COLLEGE GOALS & PHILOSOPHY

WCC Mission

The mission of Woodland Community College is to empower students to achieve their career and educational goals by offering equitable opportunities to complete academic degrees, career certificates, and transfer pathways, thereby contributing to the economic development of the region, the state, and the country.

Advantages of WCC

The faculty are experienced instructors, skilled in discovering and developing the interests and capabilities of their students. The ability to communicate with faculty members minimizes the risk that a student may become confused and lost in the hurry and bustle of college life and emphasizes the importance of the individual. Furthermore, WCC bridges the gap between high school and university, facilitating the adjustment to postsecondary education.

The years of college education offered by WCC are an important budgetary consideration, especially since there is an increasing tendency for professional preparation to require more than four years of college study. WCC enables students and their families to conserve their resources for a longer period of study required for professional training.

WCC provides students with such services and activities as individualized counseling, social and cultural activities, and physical recreation to meet the needs and patterns of all students. Whether the goal is career training to enter the job market, developing new skills to use an existing profession, or planning for transfer—Woodland Community College is an excellent choice.

The Board of Trustees is committed to equity, values the diversity of the District's students, faculty, staff, and people with whom it does business, and believes in the importance of a multicultural education to prepare students for a global society.

The Board, in its commitment to diversity, has adopted the following: Definition of Diversity, Diversity Statement, Principles of Community, and Diversity Framework for Institutional Transformation and Cultural Competency.

Diversity Statement

The Yuba Community College District service area has a richly diverse population, spanning eight counties (Yuba, Sutter, Colusa, Lake, Yolo, and portions of Butte, Glenn and Placer) and nearly 4,200 square miles of territory in rural Northern California. The District recognizes, embraces, and celebrates the wide array of personal experiences and values that arise from differences of culture and circumstances within its vast educational borders.

The District has a compelling interest in fostering the multicultural knowledge, awareness, and skills necessary for its student body and workforce to contribute to its vision. The awareness that the District's campuses are accessible to students from all groups, and thus serve all parts of the community equitably, helps sustain the academic and social fabric of the District.

Diversity is an integral part of Woodland Community College's academic mission as it enriches the educational experiences and scholarly environment for all students. An interactive classroom that enhances diversity of thought and critical thinking across the curriculum will effectively prepare students for the complex and pluralistic world. WCC strives to foster an open exchange of ideas in an environment that provides role models and exemplifies the values of integrity, civility, mutual respect, and social justice in all of its activities.

The Yuba Community College District is committed to providing fair and equitable opportunities to students, employees, and the community through its recruitment, admission, and retention.

Degree Course Requirements

Only courses completed by deadlines may be counted toward the degree to be issued for the requested term. ([See "Course Numbering and Transfer of Credits" on page 79](#))

TRANSFER REQUIREMENTS FOR UC & CSU

Updated for 2023–2024. See a counselor for the latest information.

Intersegmental General Education Transfer Curriculum (IGETC)

Completion of all the requirements in the Intersegmental General Education Transfer Curriculum (IGETC) will permit a student to transfer from a community college to a campus in either the California State University or the University of California system without the need, after transfer, to take additional lower-division, general education courses. All courses must be completed with grades of “C” or better. Advanced Placement (AP) examinations are appropriate for inclusion on the IGETC pattern.

Certificate of Completion (Noncredit)

Employers demand good computer skills. They want employees who can type, are familiar with word processing and spreadsheets, and know how to use the Internet as a strategic business tool. Woodland Community College's Business Computer Applications Basics certificate starts with the basics of using a computer and operating system, then moves on to software applications, keyboarding, and online skills. This certificate will help students begin to develop the core computer skills they will need to succeed in today's job market.

SOCIAL WORK AND HUMAN SERVICES (A.A.-T)

The Associate in Science for Transfer in Social Work and Human Services is specifically designed as a pathway to the California State University for social work, human services, and related majors. The courses within this program provide students with the historical context and foundations of social work, as well as hands on experience in community-based organizations. Many of the courses in this degree are also aligned with the Human Services Associate in Science.

Students who complete an Associate Degree for Transfer (AA-T or AS-T) will receive priority admission with junior status to the California State University System and priority admission consideration to their local CSU campus or to a program that is deemed similar to their community college major. This priority does not guarantee admission to specific majors or campuses. Students should consult with a counselor for more information on specific university major admission and transfer requirements.

The following are required for all AA-T or AS-T degrees:

- Minimum of 60 CSU transferrable semester units
- Minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework
- Completion of all courses in the major with grade of C or better or a P if the course is taken on a pass-no pass basis
- Certified completion of the California State University General Education-Breadth pattern (CSU GE Breadth) or the Intersegmental General Education Transfer Curriculum (IGETC) pattern

Student Learning Outcomes

Upon successful completion of this program, students will be able to:

- ✓ Describe the basic concepts, methods of inquiry, and the theories of social work and human services practice.
- ✓ Analyze public policy issues, complexities and controversies affecting social service agencies and their clients.
- ✓ Appraise and apply the knowledge of existing California professional codes of ethics for the helping professions.
- ✓ Demonstrate effective individual and group setting interpersonal and social skills in interactions with a demographically diverse population.
