
ACADEMIC PREPAREDNESS AND CAREER DEVELOPMENT (NONCREDIT CERTIFICATE)
Certificate of Competency (Noncredit)

The Certificate of Competency in Academic Preparedness and Career Development prepares advanced-level students with the English language and literacy skills needed to function independently in most vocational and academic situations. The certificate focuses on developing the requisite level of grammar, reading, writing and speaking skills needed to transition into mainstream courses or to be successful in seeking appropriate employment.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:
✓ Demonstrate ability to write clearly in a variety of genres.
✓ Write coherent expository and summary-responses essays at a level sufficient to transition to English 1A or career advancement.
✓ Demonstrate ability to produce and comprehend advanced grammatical structures at a level sufficient to transition to English 1A.
✓ Demonstrate grammar, listening, speaking, and reading skills needed to clearly communicate and understand information and ideas in personal, academic, and vocational settings.

FOUNDATIONAL ENGLISH SKILLS (NONCREDIT CERTIFICATE)
Certificate of Competency (Noncredit)

The Certificate of Competency in Foundational English Skills prepares students with little or no knowledge of English with basic English language and literacy skills needed to function in everyday situations at work, school and in the community.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:
✓ Demonstrate ability to write short compositions and paragraphs in both present and past.
✓ Form complete and accurate sentences in both present and past tenses.
✓ Demonstrate the ability to read and annotate short articles.

Required Courses for Major

INTERMEDIATE ENGLISH SKILLS (NONCREDIT CERTIFICATE)
Certificate of Competency (Noncredit)

The Certificate of Competency in Intermediate English Skills prepares students in foundational English competencies to express themselves clearly in everyday situations at work, school, and in the community. Upon completion of this program, students are ready to transition to academic courses.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:
✓ Compose paragraph and multi paragraph compositions.
✓ Demonstrate ability to compose past tense narrative compositions.
✓ Demonstrate the ability to accurately ask and answer questions about a topic in English.
✓ Form complete and accurate compound and complex sentences in both present and past tenses.

This course provides nonnative English speakers practice developing their fluency and ability in academic reading, composition, discussion, vocabulary, and grammar at the advanced level. Emphasis is placed on applying critical reading strategies to a variety of genres, analysis and synthesis of sources, writing multi-paragraph compositions and essays, revising compositions, analyzing and producing accurate grammatical structures in context, expressing and defending one’s own ideas and opinions, and engaging in academic discussion of course texts and themes. Course can be repeated as needed to allow for further development of skills at this level. Prepares students for English 1A.

This course provides nonnative English speakers practice developing their fluency and ability in academic reading, composition, discussion, vocabulary, and grammar at an intermediate level. Emphasis is placed on developing and using reading strategies, developing writing fluency, writing paragraphs and multi-paragraph compositions, revising compositions, analyzing and producing grammatical structures in context, expressing one’s own ideas and opinions, and engaging in classroom discussions about course themes. Course can be repeated as needed to allow for further development of skills at this level. Prepares students for ESOL 260, ESOL 560, or English 105.

This course provides nonnative English speakers practice developing their fluency and ability in academic reading, composition, discussion, vocabulary, and grammar at the low-advanced level. Emphasis is placed on expanding critical reading skills, writing multi-paragraph compositions and essays based on assigned readings, revising compositions, analyzing and producing grammatical structures in context, expressing and supporting one’s own ideas and opinions, and engaging in academic discussion of course texts and themes. Course can be repeated as needed to allow for further development of skills at this level. Prepares students for ESOL 70, ESOL 570, or English 51.
### ESOL 261  Content Support for ESOL 260/560  2 units

**36 lecture hours**

**Requisites:**
Concurrent enrollment in or satisfactory completion of ESOL260 or ESOL560

Targeted support for students enrolled in ESOL 260 or ESOL 560. Students will further explore themes, readings, grammar, and skills pertinent to success in ESOL 260 or ESOL 560.

### ESOL 271  Content Support for ESOL 70/570  2 units

**36 lecture hours**

**Requisites:**
Concurrent enrollment in or satisfactory completion of ESOL70 or ESOL570

Targeted instruction for students enrolled in ESOL 70 or ESOL 570. Students will further explore themes, readings, grammar, and skills pertinent to success in ESOL 70/ESOL 570.

### ESOL 510  Integrated English Language Skills 1  0 units

**80–90 lecture hours**

Basic language development for low-beginning English speakers. Concentration on all language skills: reading, writing, grammar, listening, speaking, and vocabulary. This is the first in a series of four. Prepares students for ESOL 520.

### ESOL 512  English Language Lab I  0 units

**49–54 lab hours**

**Requisites:**
Concurrent enrollment in ESOL510, 520, 530, or 540 recommended

Supplemental English language support for students in the integrated skills courses ESOL 510, 520, 530, and 540. Provides additional practice and support for grammar, reading, writing, vocabulary, listening comprehension, speaking, and pronunciation. Students receive individual and group instruction.

### ESOL 520  Integrated English Language Skills 2  0 units

**80–90 lecture hours**

**Requisites:**
Recommended completion of ESOL510

Language development for beginning English speakers. Concentration on all language skills: reading, writing, grammar, listening, speaking, and vocabulary. This is the second in a series of four. Prepares students for ESOL 530.

### ESOL 530  Integrated English Language Skills 3  0 units

**80–90 lecture hours**

**Requisites:**
Recommended completion of ESOL520 or by placement

Basic language development for low-intermediate English speakers. Concentration on all language skills: reading, writing, grammar, listening, speaking, and vocabulary. This is the third course in a series of four. Prepares students for ESOL 540.

### ESOL 540  Integrated English Language Skills 4  0 units

**80–90 lecture hours**

**Requisites:**
Recommended completion of ESOL530 or by placement

Language development for intermediate English speakers. Concentration on all language skills: reading, writing, grammar, listening, speaking, and vocabulary. This is the fourth course in a series of four. Prepares students for ESOL 550 or ESOL 250.

### ESOL 550  Accelerated Academic English for Nonnative Speakers I  0 units

**96–108 lecture hours**

**Requisites:**
Recommended ability to comprehend basic sentences, read short texts, and follow directions in English

This course provides nonnative English speakers practice developing their fluency and ability in academic reading, composition, discussion, vocabulary, and grammar to an intermediate level. Emphasis is placed on developing and using reading strategies, developing writing fluency, writing paragraphs and multi-paragraph compositions, revising compositions, analyzing and producing grammatical structures in context, expressing one's own ideas and opinions, and engaging in classroom discussions about course themes. Course can be repeated as needed to allow for further development of skills at this level. Prepares students for ESOL 260 or ESOL 560.

**ENVIRONMENTAL HORTICULTURE**

See “Environmental Horticulture Programs” on page 94
Students will be able to explain the purpose and intent of the federal Safe Drinking Water Act and the Clean Water Act.

Students will be able to determine the flow measurements, time and disinfection concentration math formulas necessary to treat and deliver safe drinking water and to treat and dispose of collected wastewater.

Students will be able to identify contaminants that may be in raw water sources, the methods needed to treat contaminated water for human consumption, and the methods of safe drinking water delivery to the public.

**DRINKING WATER AND WASTEWATER TECHNOLOGY (CERTIFICATE)**

**Certificate of Achievement**

This certificate course will cover all aspects of drinking water treatment, drinking water distribution and wastewater treatment. Topics covered will include drinking water sources, water quality/contaminants, water sampling/testing, drinking water treatment techniques, drinking water regulations, recordkeeping, safety, customer relations and local government basics. The course also covers drinking water distribution system installation and maintenance of pipes, valves, meters, fire hydrants and storage tanks. Wastewater classes will cover wastewater collection, sampling/testing, pre-treatment, advanced treatment techniques, effluent disinfection, sludge/effluent disposal, regulations, laboratory procedure and administration. These courses are designed to prepare students to take mid-level operator certification exams through the state of California to become water and wastewater operators, which is the first step for working in the water/wastewater utility industry.
**Student Learning Outcomes**

Upon successful completion of this program, students will be able to:

- ✓ Upon completion of this certificate program students will be prepared to take and pass the water treatment exam given by the California Department of Public Health.
- ✓ Upon completion of this certificate program students will be prepared to take and pass the wastewater treatment exam given by the California Water Resources Development Department.
- ✓ Upon completion of this certificate program students will be prepared to take and pass the water distribution exam given by the California Department of Public Health.

Topics covered will include drinking water sources with an emphasis on groundwater wells, pumps, water pipes, valves, hydrants, groundwater quality, chemicals used for water disinfection, state and federal regulations for distribution systems and water sampling techniques for distribution systems. This course will prepare students to take a state certification examination for water distribution systems, which is the first step in working for a public entity that delivers safe drinking water to the public. This class will also count for Continuing Education Credits (contact hours) for existing operators.

Topics covered will include advanced drinking water treatment techniques. This includes mineral removal, fluoridation, water softening, arsenic removal, membrane filtration processes, disposing of process wastes, maintenance of the treatment plant, advanced lab procedures, drinking water regulations and administration. This course will prepare students to take a state certification examination for water treatment level II, which is the first step in working for a public water system.
ENVTC 24 Wastewater Treatment Plant Operation Level I
3 units

*54 lecture hours*

*Transferable to CSU only*

Course content includes wastewater treatment and disposal methods. Topics covered will include wastewater treatment facilities, pretreatment and primary treatment, wastewater treatment methods, disinfection and final effluent disposal. This course will help prepare students to take a state certification examination for wastewater treatment operators, which is the first step in working for a public wastewater system that treats and disposes of wastewater in compliance with state and federal laws.

ENVTC 25 Wastewater Treatment Plant Operation Level II
3 units

*54 lecture hours*

*Transferable to CSU only*

Covers advanced wastewater treatment techniques, including effluent disposal methods, activated sludge treatment, sludge digestion and disposal, effluent discharge, plant safety, plant maintenance, laboratory procedures, and treatment plant administration. Helps prepare students to take a state certification examination for wastewater treatment. First step in working for a public wastewater utility.
CHICANA/O STUDIES (A.A.)
AA: Associate in Arts

Chicana/o Studies is a multidisciplinary and interdisciplinary study of social, cultural, historical, political, ecological, and health discourses, practices, and experiences of Chicano/Latino community populations that are situated within a globalized society. The knowledge and skills of students who complete the requirements included: research writing, familiarity with theories of democratic principals and social justice, and to practice community engagement, service learning and/or public service. Critical thinking and effective oral and written communication skills are integrated across the curriculum, which incorporates the arts and literature, cultural studies, history, the social sciences, policy studies, service learning, and active participation for social justice. Prerequisites skills include college level reading and writing. The Chicana/o Studies Program goals include fulfilling general education, transfer requirements, university articulation requirements, and prepare students for further study in Chicana/o Studies or a social science or humanities course of study leading to BA, MA, and/or Ph.D. degrees. Chicana/o Studies provides students with career opportunities in education, social work, law, public administration, community development, the arts, ecology, and health. Most career options require more than two years of college study. Students can begin by earning an Associate’s Degree (AA) in Chicana/o Studies.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:

✓ Express in a written, oral or artistic way some of the contributions that women have made to the development of the Mexican and Mexican-American experience.

✓ Express what the Mexican and Mexican American cultural experience are in a written, oral or artistic way.

✓ Express in a written, oral or artistic way some of the major obstacles that the Indigenous culture of the Southwest and Mesoamerican regions have faced since having contact with European cultures.

✓ Attend educational, cultural, or political activities related to the Chicano/a Latino/a community’s social issues.

54 lecture hours

Advisories:

Language—Recommended eligibility for ENGL1A

Limitations on enrollment:

Not open for credit to students with credit in LARAZ 1

WCC Graduation Requirements: Area B, Multicultural Graduation Requirement

Transferable to both UC and CSU

CSU GE-Breadth: D3
IGETC: 4C
UC-TCA: UC-B

Emphasizes an interdisciplinary analysis of historical, socio-political, economic, educational, and cultural conditions related to the Chicano population in the United States. The focus is on past and contemporary Chicano social movements and the intersections of race/ethnicity, class, and gender.
### ETNH 2  Introduction to Native American Studies  3 units

- **54 lecture hours**
- **Advisories:**
  - **Language**—Recommended eligibility for ENGL1A
- **WCC Graduation Requirements:** Area B, Area C, Multicultural Graduation Requirement
  - **Transferable to both UC and CSU**
    - **CSU GE-Breadth:** D3, D6
    - **IGETC:** 4C
    - **UC-TCA:** UC-B

Introduction to Native American Studies with emphasis upon basic concepts relating to Native American historical and political development.

### ETNH 5  Introduction to Chicana/o Culture  3 units

- **54 lecture hours**
- **Advisories:**
  - **Language**—Recommended eligibility for ENGL1A
- **WCC Graduation Requirements:** Area C, Multicultural Graduation Requirement
  - **Transferable to both UC and CSU**
    - **CSU GE-Breadth:** C2, D3, D6
    - **IGETC:** 3B, 4C
    - **UC-TCA:** UC-B, UC-H

This course is an interdisciplinary survey of Chicana/o cultural representation in the 20th century. Examines Chicana/o culture within a national and transnational context. Explores how Chicano cultural forms and practices intersect with social/material forces, intellectual formations and cultural discourses.

### ETNH 6  History of Race and Ethnicity in America  3 units

- **54 lecture hours**
- **Limitations on enrollment:**
  - Not open for credit to students with credit in HIST 6
- **WCC Graduation Requirements:** Area B, Area C, Multicultural Graduation Requirement
  - **Transferable to both UC and CSU**
    - **CSU GE-Breadth:** C2, D3
    - **IGETC:** 3B, 4C
    - **UC-TCA:** UC-B, UC-H

Covers the social, cultural, and economic interaction between various racial and ethnic groups in North America from the fifteenth century to the present. Topics include colonization, immigration, discrimination, group identity, and multiculturalism.

### ETNH 11  Introduction to Ethnic Studies  3 units

- **54 lecture hours**
- **Advisories:**
  - **Language**—Recommended eligibility for ENGL1A
- **WCC Graduation Requirements:** Area B, Multicultural Graduation Requirement
  - **Transferable to both UC and CSU**
    - **C-ID:** SJS 110
    - **CSU GE-Breadth:** D3
    - **IGETC:** 4C
    - **UC-TCA:** UC-B

This course introduces the diverse institutional, cultural, and historical issues relating to the past and present life circumstances of Asian Americans, Black Americans, Mexican Americans/Latinos, and Native Americans. Specifically, students will be introduced to information presented in upper division courses with ethnic studies content.

### ETNH 15  Mexican-American History  3 units

- **54 lecture hours**
- **Advisories:**
  - **Language**—Recommended eligibility for ENGL1A
- **Limitations on enrollment:**
  - Not open for credit to students with credit in HIST 15 or LARAZ 15
- **WCC Graduation Requirements:** Area B, Area C, Multicultural Graduation Requirement
  - **Transferable to both UC and CSU**
    - **CSU GE-Breadth:** US1
    - **IGETC:** 3B, 4C

Historical development of Mexican Americans from Mexican origin, settlement in the United States, to the present time. Emphasis is given to the pre-Columbian setting, indigenous heritage, European conquest and legacy, distinctive colonial institutions, and the growth of independence movements in the United States and Mexico. Major political, social, economic, and cultural factors will be presented, focusing on the roles played by diverse peoples and cultures who share in the development of the United States and Mexico.
### ETHN 21  Chicana/o and Latina/o Health Care Issues 3 units

**54 lecture hours**

**Advisories:**
- Language—Recommended eligibility for ENGL1A

**WCC Graduation Requirements:** Area B, Multicultural Graduation Requirement

**Transferable to both UC and CSU**
- CSU GE-Breadth: D3
- IGETC: 4C
- UC-TCA: UC-B

Overview of health issues of Chicanas/os and Latinas/os in the State of California; role of poverty/lack of education in limited access to health care.

### ETHN 30  Survey of Chicana/o Art  3 units

**54 lecture hours**

**Advisories:**
- Language—Recommended eligibility for ENGL1A

**WCC Graduation Requirements:** Area C, Multicultural Graduation Requirement

**Transferable to both UC and CSU**
- CSU GE-Breadth: D3, D6
- IGETC: 3B, 4C
- UC-TCA: UC-B, UC-H

Survey of contemporary Chicana/o art in context of the social turmoil from which it springs. Includes political use of the poster, and the mural, the influences of the Mexican mural and graphic movement, and social responsibility of the artist.

» Entrepreneurship (Certificate)
» Medical Office Specialist (Certificate)

BUSINESS ADMINISTRATION (A.S.-T)
AS-T: Associate in Science for Transfer

The Associate in Science in Business Administration for Transfer degree prepares students to transfer to a CSU institution by completing required major preparatory coursework in Business Administration. Students choose from required mandated Core courses (15-18 units) in Accounting, Economics, or Business Law; List A courses (3-4 units) in specific mathematics courses; and List B (6 units) in Business-related courses. The breadth of these specific courses combined with General Education courses prepare students for upper division coursework in Business Administration at a CSU institution.

The Associate in Science in Business Administration for Transfer degree provides students with the opportunity to complete their freshman/sophomore level classes needed for a Bachelor’s degree in History within the California State University System. The Associate in Science in Business Administration for Transfer requirements (as stated in SB1440 law) requires students to also complete the following:

- a minimum of 18 semester units in the major or area of emphasis as determined by the community college district.
- 60 semester CSU transferable units
- California State University General Education-Breadth (CSU GE-Breadth) pattern of 39 units; OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern of 37 units.
- Obtainment of a minimum grade point average (GPA) of 2.0.
- Earn a grade of “C” or better in all courses required for the major or area of emphasis.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:

✓ Communication Understand business terms and concepts, and effectively communicate using the language of business.
✓ Technological Awareness Understand information technologies as they influence the structure and process of organizations and economies, and as they influence the roles and techniques of management.
✓ Computation Use specific problem-solving tools to make informed decisions when assessing alternative courses of action.
✓ Critical Thinking Apply concepts and processes to analyze and evaluate various business situations/actions.

BUSINESS INFORMATION PROFESSIONAL (A.S.)

AS: Associate in Science

Business Information Professionals are in high demand both locally and nationally, comprising one of the largest occupational fields in the country, according to the U.S. Department of Labor. The administrative arena includes job opportunities in a diverse range of fields including education, health care, government and social services, finance, real estate, insurance, the retail trade and hospitality industries. Well-trained workers continue to play a vital role in small entrepreneurs, providing an array of key support services. Salaries can vary widely based on training, abilities, and experience. Job applicants with stronger computer skills rise to the top of candidate pools, frequently earning higher salaries.

The role of today's office professional has evolved with the demands of a changing economy and ever-evolving technologies. Typically, a Business Information Professional oversees daily operations—including supporting employees; creating, editing and updating simple to complex documents, spreadsheets, presentations and databases; planning and scheduling meetings and appointments; managing projects; organizing and maintaining paper and electronic files; conducting research; disseminating information using the telephone, mail services, websites and emails; developing and supporting marketing and advertising efforts; managing the company's social media presence; and assisting with budgets as well as monitoring and maintaining office resources.

Students earning the Business Information Professional Associate in Science Degree will complete a variety of core courses preparing them for the growing demands of the 21st Century workplace. The general education requirements round out this technical training and help the student achieve stronger cultural awareness, enhanced self-understanding, improved critical thinking, writing, and communication skills, and an appreciating for lifelong learning.

Student Learning Outcomes

Upon successful completion of this program, students will be able to:

✓ Competently use advanced office technologies and resources in creating, storing, retrieving and distributing professional business-quality documents and presentations.

✓ Demonstrate the self-discipline, organization and soft skills necessary to confidently complete work independently, accurately, to specifications and on time.

✓ Research, analyze, organize, evaluate, store, retrieve and disseminate accurate, detailed business data and communications. Solve basic business calculations involving areas such as payroll, inventory, budgeting and banking.

✓ Apply professional written and verbal communications skills to work effectively with diverse business groups. Use appropriate language, terminology, non-verbal expression, interpersonal skills and business ethics consistent with the work environment.

BUSINESS MANAGEMENT (A.S.)

AS: Associate in Science

The Business Management Associate in Science Degree is a natural progression beyond the Business Management Certificate of Achievement and will provide today's business professional an additional layer of preparedness, providing the robust management skills training necessary to function successfully in a high-paced, high-tech, results-oriented business environment. Graduates will be well-prepared to enter a rapidly growing field with the confidence that they have received the knowledge and training sought by 21st-century employers. Business managers are being actively recruited every day by all industry sectors including government, high-tech, education, retail, hospitality, service, and big and small business.

Student Learning Outcomes

Upon successful completion of this program, students will be able to:

✓ Articulate and comprehend business terms and concepts and effectively communicate using the language of business.

✓ Use specific problem-solving tools to make informed decisions when assessing alternative courses of action in a business environment.

✓ Effectively apply business management concepts and processes to analyze and evaluate various business situations/actions.

✓ Employ information technologies as they influence the structure and process of organizations and economies, and as they influence the roles and techniques of management.

BUSINESS INFORMATION WORKER–ADMINISTRATIVE ASSISTANT (CERTIFICATE) Certificate of Achievement

Business Information Workers are in high demand both locally and nationally, comprising one of the largest occupational fields in the country, according to the U.S. Department of Labor. The administrative arena includes job opportunities in a diverse range of fields including education, health care, government and social services, finance, real estate, insurance, the retail trade and hospitality industries. Well-trained workers continue to play a vital role in small entrepreneurship, providing an array of key support services. Salaries can vary widely, based on training, abilities and experience. Job applicants with stronger computer skills rise to the top of the candidate pool, frequently earning higher salaries.

The role of today's Business Information Worker has evolved with the demands of a changing economy and ever-evolving technologies. Typically, this professional oversees daily operations including supporting employees; creating, editing and updating simple to complex documents; developing and maintaining spreadsheets, presentations and databases; planning and scheduling meetings and appointments; managing projects; organizing and maintaining paper and electronic files; conducting research; disseminating information using the telephone, mail services, websites and emails; and assisting with budgets as well as monitoring and maintaining office resources.

Learners earning a Business Information Worker–Administrative Assistant Certificate of Achievement will complete a variety of courses preparing them for the growing demands of the 21st Century workplace. After receiving this certificate, a student may choose to complete a few more classes and Woodland Community College's general education requirements to qualify for the Business Information Professional Associate of Science degree.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:
✓ Research, analyze, organize, evaluate, and disseminate accurate, detailed business data and communications.
✓ Demonstrate an understanding of general accounting principles and common business computations.
✓ Demonstrate the self-discipline, organization and soft skills necessary to confidently complete work independently, accurately, to specifications and on time and to professionally present work both orally and in writing.
✓ Competently use office technologies and resources in creating, storing, retrieving and distributing business-quality documents and presentations.

**BUSINESS INFORMATION WORKER–CLERICAL (CERTIFICATE)**

**Certificate of Achievement**

The Business Information Worker–Clerical Certificate of Achievement will provide entry-level job seekers with skills for the growing demands of a 21st Century workplace. Job opportunities are readily available locally and throughout the country in government, education, retail, hospitality, the service industries, big business and in smaller entrepreneurial enterprises. In fact, the administrative support field ranks high among the largest U.S. occupation categories, and labor statistics show steady employment opportunity growth.

The role of today's office professional has advanced with the demands of a changing economy and ever-evolving technologies. Entry-level positions traditionally involve working with the public, preparing correspondence and reports, telephone and internet communications, and performing a variety of recordkeeping tasks. In actual day-to-day operations, a clerical employee experiences great variety in their daily tasks and significant opportunity for advancement within the business.

After earning the Business Information Worker–Clerical Certificate of Achievement, completing some additional coursework will qualify the learner for the Business Information Worker–Administrative Assistant Certificate of Achievement, which may open additional employment opportunities and also move the learner closer to an Associate of Science degree.

**Student Learning Outcomes**

Upon successful completion of this program, students will be able to:

✓ Competently use business information technologies, skills, and resources to communicate and collaborate; and to create, store, retrieve, and distribute business-quality documents and presentations.

✓ Demonstrate the self-discipline, organization and soft skills necessary to confidently complete work independently and accurately to specifications and on time; and to professionally present work both orally and in writing.

GENERAL BUSINESS COURSES

**GNBUS 1** Business Information Systems 3 units

- **54 lecture hours**
- **Advisories:**
  - **Language**—Recommended eligibility for ENGL1A

  **Transferable to CSU only**

Examination of information systems and their role in business. Focus on information systems, database management systems, networking, e-commerce, ethics and security, computer systems hardware and software components. Application of these concepts and methods through hands-on projects developing computer-based solutions to business problems.

**GNBUS 10** Introduction To Business 3 units

- **54 lecture hours**
- **Advisories:**
  - **Language**—Recommended eligibility for ENGL1A

  **Transferable to both UC and CSU**
  **C-ID:** BUS 110

Survey of the diverse activities of businesses operating in a changing global environment. Examines how economic systems, technology, legal factors, business strategies, human relations, trade barriers, finance, and culture interact to affect U.S. business policies and practices. Demonstrates how businesses achieve organizational goals and maintain their competitive advantage. Explores how entrepreneurship, organizational design and structure, leadership, human resource management and organized labor practices, organizational communication, innovation, marketing and consumer behavior, e-business, legal issues, accounting, and financial management can improve business practices.

**GNBUS 11** Principles of Management 3 units

- **54 lecture hours**
- **Advisories:**
  - **Language**—Recommended eligibility for ENGL1A
  - **Limitations on enrollment:**
    - Not open for credit to students with credit in MGMT 10

  **Transferable to CSU only**

Managerial and organizational theory and practice; planning, organizing, influencing and controlling. Focusing on the role, functions, and responsibilities of management in a contemporary organization.

**GNBUS 13** Principles of Marketing 3 units

- **54 lecture hours**
- **Advisories:**
  - **Language**—Recommended eligibility for ENGL1A
  - **Mathematics**—Recommended eligibility for MATH52

  **Transferable to CSU only**

This course is a general overview of marketing principles. The course covers the process of planning and executing the conception, pricing, promotion, and distribution of ideas, goods, and services to create exchanges that satisfy individuals and organizational goals. Elements of the marketing environment such as government regulation, environmental protection, competition, and consumer behavior will be analyzed.

**GNBUS 15** Human Resource Management 3 units

- **54 lecture hours**
- **Advisories:**
  - **Language**—Recommended eligibility for ENGL1A

  **Transferable to CSU only**

Foundations for the contemporary theory and practices relating to the management of people; managing human resources within an organization; basic personnel processes.

**GNBUS 18** Business Law 3 units

- **54 lecture hours**
- **Advisories:**
  - **Language**—Recommended eligibility for ENGL1A

  **WCC Graduation Requirements: Area E**
  **C-ID:** BUS 125

Law and its relationship to business. Laws and regulations affecting managerial decisions. Dispute resolution, torts, contracts, government regulations and other area of commercial law explored through case analysis. Other legal concepts explored include ethics, employment, consumer transactions, competition, the environment, agency, and business organizations.
**GNBUS 21  Business Communications  3 units**

*54 lecture hours*

Transferable to CSU only

Application of principles of ethical and effective communication to the creation of letters, memos, e-mails, and written and oral reports for a variety of business situations. Development and refinement of written and oral business communication skills including planning, organizing, composing, editing, and revising business documents using word processing software for written documents and presentation software to create and deliver professional oral reports. This course is designed for students who already have college-level writing skills.

**GNBUS 35  Organizational Behavior  3 units**

*54 lecture hours*

Advisories:

- Language—Recommended eligibility for ENGL1A

Transferable to CSU only

Introduction to theories of management psychology and organizational behavior and their application in the workplace, including individual and group behaviors, organizational structure, the role of ethics in the workplace, change management, conflict resolution, and organizational dynamics.

**GNBUS 55  Principles of Selling  3 units**

*54 lecture hours*

This is a course on the theory and practice of personal and professional selling with a focus on relationship marketing and a concentration on the selling process. This course includes an emphasis on sales strategies, techniques, settings, and skills development in product knowledge, customer analysis, prospecting, presenting, and closing the sale. Team sales presentations are also addressed.

**GNBUS 56  Business Mathematics  3 units**

*54 lecture hours*

Requisites:

- Satisfactory completion of LEARN574 or GNBUS100 or by placement

Math for business, accounting, management, real estate and marketing. Topics include discussion and calculations for banking, cash/trade/and bank discounting, retail and wholesale markups and markdowns, simple and compound interest, present value, annuities and sinking funds, discounting of notes, buying and selling of mutual funds and stocks, depreciation, taxes, insurance, financial statements and real estate loans.

**GNBUS 57  Principles of Social Media Marketing  3 units**

*54 lecture hours*

This course is designed to provide students with a foundation in social media using interactive Internet and mobile applications. Students will learn and develop social media strategies for use in business and learn how to implement social media campaigns as part of a marketing strategy. Cost-effective methods of social media promotion for small businesses will be covered. Relationship-building, public relations, and event marketing using social and mobile media tactics will also be a focus. A social media promotion plan will be developed.

**GNBUS 58  Principles of Customer Service  3 units**

*54 lecture hours*

Whether local or global, face-to-face, or online, providing excellent customer service is a necessary practice to attract and retain business in every industry. Workers who provide excellent customer service give their companies the best opportunity to produce profit, goodwill, and deliver services and products that satisfy and please clients. With a focus on both new and existing customers, students learn how to maximize this major source of business revenue. Students will also practice and fine-tune communication, active listening, and conflict resolution skills. Specific customer service tactics when working with both internal and external customers will be covered.
### GNBUS 59  Entrepreneurship  3 units

54 lecture hours

Principles of establishing and managing a small business, including the preparation of a business plan; emphasis on goal-setting, types of business organizations, obtaining licenses and permits, financing options, accounting aspects, legal requirements, managing the enterprise, and other aspects in business entrepreneurship.

### GNBUS 64  Medical Terminology for Office Specialist  3 units

54 lecture hours

Familiarization with and refinement of medical terminology from programmed text outlining word structure, definitions, and usage. Primarily intended for those who are preparing for a career in health or business, with an emphasis on clerical support staff responsibilities.

### GNBUS 65  Medical Office Procedures  3 units

54 lecture hours

Students will learn the role of a medical office administrative assistant by mastering medical office duties and becoming proficient in customer and patient service and the creation and maintenance of medical records.

### GNBUS 66  Medical Coding  3 units

54 lecture hours

**Requisites:**
- Satisfactory completion of GNBUS64

Students will learn how to transform healthcare diagnoses, procedures, medical services, and equipment into universal medical alphanumeric codes. Students will be prepared to help ensure the codes are applied correctly during the medical billing process, which includes abstracting the information from documentation, assigning the appropriate codes, and creating a claim to be paid by insurance carriers.

### GNBUS 72  Introduction to Business Information Worker  3 units

54 lecture hours

**Advisories:**
- Computer Literacy—Recommended basic computer skills

This course provides the learner with a survey of skills and topics covered in the Business Information Worker Program certificates and degree program. Business English, entry-level office procedures such as the role of a business information professional, the workplace environment, workplace communication, ethics, customer focus, and teamwork are covered. The focus is an introduction to skills that are relevant to success as an office clerk, administrative assistant, office manager, or other business information worker roles.

### GNBUS 74  Business Information Professional  3 units

54 lecture hours

**Requisites:**
- Satisfactory completion of BCA15 and GNBUS72

Designed for the last semester of study in the Business Information Worker pathway, this capstone course is designed to integrate and refine business information skills presented throughout the program in advanced preparation for the administrative professional occupation. Further administrative procedures including but not limited to travel arrangements, organizing meetings or conferences, and electronic records management integration are introduced. Emphasis is on time management, customer service, human relations, workplace ethics, and effective communication. A final focus on job applications, interviewing, and employment documents is included.
A spatial study of Earth’s dynamic physical systems and processes. Topics include maps, Earth-sun relations, weather, climate, water, landforms, soils, and the biosphere. Emphasis is on interrelationships among systems and processes and their resulting patterns and distributions.

This course is a study of diverse human populations, their cultural origins, diffusion and contemporary spatial expressions. Topics include: demography, languages and religions, urbanization and landscape modification, political units and nationalism, and economic systems and development.
**GEOLOGY**

**DIVISION CONTACT**
Dr. Shannon Reed, Dean of Arts & Sciences
Office: (530) 661-5719
Counseling: (530) 661-5703

**DEGREES OFFERED**
» Geology (A.S.-T)
» Geology (A.S.)

**GEOLOGY (A.S.-T)**
**AS-T: Associate in Science for Transfer**

Geology is an interdisciplinary science that combines geological observations and concepts with those of physics, chemistry, biology, and mathematics in order to study the earth, its physical environments, and its history. By studying rocks, fossils, and minerals, and by learning to read and interpret maps, geologists seek to understand those geologic principles and processes that shape the earth and its environments.

The goal of the Woodland Community College Geology program is to provide students with a broad preparatory education in Geology so they can complete their graduation requirements, associate degree requirements, transfer requirements, are prepared for entry-level geosciences jobs, and/or receive personal enrichment. The Geology program is aligned with the college-level student learning outcomes of computation, critical thinking, and scientific awareness.

Students have two degree options from which to choose: 1) Associates Degree (AS) in Geology and/or 2) Associate's Degree for Transfer (AS-T). Both degrees will provide students with a broad preparatory education in geology and related fields. The AS-T degree is designed specifically for students planning on transferring to the CSU system. Students who complete the AS-T or “associate degree for transfer” will receive “priority admission with junior status to the California State University System”. The Geology AS is designed for students looking to transfer to other 4-year institutions in order to obtain a baccalaureate degree in Geology and/or for those students looking to prepare themselves for entry-level geoscience positions that don't require a four-year degree.

**Strongly recommended courses:**
PHYS2A+3A or PHYS2B+3B or PHYS4A+4B

**Total Credits**

27 units

**Requirements**

- Completion of minimum of 18 semester units in an “AA-T” or “AS-T” major as detailed in the program section of the catalog for Geology with grade of C or better or a “P” if the courses is taken on a “pass-no pass” basis (title 5 §55063).
- Certified completion of the California State University General Education-Breadth pattern (CSU GE Breadth); or the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

**Student Learning Outcomes**

Upon successful completion of this program, students will be able to:

✓ Demonstrate an understanding of the purpose of scientific inquiry and the implications and applications of basic scientific principles within the field of geology.
✓ Demonstrate the ability to use appropriate mathematical concepts and methods to understand, analyze, and communicate issues within geology in quantitative terms.
✓ Think and reason scientifically in order to analyze data/information in addressing & evaluating problems and issues pertaining to geology.
GEOLOGY (A.S.)

AS: Associate in Science

Geology is an interdisciplinary science that combines geological observations and concepts with those of physics, chemistry, biology, and mathematics in order to study the earth, its physical environments, and its history. By studying rocks, fossils, and minerals, and by learning to read and interpret maps, geologists seek to understand those geologic principles and processes that shape the earth and its environments.

The goal of the Geology Associate in Science degree is to provide students with a broad preparatory education in Geology so they are prepared for entry-level geosciences jobs, and/or receive personal enrichment.

Student Learning Outcomes

Upon successful completion of this program, students will be able to:

✓ Demonstrate the ability to use appropriate mathematical concepts and methods to understand, analyze, and communicate issues within geology in quantitative terms.
✓ Think and reason scientifically in order to analyze data/information in addressing & evaluating problems and issues pertaining to geology.
✓ Demonstrate an understanding of the purpose of scientific inquiry and the implications and applications of basic scientific principles within the field of geology.

Required Courses for Major

Required Core Courses 18 units
CHEM1A—General Chemistry I.................................................. 5
GEOL10L—Physical Geology.................................................... 4
GEOL11L—Historical Geology................................................... 4
MATH1A—Single Variable Calculus I—Early Transcendentals...... 5

Strongly recommended courses:
PHYS2A and CHEM1B, PHYS2B, PHYS 3A/3B or 4A/4B

Total Credits 18 units

GEOLOGY COURSES

GEOL 8L Earth Science Laboratory 1 unit

54 lab hours
Requisites:
Concurrent enrollment in or satisfactory completion of GEOL8

WCC Graduation Requirements: Area A

Transferable to both UC and CSU
C-ID: GEOL 120
CSU GE-Breadth: B1
IGETC: 5A
UC-TCA: UC-S

Survey course with topics chosen principally from oceanography, geology, physical geography, meteorology, and astronomy. Topics are presented within a theme of understanding the earth.

GEOL 10L Physical Geology 4 units

54 lecture hours, 54 lab hours
Limitations on enrollment:
Not open for credit to students with credit in PHYSC 10A

WCC Graduation Requirements: Area A

Transferable to both UC and CSU
C-ID: GEOL 101
CSU GE-Breadth: B1, B3
IGETC: 5A, 5C
UC-TCA: UC-S

Physical geology introduces the processes that are at work changing the Earth today. Covers rocks and minerals, volcanoes, earthquakes and plate tectonics. It also examines how water and wind shape the Earth’s surface.

GEOL 11L Historical Geology 4 units

54 lecture hours, 54 lab hours

WCC Graduation Requirements: Area A

Transferable to both UC and CSU
C-ID: GEOL 111
CSU GE-Breadth: B1, B3
IGETC: 5A, 5C
UC-TCA: UC-S

Historical Geology is the study of the evolution of life and landforms through geologic time through the examination of the rock record. In this course one will learn how the study of fossils, rocks, tectonic processes, and geologic structures can provide us with information regarding Earth’s geologic and biologic history.

Laboratory activities in Earth Science to reinforce and complement the materials presented in GEOL 8.
GEOL 12  Oceanography 3 units

54 lecture hours

WCC Graduation Requirements: Area A

Transferable to both UC and CSU
CSU GE-Breadth: B1
IGETC: 5A
UC-TCA: UC-S

General introduction to the basic principles of oceanography including the study of geological, physical, and chemical oceanography. Topics will include the origin of Earth and the oceans, plate tectonics, marine provinces, sediment, seawater composition and geochemical distributions, surficial and deep-water oceanic circulation, waves, tides, coastal erosion and deposition, marine ecosystems and human’s effects on the oceans.

GEOL 20  Geology of California 3 units

54 lecture hours

WCC Graduation Requirements: Area A

Transferable to both UC and CSU
C-ID: GEOL 200
CSU GE-Breadth: B1
IGETC: 5A
UC-TCA: UC-S

General introduction to the geological sciences with emphasis on the geology of California. Topics covered will include the tectonic provinces, landforms, natural resources, geologic history, natural hazards, and related geologic environmental problems in the state.

HEALTH EDUCATION

DIVISION CONTACT
Dr. Sandra Fowler,
Dean of CTE & Workforce Development
Office: (530) 661-5729
Counseling: (530) 661-5703

HEALTH EDUCATION COURSES

HLTH 1  Health and Life Style Choices 3 units

54 lecture hours
Advisories:
Language—Recommended eligibility for ENGL1A

WCC Graduation Requirements: Health/PE Graduation Requirement

Transferable to both UC and CSU
CSU GE-Breadth: E

Issues include wellness, functioning optimally, and promoting healthy behavior changes. Topics explore diet, exercise, stress, CVD, cancer, substance abuse, sexually transmitted diseases, mental health, aging and analysis of available health information.

HLTH 13  Nutrition and Life Fitness 3 units

54 lecture hours
Advisories:
Language—Recommended eligibility for ENGL1A

WCC Graduation Requirements: Health/PE Graduation Requirement

Transferable to both UC and CSU

The analysis and evaluation of current practices and theories regarding nutrition and exercise and their relationship to weight control and physical fitness. Individualized exercise prescription, and nutrition analysis will be completed by each student.
Recognize and articulate the many struggles and accomplishments of different cultural groups from past events.

Recognize and articulate how past events are interconnected throughout the world.

Analyze information and data to achieve a better understanding of present society in reference to the past.

DEGREES OFFERED
» History (A.A.-T)

HISTORY (A.A.-T)
AA-T: Associate in Arts for Transfer

History is a study of the past. The past not only defines our lives, society, and the world we live in today, but shapes the pathway to the future. Students of history study individuals, groups, communities, nations, people, and cultures from different times and places. Many different methods are applied to effectively learn about history. History students examine the past through different perspectives and apply various analytical techniques to raise questions and think critically about the past. In addition to learning about amazing events, history provides us with a better understanding of our present lives.

The Associate in Arts in History for Transfer degree provides students with the opportunity to complete their freshman/sophomore level classes needed for a Bachelor’s degree in History within the California State University System. Upon completion of the Associate in Arts in History for Transfer degree, students will utilize knowledge of the past practices and development of people and land to enhance their appreciation of historical events.

Associate in Arts in History for Transfer requirements (as stated in SB 1440 law) requires students to also complete the following:

- a minimum of 18 semester in the major or area of emphasis as determined by the community college district.
- 60 semester CSU transferable units
- California State University General Education-Breadth (CSU GE-Breadth) pattern of 39 units; OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern of 37 units.
- Obtainment of a minimum grade point average (GPA) of 2.0.
- Earn a grade of “C” or better in all courses required for the major or area of emphasis.

**Student Learning Outcomes**

Upon successful completion of this program, students will be able to:

✓ Recognize and articulate the many struggles and accomplishments of different cultural groups from past events.
✓ Recognize and articulate how past events are interconnected throughout the world.
✓ Analyze information and data to achieve a better understanding of present society in reference to the past.

Students will demonstrate skills and abilities and appropriately apply knowledge to chemical dependency counseling settings and situations.

Students will acquire sufficient hours of experience in the twelve core counseling functions as required by California certification agencies in the context of a field work practicum.

Students will demonstrate communication skills (verbal, non-verbal and written) that insure that they can work effectively with clients and other professionals in diverse communities.

Students will understand and demonstrate ethical behavior in a variety of challenging and diverse environments and situations.

✓ Students will display an appreciation and respect for people from diverse backgrounds, including, but not limited to, cultural elements such as age, gender, race/ethnicity, sexual orientation/identification, religion, ability/disability, and socio-economic status.

✓ Students will be exposed to the General Education pattern necessary to obtain an Associate Degree.

HUMAN SERVICES (A.S.)

AS: Associate in Science

The two-year Human Services program is designed to meet an increasing need for paraprofessional human services generalists. The program is specifically designed to:

- Prepare for employment as Human Service counselors, workers, and aides in areas of social services, vocational rehabilitation, mental health, child and family services, support services for seniors and people with disabilities and educational facilities.
- Provide additional training and skills to paraprofessional human service workers currently employed, enabling them to more effectively meet human services needs.

Student Learning Outcomes

Upon successful completion of this program, students will be able to:

✓ Students will understand and demonstrate ethical behavior in a variety of challenging situations.

✓ Students will demonstrate communications skills (verbal, non-verbal, and written) that insure they can work effectively with clients and other professionals within the community.

✓ Students will display an understanding of and respect for other people and cultures.

✓ Students will demonstrate skills and abilities and appropriately apply knowledge to work settings and situations.
Students will understand their personal values and beliefs, and be able to compare and contrast them to the value and belief systems of other diverse groups within society.

### CHEMICAL DEPENDENCY COUNSELOR (CERTIFICATE)

**Certificate of Achievement**

The Chemical Dependency Counseling Certificate develops specific skills and abilities needed to provide comprehensive alcohol and drug treatment. Course work addresses a wide range of issues and ethics in substance abuse treatment, including the twelve counselor core functions: screening, intake, assessment, client orientation, treatment planning, counseling, case management, crisis intervention, client education, referral and record keeping, and consultation with other professionals. The Chemical Dependency Counseling program exceeds the minimum standards for entry into certification for the Basic Certified Addictions Treatment Counselor (CATC), and CATC I certification process, established by the federal Substance Abuse and Mental Health Services Administration, and certification agencies in the State of California and includes a 255 hour supervised practicum. Certificate completers will qualify to apply for certification through state-approved certification boards. Completion of the Certificate will assist students in obtaining entry-level employment toward CATC Basic and CATC I certification, and increase promotional opportunities for employees of substance abuse treatment programs.

### Student Learning Outcomes

Upon successful completion of this program, students will be able to:

- Understand their personal values and beliefs, and be able to compare and contrast them to the value and belief systems of other diverse groups within society.
- Demonstrate communication skills (verbal, non-verbal, and written) that insure that they can work effectively with clients and other professionals in diverse communities.
- Display an appreciation and respect for people from diverse backgrounds, including, but not limited to, cultural elements such as age, gender, race/ethnicity, sexual orientation/identification, religion, ability/disability, and socio-economic status.
- Understand and demonstrate ethical behavior in a variety of challenging and diverse environments and situations.
- Obtain entry-level employment as Addiction Treatment Counselors, and the career ladder opportunities open to them with further education.
- Acquire sufficient hours of experience in the twelve core counseling functions as required by California certification agencies in the context of a field work placement.
- Demonstrate communication skills (verbal, non-verbal, and written) that insure that they can work effectively with clients and other professionals in diverse communities.

HUMAN SERVICES COURSES

**HUSEV 10** Introduction to Human Services 3 units

54 lecture hours
Advisories:  
Language—Recommended eligibility for ENGL1A

Transferable to CSU only

A survey of human services and social work, including the history of the profession and an overview of social welfare systems that serve disenfranchised populations. An exploration of helping skills necessary to work with people affected by human problems such as poverty, mental and physical health challenges, disabilities, life stage challenges, unequal access to resources and education, and substance abuse.

**HUSEV 21** Introduction to Physiological and Psychological Effects of Drug Abuse 3 units

54 lecture hours
Advisories:  
Language—Recommended eligibility for ENGL1A

Transferable to CSU only

An introduction and overview of the use and misuse of the major classes of drug abuse. Major focus will include the physiological and psychological effects of drugs of abuse. Other topics will include the historical context of drugs and their classification, the neurochemistry of addiction, addictive behavior disorders, prevention, treatment, and the relationship between drugs of abuse and mental health.

**HUSEV 11** Understanding Diverse Populations 3 units

54 lecture hours
Advisories:  
Language—Recommended eligibility for ENGL1A

WCC Graduation Requirements: Multicultural Graduation Requirement

Transferable to CSU only

An understanding of human dynamics and differences between people of diverse racial, ethnic, gender, LGBTQ identification, culture, social class, and ability will be discussed. This course is designed to generate sensitivity and appreciation of differences, eliminate barriers that get in the way of working with diverse populations and create a healthier and safer environment.

**HUSEV 22** Addiction Development and Progression 3 units

54 lecture hours
Advisories:  
Language—Recommended eligibility for ENGL1A

Transferable to CSU only

Introduction to the causes and development of substance-related disorders including co-dependency. Exploration of the process of denial, use of defense mechanisms, and the influences of the family, and society in the development of substance-related disorders, recovery, and relapse prevention.

**HUSEV 20** Introduction to Chemical Dependency Studies 3 units

54 lecture hours
Advisories:  
Language—Recommended eligibility for ENGL1A

Transferable to CSU only

Overview of major topics in the study of alcohol and drug misuse, i.e., history, drugs of abuse, models of prevention, addiction and treatment, local and national policy.

**HUSEV 23** Legal and Ethical Aspects of Human Services 3 units

54 lecture hours
Advisories:  
Language—Recommended eligibility for ENGL1A

Transferable to CSU only

Introduction to the legal/ethical responsibilities of Human Service workers and Chemical Dependency Counselors, with emphasis on confidentiality and the legal concept of privilege. All federal/state laws regarding the counselor/client relationship, client's rights, mandated reporting, etc., will be discussed. Emphasis will be on the obligation of the Human Service worker to clients, families, self, discipline, and society.
**HUSEV 24** Introduction to Case Management 3 units

54 lecture hours

*Advisories:*
- **Language**—Recommended eligibility for ENGL1A

Transferable to CSU only

Introduction to case management in human services including substance-related disorder treatment. Focus on the techniques of interviewing, case conceptualization, service planning, discharge and aftercare. Familiarization with the American Psychiatric Association's classification system of mental disorders including substance-related disorders.

**HUSEV 25** Basic Counseling and Theory 3 units

54 lecture hours

*Advisories:*
- **Language**—Recommended eligibility for ENGL1A

Transferable to CSU only

Broad overview of the counseling methods used in mental health and in treating chemical dependency. An introduction to counseling theories and specific techniques used in the treatment; i.e., psycho-dynamic, behavioral, cognitive-behavioral, multi-modal, client-centered, groups, couples and family counseling. Case histories and specific theories will be analyzed.

**HUSEV 26A** Introduction to Supervised Field Work Practicum 2 units

18 lecture hours, 66 lab hours

*Requisites:*
- Satisfactory completion of HUSEV24

*Advisories:*
- **Language**—Recommended eligibility for ENGL1A

Transferable to CSU only

Intro to human service fieldwork in one of various settings, include substance related treatment. Securing, and orienting to, a placement agency. Basic understanding of the functions of a human services practicum. Learning important functions the student will fulfill in the course of the field work experience. Coverage of standards of professionalism in human services including appropriate appearance and behavior, legal and ethical concerns, and the effective use of supervision. Eighty-hour hours required, 18 of which are in-class weekly seminars. Meets practicum requirements for entry into California certification for counselors in substance-related treatment.

**HUSEV 26B** Advanced Supervised Field Work Practicum 5 units

27 lecture hours, 189 lab hours

*Advisories:*
- **Language**—Recommended eligibility for ENGL1A

Transferable to CSU only

In depth supervised field work practice in one of a variety of settings. Extensive intern experience in a variety of specific skills connected to work in alcohol and drug counseling. Extended analysis of student experiences facilitated by the instructor to deepen students’ learning and further hone skills necessary in chemical dependency counseling related jobs. Focus will also be on advanced issues of professionalism and career path development. The field work practicum will meet practicum requirements for entry into California alcohol and drug counseling certification system.

**HUSEV 27** Introduction to Professional and Personal Growth 3 units

54 lecture hours

*Advisories:*
- **Language**—Recommended eligibility for ENGL1A

Transferable to CSU only

This course will introduce students to attitudes, values, and methods that enhance communication skills in human relations. Students will also explore personal growth, values, and bias from both personal and professional perspectives. Topics include Nature vs. Nurture, developmental theories, relationship building, and personal assessments. Students will explore the concept of self as it relates to work, school, relationships, sexuality, and other aspects of life.

**HUSEV 28** Skills and Techniques of Group Counseling 3 units

54 lecture hours

*Advisories:*
- **Language**—Recommended eligibility for ENGL1A

Transferable to CSU only

This course is designed to provide an introduction to and an overview of the basic skills and techniques used in group counseling and practices including ethical issues related to the field of group work. Topics included are communication skills in a group setting, theories of group counseling, best practices, guidelines and diversity issues.
HUSEV 30  Adult Children of Alcoholics 1 unit

18 lecture hours
Advisories:  
Language—Recommended eligibility for ENGL1A

Transferable to CSU only

An exploration of techniques, concepts, and behavioral guidelines for identifying the consequences of parental alcoholism/addiction. Understanding the concepts of modeling, shaping, reinforcement, and extinction of dysfunctional behavioral patterns learned in childhood, and the application of these concepts in supporting recovery.

HUSEV 31  Family Treatment Approaches 1 unit

18 lecture hours
Advisories:  
Language—Recommended eligibility for ENGL1A

Transferable to CSU only

An examination of the ecological/systems approach to chemical dependency counseling as it relates to dysfunctional, addictive families.

HUSEV 32  Relationship Addiction/Co-Dependency 1 unit

18 lecture hours
Advisories:  
Language—Recommended eligibility for ENGL1A

Transferable to CSU only

Description of relationship addiction in those with relationships to substance-related disorder sufferers. Identification of contributing behaviors and how they foster and maintain codependent relationships. Comparison with healthy relationships and strategies for reducing and avoiding codependency issues in relationships.

HUSEV 34  Gender Differences Related To Substance Abuse 1 unit

18 lecture hours
Advisories:  
Language—Recommended eligibility for ENGL1A

Transferable to CSU only

An in-depth exploration of the socialization processes for females and males as these relate to the development of addictive behavior. A contrast of societal reactions based on gender, and specific gender-based treatment issues.

HUSEV 35  Addiction and Domestic Violence 1 unit

18 lecture hours
Advisories:  
Language—Recommended eligibility for ENGL1A

Transferable to CSU only

An overview of factors that contribute to and elicit violent responses in concert with substance use/abuse in the home. The effects of domestic violence on treatment and treatment planning, screening and referral. An overview of batterers and treatment issues. Legal issues and community response to domestic violence.

HUSEV 36  Chemical Dep Prevention in Our Schools 1 unit

18 lecture hours
Advisories:  
Language—Recommended eligibility for ENGL1A

Transferable to CSU only

Strategies and best practices that parents, students, school systems and communities can employ to achieve an alcohol and other drug-free environment. An exploration of current models and strategies focused on substance abuse prevention in the school system. Students will learn/develop activities appropriate for use with elementary and secondary students. This class is appropriate for all individuals interested in substance abuse prevention in schools.

CHILD AND ADOLESCENT DEVELOPMENT (A.A.-T)
AA-T: Associate in Arts for Transfer

The Associate in Arts in Child and Adolescent Development for Transfer degree is an interdisciplinary program designed to prepare students for continued study in a range of majors at a CSU, including Child and Adolescent Development, Family Studies, and Human Development. The core courses give a solid foundation in psychology with electives in biology, early childhood education, and sociology.

Human development majors study both the biological factors such as growth, physical maturation and aging, and social factors such as parenting, education and personal choices, that affect the developmental process. While careers in this field typically require more than 2 years of study, human development graduates find employment as educators in early childhood and more advanced settings, as social workers and counselors, and in governmental or private agency settings relating to social welfare and recreation. Graduates are also prepared to pursue advanced degrees in behavioral and social sciences, education, social work, family law or health sciences.

The following is required for all AA-T or AS-T degrees:
- Minimum of 60 CSU-transferable semester units.
- Minimum grade point average (GPA) of at least 2.0 in all CSU transferable coursework. While a minimum of 2.0 is required for admission, some majors may require a higher GPA. Please consult with a counselor for more information.
- Completion of a minimum of 18 semester units in an “AA-T” or AS-T” major as detailed in the transfer section of the catalog. All courses in the major must be completed with a grade of C or better or a “P” if the course is taken on a pass/no pass basis.
- Certified completion of the California State University General Education-Breadth pattern (CSU GE Breadth); OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:
✓ Articulate the interplay of biological, psychological, and social forces shaping human development throughout the lifespan.
✓ Critically evaluate research relevant to human development and apply human development knowledge in diverse contexts.
✓ Complete lower-division preparation for transfer to a related major at a four-year university.

LAW, PUBLIC POLICY, AND SOCIETY (A.A.-T)
AA-T: Associate in Arts for Transfer

The Associate in Arts in Law, Public Policy, and Society for Transfer (A.A-T) degree is designed to provide a seamless pathway for transfer to a CSU in majors such as American Studies, Criminology, Global Intelligence and National Security, International Relations, Philosophy, and related majors in the fields of law and public policy. This interdisciplinary area of emphasis emphasizes the development of communication skills, introduces students to foundations of law and public policy in society, and prepares students for further study in a variety of majors.

This degree coursework is good preparation for students who want to attend law school upon completion of a bachelor’s degree. Students who complete more advanced degrees in these areas are preparing for careers in government, politics, and public offices within public and nonprofit organizations or the private sector.
The following is required for all AA-T or AS-T degrees:

- Minimum of 60 CSU-transferable semester units.
- Minimum grade point average (GPA) of at least 2.0 in all CSU transferable coursework. While a minimum of 2.0 is required for admission, some majors may require a higher GPA. Please consult with a counselor for more information.
- Completion of a minimum of 18 semester units in an “AA-T” or “AS-T” major as detailed in the transfer section of the catalog. All courses in the major must be completed with a grade of C or better or a “P” if the course is taken on a pass/no pass basis.
- Certified completion of the California State University General Education-Breadth pattern (CSU GE Breadth); OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

**Student Learning Outcomes**

Upon successful completion of this program, students will be able to:

- Demonstrate an understanding of the political institutions and legal processes through which public plans are formulated and implemented.
- Develop and apply strong communication skills in analyses of legal and social issues.
- Apply skills and knowledge acquired in the curriculum to analyze policy issues and make policy recommendations.

**SOCIAL JUSTICE STUDIES (A.A.-T)**

**AA-T: Associate in Arts for Transfer**

The Associate in Arts in Social Justice Studies for Transfer (AA-T) degree at Woodland Community College prepares students for seamless transfer into Ethnic Studies, Gender Studies, Social Justice Studies, and related majors in the CSU system.

Students who choose to major in Social Justice Studies and related fields have a wide range of career options: activists, community organizers, public policy analysts, conflict resolution specialists, human relations workers, NGO workers, human rights groups, political campaigners, workers in environmental organizations, alternative media, human rights groups, political campaigns, religious organizations, international agencies, mediators, rights advocates, journalists, lobbyists, and community organizers. Most careers require more than an Associate degree.

The following is required for all AA-T or AS-T degrees:

- Minimum of 60 CSU-transferable semester units.
- Minimum grade point average (GPA) of at least 2.0 in all CSU transferable coursework. While a minimum of 2.0 is required for admission, some majors may require a higher GPA. Please consult with a counselor for more information.
- Completion of a minimum of 18 semester units in an “AA-T” or “AS-T” major as detailed in the transfer section of the catalog. All courses in the major must be completed with a grade of C or better or a “P” if the course is taken on a pass/no pass basis.
- Certified completion of the California State University General Education-Breadth pattern (CSU GE Breadth); OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

**Student Learning Outcomes**

Upon successful completion of this program, students will be able to:

- Recognize and connect the ways individuals and institutions may be beneficiaries and/or victims of social injustice.
- Identify and analyze the ways injustices are institutionalized in social, political, and economic structures.
- Identify and practice the methods people use to fight for social justice at local, national, and international levels.
Effectively communicate an understanding of cultural pluralism and various cultural values.

Articulate similarities and differences among cultures, times, and environments.

Demonstrate a respect for various opinions, feelings, and various cultural values.

Demonstrate critical thinking about the social world by evaluating theories and evidence from multiple social science disciplines.

Required Courses for Major

Select 18 units from courses that meet the WCC General Education Area C (Humanities) requirements. Courses in area of emphasis must be selected from at least 3 different disciplines, and completed with a C or better.

Students must also complete WCC Graduation and General Education requirements, including additional degree-applicable coursework to reach 60 units.

Total Credits 60 units

ARTS AND HUMANITIES (A.A.)

AA: Associate in Arts

The Arts and Humanities AA has an interdisciplinary area of emphasis on the cultural activities and artistic expressions of human beings. Students who complete this degree will develop an awareness of the ways in which people throughout the ages and in different cultures have responded to themselves and the world around them in artistic and cultural creation.

Students who complete this degree can earn higher wages in entry-level positions in a variety of fields, particularly ones that prefer familiarity with the arts and humanities. The degree may also prepare students for careers that require further study, such as social and community service managers, researchers, and educators; students who plan to transfer should meet with a counselor to ensure that transfer requirements are met.

Student Learning Outcomes

Upon successful completion of this program, students will be able to:

✓ Demonstrate knowledge of the scientific method and the range of research methodologies used in social and behavioral sciences.

✓ Demonstrate personal and social responsibility through articulating the mutually constituting relationship between self and society.

✓ Demonstrate global awareness of diverse social structures, concepts, and constructs.

✓ Demonstrate critical thinking about the social world by evaluating theories and evidence from multiple social science disciplines.

Required Courses for Major

Area of Emphasis: Select 18 units from courses that meet the WCC General Education Area B (Social Science) requirements. Courses in area of emphasis must be selected from at least 3 different disciplines, and completed with a C or better. 18 units

Additional Requirements: Students must also complete WCC Graduation and General Education requirements, including additional degree-applicable coursework to reach 60 units. 42 units

Total Credits 60 units
NATURAL SCIENCES (A.S.)
AS: Associate in Science

The Natural Sciences AS has an interdisciplinary area of emphasis on the study of the natural world, its life forms, and the transformations of matter and energy, as well as the procedure by which new information is acquired and the scientific method. Students who complete this degree will develop an understanding of the relationships between science and other human activities.

Students who complete this degree can earn higher wages in entry-level positions in a variety of fields, particularly ones that prefer familiarity with the natural sciences. The degree may also prepare students for careers that require further study, such as conservationists, researchers and lab technicians, and educators; students who plan to transfer should meet with a counselor to ensure that transfer requirements are met.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:
✓ Demonstrate familiarity with methods of scientific inquiry.
✓ Demonstrate familiarity with multiple aspects of the natural world and its life forms.
✓ Demonstrate and understanding of ways in which science interacts with and affects human activities.

Required Courses for Major
Area of Emphasis:
Select 18 units from courses that meet the WCC General Education Area A (Natural Science) requirements. Courses in area of emphasis must be selected from at least 3 different disciplines, and be completed with a C or better. 18 units

Additional Requirements:
Students must also complete WCC Graduation and General Education requirements, including additional degree-applicable coursework to reach 60 units. 42 units

Total Credits 60 units

PRE-HEALTH OCCUPATIONS (A.S.)
AS: Associate in Science

This degree prepares students interested in a variety of Allied Health occupations with a rigorous course of study interested in a variety of Allied Health occupations. It contains coursework required for many allied health majors including Nursing, Medical Laboratory Technology, and others. Since each training program requires a unique set of prerequisite coursework, it is imperative that students work closely with Counselors to ensure the appropriate courses are chosen for the training program they wish to enter. Completion of the degree does not guarantee enrollment in any health occupation program.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:
✓ Demonstrate written and oral communication skills appropriate for careers in Allied Health.
✓ Demonstrate comprehension of key science principles relating to careers in Allied Health.
✓ Describe the roles that culture and diversity play in various aspects of human behavior.
✓ Demonstrate skills in laboratory procedures and apply critical thinking skills in laboratory experiments.
✓ Explain the principles of nutrition and their effect on health.
✓ Describe the overall organization of the human body.

Required Courses for Major
Physical and Biological Science Courses (15 units minimum) 15 units

| BIOL1 | Principles of Biology | 5 |
| BIOL4 | Human Anatomy | 4 |
| BIOL5 | Human Physiology | 4 |
| BIOL6 | Introductory Microbiology | 4 |
| BIOL15 | Bioscience | 4 |
| CHEM1A | General Chemistry I | 5 |
| CHEM1B | General Chemistry II | 5 |

| SPECH3 | Argumentation and Critical Thinking | 3 |
| SPECH6 | Small Group Communication | 3 |
| SPECH7 | Interpersonal Communication | 3 |
| STAT1 | Introduction To Statistical Methods | 4 |

Total Credits 24 units
**CSU GE-BREADTH (CERTIFICATE)**

**Certificate of Achievement**

This certificate is designed for students planning to transfer to a California State University (CSU) campus. Completion of this certificate ensures that the student has met the lower division General Education requirements for all CSU campuses.

Earning this Certificate of Achievement will not replace the CSU/GE Certification document. The “Certification of CSU General Education Breadth” is a separate process. Students must request CSU/GE Certification at the time they request a final WCC transcript to be sent to the CSU school they plan on attending. File this request with the Office of Admissions and Records.

**Student Learning Outcomes**

Upon successful completion of this program, students will be able to:

✓ Complete the lower division general education breadth requirements to prepare for transfer to California State University (CSU).
✓ Demonstrate effective expository and persuasive writing skills.
✓ Demonstrate effective mathematical computation and quantitative reasoning skills.
✓ Demonstrate global awareness with an understanding of cultural pluralism.
✓ Evaluate the methods of inquiry and evidence used in the behavioral and social sciences.
✓ Evaluate ideas about the natural universe using testable methodology.
✓ Demonstrate familiarity with U.S. History, the Constitution, and American Ideals.

**Required Courses for Major**

Students must complete a minimum of 39 units used to satisfy the CSU General Education requirements. See the CSU General Education patterns listed in the Woodland Community College (WCC) catalog or consult with a WCC counselor.

Total Credits 39 units

---

**IGETC (CERTIFICATE)**

**Certificate of Achievement**

This certificate is designed for students planning to transfer to a California State University (CSU) or University of California (UC) campus. It ensures that the student has met the lower division Intersegmental General Education Transfer Curriculum requirements for all CSU and UC campuses.

Earning this Certificate of Achievement will not replace the IGETC Certification document. The “Certification of IGETC” is a separate process. Students must request IGETC Certification at the time they request a final WCC transcript to be sent to the UC or CSU school they plan on attending. File this request with the Office of Admissions and Records.

**Student Learning Outcomes**

Upon successful completion of this program, students will be able to:

✓ Complete the Intersegmental General Education Transfer Course pattern (IGETC) to prepare for transfer to California State University (CSU) or University of California (UC).
✓ Demonstrate effective expository and persuasive writing skills.
✓ Demonstrate effective mathematical computation and quantitative reasoning skills.
✓ Evaluate ideas about the natural universe using testable methodology.
✓ Demonstrate global awareness with an understanding of cultural pluralism.
✓ Evaluate the methods of inquiry and evidence used in the behavioral and social sciences.
✓ Demonstrate familiarity with U.S. History, the Constitution, and American Ideals.

**Required Courses for Major**

Students must complete a minimum of 34–37 units used to satisfy IGETC certification requirements. See the IGETC pattern in the Woodland Community College (WCC) catalog or consult with a WCC counselor.

Total Credits 34–37 units
BASIC ACADEMIC SKILLS (NONCREDIT CERTIFICATE)

Certificate of Competency (Noncredit)

The Basic Academic Skills program at Woodland Community College is designed to prepare students for the official high school equivalency exams including the GED or HiSet test and/or enhance college readiness. Upon successful completion of the Basic Academic Skills Certificate of Competency, students will have improved proficiency in the areas of basic math, reading, writing, and technology ensuring greater success in the work place or in college credit programs.

Student Learning Outcomes

Upon successful completion of this program, students will be able to:

✓ Improve skills in solving multi-step math problems (numerical and word) involving basic operations up to algebra and geometry
✓ Improve ability to identify and summarize main ideas in short reading selections involving a variety of genres (essays, news articles, text books, etc)
✓ Write a competent and focused 2-6 paragraph response on an assigned topic.
✓ Collaborate with others and demonstrate the characteristics of successful self-directed learners.

The study of whole numbers, fractions, mixed numbers, and decimals which involves concepts of prime and composite numbers, and prime factorization; ratio, proportion, percent; rounding and estimating sums, differences, products, and quotients. Concept applications, math vocabulary, and reasoning skills are emphasized.
LIBRARY SCIENCE COURSES

**LIBSC 1 Basic Research Skills**  
1 unit

**18 lecture hours**

*Transferable to both UC and CSU*

This course will help students acquire beginning information literacy skills necessary to conduct academic or personal research. It provides a step-by-step guide to the research process that is applicable to term papers, course work, and life-long learning. It emphasizes developing effective search strategies, selecting information tools, locating and retrieving information sources, analyzing and critically evaluating information, and using information.
MATHEMATICS (A.S.-T)
AS-T: Associate in Science for Transfer

This degree is intended for students who wish to transfer to a California State University to complete a Bachelor’s Degree in Mathematics. The AS-T Degree in Mathematics will offer the knowledge and ability to be successful in the completion of Bachelor's Degree in Mathematics and may help prepare you for Bachelor’s Degrees in statistics and a variety of science or engineering related areas. (Check with a counselor to obtain accurate information on usefulness of the AS-T in Mathematics for potential use by those intending to major in statistics, engineering, or science related fields.).

Pursuant to SB 1440, the Associate in Science for Transfer in Mathematics is intended for students who plan to complete a Bachelor’s Degree in Mathematics at a CSU campus. Students completing an AS-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that does accept the AS-T will be required to complete no more than 60 units after transfer to earn a Bachelor’s Degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or to a university or college that is not part of the CSU system. In all cases, students should check with a counselor for more information on university admission and transfer requirements.

To earn this AS-T degree, students must meet the following requirements:

- Completion of the major requirements with grades of C or better;
- Completion of 60 units of CSU transferable courses with a minimum of 2.0 GPA (please check with a counselor for more information; some majors or CSUs may require a higher GPA);
- Verified completion of either the California State University General Education Breadth pattern (CSU GE) or the Intersegmental General Education Transfer Curriculum (IGETC) (please check with a counselor for more information).

Student Learning Outcomes
Upon successful completion of this program, students will be able to:

✓ Apply appropriate mathematical and statistical concepts, models, and methods to understand, analyze and communicate results when dealing with issues involving quantitative information.
✓ Analyze data and numerical information to evaluate, interpret, and draw objective conclusions when facing quantitative problems.

Required Courses for Major

Required Core 13 units
- MATH1A - Single Variable Calculus I—Early Transcendentals .......... 5
- MATH1B - Single Variable Calculus II—Early Trans ...................... 4
- MATH1C - Multivariable Calculus ........................................ 4

Group A: Select one course 3 units
- MATH2 - Ordinary Differential Equations ................................ 3
- MATH3 - Linear Algebra ...................................................... 3

Group B: Select one course 3–4 units
- PHYS4A - Mechanics .......................................................... 4
- STAT1 - Introduction To Statistical Methods .......................... 4

OR any course not already selected in Group A

Total Credits 19–20 units

MATHEMATICS COURSES

MATH 1A Single Variable Calculus I—Early Transcendentals
5 units

90 lecture hours
Requisites:
Satisfactory completion of MATH20 and MATH21

WCC Graduation Requirements: Area D2

Transferable to both UC and CSU
C-ID: MATH 220
CSU GE-Breadth: B4
IGETC: 2A
UC-TCA: UC-M

A first course in differential and integral calculus of a single variable: functions; limits and continuity; techniques and applications of differentiation and integration; Fundamental Theorem of Calculus. Primarily for Science, Technology, Engineering, and Mathematics Majors.
A second course in differential and integral calculus of a single variable: integration; techniques of integration; infinite sequences and series; polar and parametric equations; applications of integration. Primarily for science, technology, engineering & mathematics majors.

Vector valued functions, calculus of functions of more than one variable, partial derivatives, multiple integration, Green’s theorem, Stokes’ theorem, divergence theorem.

This course develops the techniques and theory needed to solve and classify systems of linear equations. Solution techniques include row operations, Gaussian elimination, and matrix algebra. Investigates the properties of vectors in two and three dimensions, leading to the notion of an abstract vector space. Vector space and matrix theory are presented including topics such as inner products, norms, orthogonality, eigenvalues, eigenspaces, and linear transformations. Selected applications of linear algebra are included.
MATH 9  Calculus for Business, Social and Life Sciences  
4 units

63 lecture hours, 27 lab hours
Requisites:
Satisfactory completion of MATH52
Limitations on enrollment:
Not open for credit to students with credit in MATH 1A

WCC Graduation Requirements: Area D2, Math Competency Requirement

Transferable to both UC and CSU
C-ID: MATH 140
CSU GE-Breadth: B4
IGETC: 2A
UC-TCA: UC-M

Topics of calculus including differentiation, integration, graphs, limits, and rates. Applications from economics, business, life science, and behavioral science.

MATH 15  Concepts and Structures of Mathematics  
3 units

54 lecture hours
Requisites:
Satisfactory completion of MATH52

WCC Graduation Requirements: Area D2, Math Competency Requirement

Transferable to both UC and CSU
CSU GE-Breadth: B4
UC-TCA: UC-M

This course focuses on the development of quantitative reasoning skills through in-depth, integrated explorations of topics in mathematics, including real number systems and subsystems. Emphasis is on comprehension and analysis of mathematical concepts and applications of logical reasoning.

MATH 20  College Algebra  
5 units

90 lecture hours
Requisites:
Satisfactory completion of MATH52

WCC Graduation Requirements: Area D2, Math Competency Requirement

Transferable to both UC and CSU
C-ID: MATH 151
CSU GE-Breadth: B4
IGETC: 2A
UC-TCA: UC-M

College level course in algebra for majors in science, technology, engineering, and mathematics. Topics include polynomial, rational, radical, exponential, absolute value, and logarithmic functions, systems of equations, theory of polynomial equations, and analytic geometry.

MATH 21  Plane Trigonometry  
3 units

54 lecture hours
Requisites:
Satisfactory completion of MATH52

WCC Graduation Requirements: Area D2, Math Competency Requirement

Transferable to both UC and CSU
CSU GE-Breadth: B4
UC-TCA: UC-M

The study of trigonometric functions, their inverses and their graphs, identities and proofs related to trigonometric expressions, trigonometric equations, solving right triangles, solving triangles using the Law of Cosines and the Law of Sines, polar coordinates, and introduction to vectors.

MATH 52  Intermediate Algebra  
4 units

72 lecture hours
Requisites:
or MATH101B or 50 or 50B, or by placement

WCC Graduation Requirements: Area D2, Math Competency Requirement

Fundamental operations of algebra; linear and quadratic equations and inequalities; exponents and polynomials; rational expressions; radicals and fractional exponents; graph of a straight line; linear and quadratic system of equations; conic sections; exponential and logarithmic functions.
MATH 58  Mathematics for Everyday Living  3 units

54 lecture hours

Requisites:
Satisfactory completion of MATH101

WCC Graduation Requirements: Area D2, Math Competency Requirement

Broad historical study of the major elements of the western tradition from earliest times to the Eighteenth century. Introduction of ideas, values, and institutions basic to Western civilizations.

MATH 101  Elementary Algebra  4 units

72 lecture hours

Requisites:
Satisfactory completion of MATH111

Limitations on enrollment:
Not open for credit to students with credit in MATH 50, MATH 50A, or MATH 50B

Introductory algebra. Topics include: signed numbers, graphing, linear equations, and systems of linear equations in two variables.

MATH 111  Prealgebra  4 units

72 lecture hours

Seeks to develop algebraic thinking. Topics include: operations on the rational numbers; exponents; the order of operations; the real numbers and their decimal number representation; the field axioms; introduction to algebra; percent, ratio, proportion; basic geometry; conversion of units and problem solving using equations.
MUSIC COURSES

MUSIC 3  Music Appreciation  3 units

54 lecture hours
Limitations on enrollment:
   Not open for credit to students with credit in HUMAN 3

WCC Graduation Requirements: Area C

Transferable to both UC and CSU
   C-ID: MUSIC 100
   CSU GE-Breadth: C1
   IGETC: 3A
   UC-TCA: UC-H

Study of music in relation to the humanities; music and composers of the western world from medieval to the 20th Century. Topics studied include but are not limited to elements of music, basic musical forms, music periods, styles, and the role of music and musicians in the western world.

MUSIC 10  Music Fundamentals  3 units

54 lecture hours

WCC Graduation Requirements: Area C

Transferable to CSU only

An introduction to the notation and primary elements of tonal music. Incorporates the following concepts: staff notation in treble and bass clefs; rhythm and meter; basic properties of sound; intervals; diatonic scales and triads; and diatonic chords. Development of skills in handwritten notation is expected.

MUSIC 12  Jazz Appreciation  3 units

54 lecture hours
Limitations on enrollment:
   Not open for credit to students with credit in HUMAN 12

WCC Graduation Requirements: Area C

Transferable to both UC and CSU
   CSU GE-Breadth: C1, C2
   IGETC: 3A
   UC-TCA: UC-H

General survey of jazz from its original and early development to present day; extensive listening to recorded and live performance supports the lecture material. Students will become acquainted with the musical styles and the historical and social context of jazz, along with the techniques and personalities of artists who made original contributions and influenced other artists.

MUSIC 15  Popular Music in The united States  3 units

54 lecture hours
Limitations on enrollment:
   Not open for credit to students with credit in HUMAN 15

Transferable to both UC and CSU
   CSU GE-Breadth: C1
   IGETC: 3A, 3B
   UC-TCA: UC-H

A survey of popular music in the United States from about 1850 to the present. Covers American Civil War songs, ragtime, blues, jazz, songwriting, musical theater, country music, Latin music styles, rock, and current trends.
MUSIC 16  World Music  3 units

54 lecture hours

Advisories:
  Language—Recommended eligibility for ENGL1A

Limitations on enrollment:
  Not open for credit to students with credit in HUMAN 16

WCC Graduation Requirements: Area C, Multicultural Graduation Requirement

Transferable to both UC and CSU
  CSU GE-Breadth: C1
  IGETC: 3A
  UC-TCA: UC-H

An introduction to music as experienced through various world cultures including, but not limited to, Asia, India, the Middle East, Africa, Australia, and South America. Subcultures, such as Native American music and Ethnic North American music are also studied.

Counseling: (530) 661-5703

DEGREES OFFERED
» Nutrition and Dietetics (A.S.-T)

NUTRITION AND DIETETICS (A.S.-T)
AS-T: Associate in Science for Transfer

CSU system. Students who choose to pursue a major in nutrition have several career opportunities in the fields of medicine, kinesiology, food science, research and academics.

The Associate Degree for Transfer student completion requirements are:

- Completion of 60 semester units that are eligible for transfer to the California State University, including both of the following:
  - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements.
  - A minimum of 18 semester units in a major or area of emphasis.
  - Obtainment of a minimum grade point average of 2.0.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:

✓ Assess methods for improving health through dietary and lifestyle modifications.
✓ Analyze the relationship between health and development.
✓ Demonstrate familiarity with scientific method and statistical analyses.
✓ Analyze the physiological processing of nutrients as they relate to energy balance, energy metabolism, and physical activity.

NUTRITION COURSES

NUTR 10 Principles of Nutrition 3 units

54 lecture hours

Advisories:

Language—Recommended eligibility for ENGL 1A

WCC Graduation Requirements: Area A, Health/PE Graduation Requirement

Transferable to both UC and CSU

C-ID: NUTR 110
CSU GE-Breadth: E

In-depth study of nutrients and their functions, chemical composition of foods and their utilization in the body. Course topics such as weight loss, sports nutrition, the diet-disease relationship, and individual's nutritional needs throughout the life cycle are emphasized. Course includes assessment of the student's own nutritional health.
PHILOSOPHY COURSES

**PHIL 1** Introduction To Philosophy 3 units

54 lecture hours
Advisories:
- Language—Recommended eligibility for ENGL1A

WCC Graduation Requirements: Area C
Transferable to both UC and CSU
- CSU GE-Breadth: C2
- IGETC: 3B
- UC-TCA: UC-H

Introduces students to the nature and practice of philosophic inquiry by focusing on traditional philosophic issues from a multicultural perspective. Particular emphasis will be given to classic Western philosophers as well as classic Eastern sources.

**PHIL 2** Ethics 3 units

54 lecture hours
Advisories:
- Language—Recommended eligibility for ENGL1A

WCC Graduation Requirements: Area C
Transferable to both UC and CSU
- C-ID: PHIL 120
- CSU GE-Breadth: C2
- IGETC: 3B
- UC-TCA: UC-H

An introduction to the study of ethics emphasizing the relevance of ethics to everyday decision making. Topics include: the human context of moral reasoning, relativism, subjectivism, religion and ethics, conscience and moral development, ethical egoism, utilitarianism, the ethics of duty, rights ethics, virtue ethics and the good life, and case studies in moral reasoning.

**PHIL 12** Critical Thinking 3 units

54 lecture hours
Advisories:
- Language—Recommended eligibility for ENGL1A

WCC Graduation Requirements: Area C, Area D2
Transferable to both UC and CSU
- CSU GE-Breadth: A3
- UC-TCA: UC-H

A basic introduction to critical thinking skills emphasizing their application to everyday decision-making. Topics include definitions of critical thinking, language and meaning, claims and reasons, argument and inference, argument identification and reconstruction, inductive reasoning, deductive reasoning, underlying assumptions, evaluating assumptions, assumptions and evidence, worldviews as a context for critical thought, evaluating arguments, sound and fallacious reasoning, informal fallacies, casual inference, and scientific method.

**PHIL 20** World Religions 3 units

54 lecture hours
Advisories:
- Language—Recommended eligibility for ENGL1A

WCC Graduation Requirements: Area C, Multicultural Graduation Requirement
Transferable to both UC and CSU
- C-ID: PHIL 120
- CSU GE-Breadth: C2
- IGETC: 3B
- UC-TCA: UC-H

A survey of the beliefs and practices of Eastern and Western religious traditions. Emphasis will be given to the origin and development of each tradition, its major forms of expression, and the various ways in which each tradition addresses the most fundamental questions of human existence.
PHYSICS COURSES

**PHYS 2A** General Physics 3 units

54 lecture hours

**Requisites:** Satisfactory completion of MATH21

**Advisories:**
- Language—Recommended eligibility for ENGL1A

**WCC Graduation Requirements:** Area A

**Transferable to both UC and CSU**

- **C-ID:** PHYS 105
- **CSU GE-Breadth:** B1
- **IGETC:** 5A
- **UC-TCA:** UC-S

Comprehensive survey of physics, including mechanics, hydrostatics, thermodynamics, and wave motion; qualitative understanding and quantitative problem solving; primarily for life science major.

**PHYS 2B** General Physics 3 units

54 lecture hours

**Requisites:** Satisfactory completion of PHYS2A

**Advisories:**
- Language—Recommended eligibility for ENGL1A
- Mathematics—Recommended eligibility for MATH52

**WCC Graduation Requirements:** Area A

**Transferable to both UC and CSU**

- **CSU GE-Breadth:** B1
- **IGETC:** 5A
- **UC-TCA:** UC-S

Comprehensive study of physics, including electricity and magnetism, optics, atomic and nuclear physics, and relativity; equal emphasis placed on qualitative understanding and quantitative problem solving. Primarily for Life Science majors.

**PHYS 3A** General Physics Laboratory 1 unit

54 lab hours

**Requisites:**
- Concurrent enrollment in or satisfactory completion of PHYS2A

**Advisories:**
- Language—Recommended eligibility for ENGL1A

**Limitations on enrollment:**
- Not open for credit to students with credit in PHYS 4 series

**Transferable to both UC and CSU**

- **C-ID:** PHYS 105
- **CSU GE-Breadth:** B3
- **IGETC:** 5C

Performance of lab experiments to verify the important concepts of PHYS 2A.

**PHYS 3B** General Physics Laboratory 1 unit

54 lab hours

**Requisites:**
- Satisfactory completion of PHYS3A; concurrent enrollment in or satisfactory completion of PHYS2B

**Advisories:**
- Language—Recommended eligibility for ENGL1A
- Mathematics—Recommended eligibility for MATH52

**Limitations on enrollment:**
- Not open for credit to students with credit in PHYS 4 series

**Transferable to both UC and CSU**

- **CSU GE-Breadth:** B3
- **IGETC:** 5C

Performance of laboratory experiments to verify the important concepts of PHYS 2B.
PHYS 4A Mechanics  4 units

54 lecture hours, 54 lab hours

Requisites:
Satisfactory completion of MATH1A; concurrent enrollment in or satisfactory completion of MATH1B

Advisories:
Language—Recommended eligibility for ENGL1A

WCC Graduation Requirements: Area A

Overview of the field of physics, its position and significance relative to the sciences, followed by a detailed study of mechanics. Primarily for architecture, chemistry, engineering, geophysics, and physics majors.

PHYS 4B Electromagnetism  4 units

54 lecture hours, 54 lab hours

Requisites:
Satisfactory completion of PHYS4A and MATH1B; concurrent enrollment or satisfactory completion of MATH1C

Transferable to both UC and CSU
C-ID: PHYS 210
CSU GE-Breadth: B1, B3
IGETC: 5A, 5C

Study of electromagnetism with accompanying laboratory.

PHYS 4C Thermodynamics, Light, and Modern Physic  4 units

54 lecture hours, 54 lab hours

Requisites:
Satisfactory completion of PHYS4B and MATH1C

Transferable to both UC and CSU
C-ID: PHYS 215
CSU GE-Breadth: B1, B3
IGETC: 5A, 5C

Study of thermodynamics, optics, and modern physics with accompanying laboratory.

POLITICAL SCIENCE

DIVISION CONTACT
Dr. Shannon Reed, Dean of Arts & Sciences
Office: (530) 661-5719
Counseling: (530) 661-5703

DEGREES OFFERED
» Political Science (A.A.-T)

POLITICAL SCIENCE (A.A.-T)
AA-T: Associate in Arts for Transfer

Political Science focuses on the theory and practice of government and politics at the local, state, national, and international levels. It is dedicated to developing understandings of institutions, practices, and relations that constitute public life and modes of inquiry that promote citizenship. The Associate in Arts in Political Science for Transfer is designed to prepare students for a seamless transfer into the CSU system to complete a baccalaureate degree in Political Science or similar majors.

For political science majors with the goal of applying to CSU as well as UC, there’s a lot of overlap in coursework; students who are applying to UC should consult with a counselor and ASSIST.org to choose the electives that will best satisfy specific UC major requirements.

Students who choose to major in Political Science and related fields can find employment in the public or private sector in the areas of law, government, public relations, business, advocacy, lobbying, international relations, diplomacy, and academia, as well as opportunities in national, state, and local governments. Most careers require more than an Associate degree.

The following is required for all AA-T or AS-T degrees:

- Minimum of 60 CSU-transferable semester units.
- Minimum grade point average (GPA) of at least 2.0 in all CSU transferable coursework. While a minimum of 2.0 is required for admission, some majors may require a higher GPA. Please consult with a counselor for more information.
- Completion of a minimum of 18 semester units in an “AA-T” or “AS-T” major as detailed in the transfer section of the catalog. All courses in the major must be completed with a grade of C or better or a “P” if the course is taken on a pass/no pass basis.
- Certified completion of the California State University General Education-Breadth pattern (CSU GE Breadth); OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:

✓ Demonstrate knowledge of contemporary systems and governments.
✓ Analyze, investigate, and compare ideological approaches to governmental systems.
✓ Examine and apply theories, concepts, and practices in political theory.
✓ Demonstrate an understanding of the fundamentals of political science and governance.

POLITICAL SCIENCE COURSES

**POLSC 1  Introduction To American Government  3 units**

54 lecture hours

**Advisories:**

- **Language**—Recommended eligibility for ENGL1A

**WCC Graduation Requirements: Area B**

Transferable to both UC and CSU

- **C-ID:** POLS 110
- **CSU GE-Breadth:** D8
- **IGETC:** 4H
- **UC-TCA:** UC-B

Survey of American government and politics, covering three parts: the foundations, politics, and institutions. First, it will explore the foundations of American democracy, such as: political culture, the Constitution, civil liberties, and civil rights. Second, it will analyze American politics in the aspects of the media, political parties, elections, and interest groups. Finally, political institutions will be examined, such as the Congress, the presidency, the courts, and the federal bureaucracy. State and local governments are included. Satisfies Governments(s) Constitution(s) portion of California State University Title 5, Section 40404.

**POLSC 2  Introduction to Political Theory  3 units**

Counseling: (530) 661-5703

DEGREES OFFERED
»Psychology (A.A.-T)

PSYCHOLOGY (A.A.-T)
AA-T: Associate in Arts for Transfer

Psychology is the study of human thought, feelings, and behavior. Part of its appeal is the fact that it involves both scientific investigation and practical applications of those findings in everyday life. Woodland Community College Psychology courses offer a diverse program with several goals: 1) To expose students to the variety of sub-fields in psychology; 2) to engender knowledge of, and appreciation for, the spirit and nature of scientific inquiry; 3) to facilitate insight into oneself and increase knowledge of, and sensitivity to, others; 4) to introduce students to the basic body of knowledge, thus preparing them for further study in Psychology.

Those pursuing psychology as a field of study will find many career options centering around helping others to understand, predict, and influence their own behavior and the behavior of others. Psychologists may teach, conduct research, perform psychological testing, or do consultation in a variety of settings which include hospitals, businesses, private practice, personnel offices, industry, colleges and universities, and government. Training in Psychology provides a valuable foundation for professions wherein interpersonal interactions are a component of the work setting.

The following is required for the Associate in Arts in Psychology for Transfer Degree:

- Minimum of 60 CSU-transferable semester units
- Minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum of 2.0 is required for admission, some majors may require a higher GPA. Please consult with a counselor for more information.
- Completion of minimum of 18 semester units in the major as detailed in the program section of the catalog Psychology. All courses in the major must be completed with a grade of C or better.
- Certified completion of the California State University General Education-Breadth pattern (CUS GE Breadth); OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:

- Demonstrate respect for the psychological differences in opinions, feelings and values of others in ones interactions.
- Analyze psychological data/information/theories, draw reasonable conclusions in relation to human behavior from the data/information/theories, recognize the implications when addressing and evaluating human related problems and issues in making decisions.
- Articulate similarities and differences in human behavior among cultures, times, and environments, demonstrating an understanding of cultural pluralism and knowledge of global issues as they relate to human behavior.

### PSYCHOLOGY COURSES

#### PSYCH 1A General Psychology 3 units

**54 lecture hours**

**Advisories:**
- **Language**—Recommended eligibility for ENGL1A

---

**WCC Graduation Requirements: Area B**

**Transferable to both UC and CSU**
- **C-ID:** PSY 110
- **CSU GE-Breadth:** D9, E
- **IGETC:** 4I
- **UC-TCA:** UC-B

General introduction to psychology as a science. Topics include perception, learning, development, motivation, personality, abnormal behavior, and biological and social basis of behavior.

#### PSYCH 7 Research Methods in Psychology 3 units

**54 lecture hours**

**Requisites:**
- Satisfactory completion of STAT1 and PSYCH1A

**Advisories:**
- **Computer Literacy**—Recommended basic computer skills
- **Language**—Recommended eligibility for ENGL1A

---

**Transferable to both UC and CSU**
- **C-ID:** PSY 200
- **CSU GE-Breadth:** B4
- **IGETC:** 4I

This course covers the many research designs and methods in psychology, including descriptive, associative, and causal claims. The various instrumentation, collection procedures, data collection and analysis, and reporting procedures are also examined. Research methods and design will be surveyed from a wide section of psychological fields.

#### PSYCH 12 Human Sexuality & Sexual Behavior 3 units

**54 lecture hours**

SIGN LANGUAGE COURSES

SIGN 1  Sign Language Studies I 4 units

72 lecture hours
Advisories:
Language—Recommended eligibility for ENGL1A

WCC Graduation Requirements: Area C
Transferable to both UC and CSU

Introduction to the visual-gestural process of sign language. This course provides instructional activities for people who wish to become competent in communicating with deaf people. Emphasis on non-verbal communication.

SIGN 2  Sign Language Studies II 4 units

72 lecture hours
Requisites:
Satisfactory completion of SIGN1
Advisories:
Language—Recommended eligibility for ENGL1A

WCC Graduation Requirements: Area C
Transferable to both UC and CSU
IGETC: 6A

Non-verbal communication skills utilizing syntactical and finger spelling of multi-syllable words.

SIGN 3  Sign Language Studies III 4 units

72 lecture hours
Requisites:
Satisfactory completion of SIGN2
Advisories:
Language—Recommended eligibility for ENGL1A

WCC Graduation Requirements: Area C
Transferable to both UC and CSU
IGETC: 6A

Continuation of ASL verbal comprehension skills. Study of advanced grammatical structures. Emphasis on expressive skills of deaf culture.
SOCIOLoGY

DIVISION CONTACT
Dr. Shannon Reed, Dean of Arts & Sciences

Counseling: (530) 661-5703

DEGREES OFFERED
» Sociology (A.A.-T)

SOCIOLoGY (A.A.-T)
AA-T: Associate in Arts for Transfer

Sociology is the study of society and how individuals’ lives are shaped by the larger social structure. Sociologists study a wide range of topics, including inequality, race, gender and sexuality, family, media, crime and deviance, government, social policy, and religion.

Students who obtain the Associate in Arts in Sociology for Transfer (AA-T) will fulfill general education and transfer requirements that prepare students for further study in sociology and related fields. Sociology provides students with career opportunities in education, criminology and law, social work, urban planning, and public policy. Most career options require more than two years of college study.

A California Community College student who has earned the Associates in Arts degree for Transfer (AA-T) will be granted priority admission to the CSU into a similar baccalaureate (BA) degree program with a guarantee of junior standing as long as the student meets all prescribed admission requirements. Once admitted, the student will only be required to complete 60 additional prescribed units to qualify for the similar baccalaureate degree.

For students working on an Associate Degree for Transfer (ADT) in sociology with the goal of applying to CSU as well as UC, there’s a lot of overlap in coursework. The differences between what UC expects and what CSU requires for sociology transfer students is that the UC pathway expects courses in both statistics and research methods while CSU doesn’t. Additional courses required for CSU may be eligible for UC credit at some campuses. Check ASSIST.org for details.

To obtain the Associate in Arts in Sociology for Transfer (AA-T), students must:

- fulfill CSU GE-Breadth or IGETC requirements
- complete 60 units of CSU transferable coursework
- maintain a minimum overall GPA of 2.0
- complete all degree-applicable courses with a grade of C or better (or a P)

Note that all courses required for the major are CSU/UC transferable and can count towards the 60 units and the GE-Breadth or IGETC requirements.

Student Learning Outcomes
Upon successful completion of this program, students will be able to:

✓ Develop and apply a “sociological imagination” to recognize the role social forces play in shaping the lives of individuals.
✓ Demonstrate an understanding of the connection between theory and evidence in the social sciences by comparing and applying major sociological theories and by citing and evaluating evidence to support claims about the social world.
✓ Demonstrate an understanding of the concept and the consequences of social construction as they relate to major social stratification categories like class, race, and gender.
✓ Complete transfer requirements for further study in sociology and related fields.

Required Courses for Major

Core Courses 6 units
SOCIL1 – Introduction To Sociology .......................................................... 3
SOCIL2 – Social Problems ........................................................................ 3

Topical Courses (choose two) 6 units
SOCIL5 – Sociology of Race and Ethnicity .................................................. 3
SOCIL6 – Sociology of Sex and Gender ...................................................... 3
SOCIL10 – Sociology of Marriage and Family .......................................... 3

Methods Course (choose one) 3–4 units
SOCIL8 – Social Science Research Methods ................................................. 3
STAT1 – Introduction To Statistical Methods ............................................. 4

Elective—choose any course not already selected from above, or 3 units
PSYCH22 – Social Psychology ................................................................. 3

Total Credits 18–19 units
### SOCIOLOGY COURSES

**SOCIL 1** Introduction To Sociology 3 units

- **54 lecture hours**
- **Advisories:**
  - Language—Recommended eligibility for ENGL1A

**WCC Graduation Requirements:** Area B

**Transferable to both UC and CSU**
- **C-ID:** SOCI 110
- **CSU GE-Breadth:** D0
- **IGETC:** 4J
- **UC-TCA:** UC-B

This course provides a broad introduction to the basic principles and concepts of sociology including theories and methods, culture, socialization, organizations, institutions, stratification, collective behavior and social change.

**SOCIL 2** Social Problems 3 units

- **54 lecture hours**
- **Advisories:**
  - Language—Recommended eligibility for ENGL1A

**WCC Graduation Requirements:** Area B

**Transferable to both UC and CSU**
- **C-ID:** SOCI 115
- **CSU GE-Breadth:** D0
- **IGETC:** 4J
- **UC-TCA:** UC-B

Survey of social problems in present-day American culture and application of sociological theory and analysis to issues such as poverty, racism, crime, healthcare, education, and the environment.

**SOCIL 5** Sociology of Race and Ethnicity 3 units

- **54 lecture hours**
- **Advisories:**
  - Language—Recommended eligibility for ENGL1A

**WCC Graduation Requirements:** Area B, Multicultural Graduation Requirement

**Transferable to both UC and CSU**
- **C-ID:** SOCI 150
- **CSU GE-Breadth:** D0
- **IGETC:** 4J
- **UC-TCA:** UC-B

Examines the social construction of categories of race and ethnicity in society. Focus on inequality and the impact of racial categorization on everyday life through institutions such as the labor market, schools, residential segregation, healthcare, media, and the criminal justice system.

**SOCIL 6** Sociology of Sex and Gender 3 units

- **54 lecture hours**
- **Advisories:**
  - Language—Recommended eligibility for ENGL1A

**WCC Graduation Requirements:** Area B

**Transferable to both UC and CSU**
- **C-ID:** SOCI 140
- **CSU GE-Breadth:** D4
- **IGETC:** 4D
- **UC-TCA:** UC-B

Sociological analysis of the construction, reproduction, and consequences of sex categories and gender roles. Emphasis on how designation of “male” or “female” impacts an individual’s life, including identity, family roles, sexuality, inequality in the workplace and public policy, popular cultural representations, and violence.
**SOCIL 8  Social Science Research Methods** 3 units

54 lecture hours

Requisites:  
Satisfactory completion of SOCIL1

Advisories:  
**Computer Literacy**—Recommended basic computer skills  
**Language**—Recommended eligibility for ENGL1A  
**Mathematics**—Recommended eligibility for MATH52

**WCC Graduation Requirements: Area D2**

**Transferable to both UC and CSU**  
**C-ID:** SOCI 120  
**CSU GE-Breadth:** D7  
**IGETC:** 4G  
**UC-TCA:** UC-B

Covers basic issues in the design and implementation of social science research. Topics covered include the scientific method, ethics, research design, basic descriptive and inferential statistics, and qualitative and quantitative methodologies. Student will conduct original research projects. Completion of or concurrent enrollment in STAT 1 is recommended.

**SOCIL 10  Sociology of Marriage and Family** 3 units

54 lecture hours

Advisories:  
**Language**—Recommended eligibility for ENGL1A

**WCC Graduation Requirements: Area B**

**Transferable to both UC and CSU**  
**C-ID:** SOCI 130  
**CSU GE-Breadth:** D0, D4  
**IGETC:** 4J  
**UC-TCA:** UC-B

Sociological analysis of marriage and family, including history, cross-cultural comparison, gender roles, sexuality, parenthood, and contemporary debates about family values, form, and function.
SPANISH COURSES

SPAN 1  Elementary Spanish I  4 units

<table>
<thead>
<tr>
<th>72 lecture hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Requisites:</td>
</tr>
<tr>
<td>Language—Recommended eligibility for ENGL1A</td>
</tr>
</tbody>
</table>

WCC Graduation Requirements: Area C

Transferable to both UC and CSU
C-ID: SPAN 100
CSU GE-Breadth: C2

Introduction to the language and culture of the Spanish-speaking world. It includes the development of listening, speaking, reading, and writing in Spanish with an emphasis on the communicative skills, as well as the fundamentals of Spanish grammar. The course is equivalent to one year of high school Spanish.

SPAN 2  Elementary Spanish II  4 units

<table>
<thead>
<tr>
<th>72 lecture hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Requisites:</td>
</tr>
<tr>
<td>Satisfactory completion of SPAN1</td>
</tr>
</tbody>
</table>

Advisories:
Language—Recommended eligibility for ENGL1A

WCC Graduation Requirements: Area C

Transferable to both UC and CSU
C-ID: SPAN 110
CSU GE-Breadth: C2
IGETC: 6A

A continuation of Spanish I. Provides further basic communication skills through listening, speaking, reading, and writing. This course introduces the preterite, the conditional, the future, and the subjective verb cases. It includes practice at the intermediate level and review of the fundamentals of Spanish Grammar.

SPAN 20A  Spanish for Spanish Speakers I  4 units

<table>
<thead>
<tr>
<th>72 lecture hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Requisites:</td>
</tr>
<tr>
<td>Fluency in Spanish</td>
</tr>
</tbody>
</table>

Advisories:
Language—Recommended eligibility for ENGL1A

WCC Graduation Requirements: Area C, Multicultural Graduation Requirement

Transferable to both UC and CSU
CSU GE-Breadth: C2
IGETC: 3B, 6A
UC-TCA: UC-H

Reading and writing Spanish, targeted to Spanish speakers. Readings pertinent to the life and culture of Hispanics in the United States, compositions, exploring personal, political and cultural issues, exams, advanced grammar. Instruction in Spanish.

SPAN 20B  Spanish for Spanish Speakers II  4 units

<table>
<thead>
<tr>
<th>72 lecture hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Requisites:</td>
</tr>
<tr>
<td>Satisfactory completion of SPAN20A</td>
</tr>
</tbody>
</table>

Advisories:
Language—Recommended eligibility for ENGL1A

WCC Graduation Requirements: Area C, Multicultural Graduation Requirement

Transferable to both UC and CSU
CSU GE-Breadth: C2
IGETC: 3B, 6A
UC-TCA: UC-H

This course, which is conducted in Spanish, is the second of a two-semester sequence designed for fluent speakers of Spanish who are proficient in the language, but who have had little or no formal language training.

STATISTICS COURSES

STAT 1  Introduction To Statistical Methods  4 units

63 lecture hours, 27 lab hours
Requisites:
Satisfactory completion of MATH52 or by placement

WCC Graduation Requirements: Area D2

Transferable to both UC and CSU
C-ID: MATH 110
CSU GE-Breadth: B4
IGETC: 2A
UC-TCA: UC-M

The use of probability techniques, hypothesis testing, and predictive techniques to facilitate decision-making. Topics include descriptive statistics; probability and sampling distributions; statistical inference; correlation and linear regression; analysis of variance, chi-square and t-tests; and application of technology for statistical analysis including the interpretation of the relevance of the statistical findings. Applications using data from disciplines including business, social sciences, psychology, life science, health science, and education.

STAT 100  Algebra Support for Introduction to Statistical Methods  1 unit

9 lecture hours, 27 lab hours
Requisites:
Concurrent enrollment in or satisfactory completion of STAT1

A review of prerequisite skills, competencies, and concepts needed in statistics. Intended for students who are concurrently enrolled in STAT 1, Introduction to Statistical Methods, at Woodland Community College. Topics include concepts from elementary and intermediate algebra needed to understand the basics of college-level statistics. Concepts are taught in the context of statistical analysis.
THART 1  Theatre Appreciation  3 units

54 lecture hours
Advisories:
Language—Recommended eligibility for ENGL1A

WCC Graduation Requirements: Area C
Transferable to CSU only

This survey course will foster a student’s appreciation of theatre and the performing arts. The course examines the duties and responsibilities of the various creative artists such as director, actor, designers, and playwrights and the process of creating live performance.

THART 11A  Introduction To Acting  3 units

54 lecture hours

Transferable to both UC and CSU

The basics of acting for the stage will be explored and developed; including voice, diction, movement, improvisational technique, characterization, and scene study. Several monologues and scenes will be developed and presented in class.

THART 33  History of Film  3 units

54 lecture hours

WCC Graduation Requirements: Area C
Transferable to both UC and CSU

CSU GE-Breadth: C1
IGETC: 3A, 3B
UC-TCA: UC-H

Chronological survey of the motion picture; traces the development of the art, technology, and social importance of film during the last 110 years; screenings of significant and representative, documentary, and experimental films from the silent to the modem era. Note: Students in this course may be shown portions of films rated R.

THART 34  Introduction To Film  3 units

54 lecture hours

WCC Graduation Requirements: Area C
Transferable to both UC and CSU

CSU GE-Breadth: C1
IGETC: 3A
UC-TCA: UC-H

Study of film as art and its influence on society, including interpretation, criticism, and technical developments; students view and discuss full-length feature films. Note: Students in this course may be shown portions of films rated R.
## WELDING

### DIVISION CONTACT

Dr. Sandra Fowler,  
Dean of CTE & Workforce Development  
Office: (530) 661-5729  
Counseling: (530) 661-5703

### CERTIFICATES OFFERED

- Advanced Welding Technologies (Certificate)  
- Welding Technologies (Certificate)

### ADVANCED WELDING TECHNOLOGIES (CERTIFICATE)  
Certificate of Achievement

The Advanced Welding Technologies Certificate of Achievement is a 20 unit certificate intended to provide student completers with the safety, skills, and abilities to obtain the American Welding Society Structural Steel certification (D1.1). Student completers will be able to obtain certified level positions in the many fields that require welding as part of their duties. Student completers will know how to weld in all positions (flat, horizontal, vertical, and overhead), in ARC, MIG, and TIG.

#### Student Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate the ability to communicate effectively and work cooperatively with others.
- Assess welding problems and defects and provide a solution.
- Demonstrate an understanding of safety issues as they pertain to shop safety, occupational safety, and personal safety.

#### Required Courses for Major

### WELDING COURSES

<table>
<thead>
<tr>
<th>WELD 51  Introduction To Arc Welding (SMAW)</th>
<th>2 units</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>18 lecture hours, 54 lab hours</strong></td>
<td></td>
</tr>
</tbody>
</table>

This course is designed to advance beginning arc welding skills with an emphasis on SMAW. Power sources, electrode identification, weldability of metals, joint design and oxyacetylene cutting are covered. Activities include learning to weld stringer and weave bead, butt and fillet welds in the flat, horizontal vertical and overhead positions.

<table>
<thead>
<tr>
<th>WELD 52  Oxy-Acetylene Welding</th>
<th>2 units</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>18 lecture hours, 54 lab hours</strong></td>
<td></td>
</tr>
</tbody>
</table>

Gas welding processes: background, safety, applications and methods of operation; welding, burning, brazing and soldering. Activities include learning to weld in flat, horizontal, vertical, and overhead positions.

### WELDING TECHNOLOGIES (CERTIFICATE)  
Certificate of Achievement

The Welding Technologies Certificate of Achievement is a 12 unit certificate intended to provide student completers with the safety instructions, skills, and abilities to obtain entry level positions in the many fields that require welding as part of their duties.

#### Student Learning Outcomes

Upon successful completion of this program, students will be able to:

- Upon completion of this certificate, students will understand safety issues as they pertain to shop safety, occupational safety, and personal safety.
- Students will be able to assess welding problems and defects and provide a solution.

</table>

Total Credits: 12 units
WELD 53  Advanced Arc Welding  3 units

36 lecture hours, 54 lab hours

Requisites:
Satisfactory completion of WELD51

An advanced course designed to prepare students to pass structural steel certification in vertical and overhead positions. The SMAW (stick) process will be used. The goal of this class is to pass the AWS D1.1 Welding Certificate Test. Strict adherence to the testing procedures will be followed. Completion of the class does not guarantee AWS certification unless welding procedure qualification tests are passed. Note: Students must provide safety glasses and welding gloves, and those materials which are of continuing value outside of the classroom setting. This cost will be explained at the first class meeting.

WELD 54  GMAW/GTAW Production Welding  4 units

54 lecture hours, 54 lab hours

Introduction to TIG (GTAW), MIG (GMAW), heliarc, bare wire and fluxcore welding, plasma arc cutting, electronic operation, application of processes, exotic metal and alloy welding, use of track cutter.

WELD 55  Structure Design and Fabrication  4 units

54 lecture hours, 54 lab hours

Requisites:
Satisfactory completion of WELD51

Advisories:
Mathematics—Recommended eligibility for MATH52

Structural weld design and fabrication of weldments. Operation of mechanized iron worker, arc weld-stainless, aluminum and cast iron. Blueprint reading, welding symbols, cost estimation, layout techniques, and use of metal fabrication equipment will be used to complete projects.

WELD 56  Structural Steel and Flux Corded Arc Weld  3 units

36 lecture hours, 54 lab hours

Emphasizes developing skills on structural steel and FCAW practices. Related instruction will include ferrous metal identification and welding characteristics, FCAW welding applications and variable, dual shield inert shielding gases and mixtures, troubleshoot FCAW equipment and welds completed in all positions. Students must provide those materials which are of continuing value outside of the classroom setting. This cost will be explained at the first class meeting.

WELD 57  Agriculture Welding  2 units

18 lecture hours, 54 lab hours

Emphasizes the development of minimum skill standards in Agriculture equipment repair welding. Gain knowledge in matching the repair to the type of weld best suited for the repair. The SMAW (shielded metal arc welding), the OFW (oxy-fuel welding) and the OFC (oxy-fuel cutting) processes are covered. GMAW, GTAW, FCAW, Plasma Arc cutting and technologies in Agricultural welding are covered.
